NOTE A—DESCRIPTION OF PLAN

The following description of the Boskovich Farms, Inc. 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company who have six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 50% of pretax annual compensation as defined in the Plan, up to Internal Revenue Service allowable amount per year. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers approximately seventy-three mutual funds and an insurance investment contract as investment options for participants. The Company contributes an amount equal to a percentage of the Participant's eligible compensation up to 25% of the first 7½% of the deferral each pay period. This percentage is discretionary on the part of the Employer and may be changed from year to year. The investment of the Employer contribution is directed by the participants. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants vest immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution plus the earnings thereon is based on years of continuous service. A participant vests 100% after five years of service.

Forfeitures: Company contributions, which participants forfeit when employment terminates prior to becoming 100% vested in the plan, are used as a credit to reduce the Company's matching contribution and pension plan expenses. At December 31, 2011, forfeitures totaled $637.

Participant Loans: The Plan does not permit participant loans.

Payment of Benefits: On termination of service because of death, disability or retirement, a participant receives a distribution of the full amount of the value of the participant's vested interest in his or her account.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair market value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis.

NOTE C—INVESTMENTS, INCOME AND EXPENSES

The following information included in the accompanying financial statements was obtained from data prepared and certified as complete and accurate by the custodian.

Forfeitures are held in a non-interest bearing cash account for future utilization as offsets to Employer contributions. At December 31, 2012, the account balance was $1,469. The entire cash account is from forfeitures which is accumulated for one year.

Interest Income	$	2,618
Net appreciation in fair value of investments		442,417
Administrative Expenses		40,977
Third Party Administrator Service Fees		300
Redemption Fees		0

NOTE D—FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the frame work for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 82 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

NOTE D—FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the closing price reported in the active market in which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plans assets at fair value as of December 31, 2012 and 2011.

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 4,339,494	-	-	$ 4,339,494
Total assets at fair value	$ 4,339,494	-	-	$ 4,339,494

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 3,751,399	-	-	$ 3,751,399
Total assets at fair value	$ 3,751,399	-	-	$ 3,751,399

NOTE E—PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE F—TAX STATUS

The Internal Revenue Service has determined in a letter dated March 31, 2008, that the Plan (Defined Contribution Volume Submitter Plan) and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe the current design and operation of the Plan is in compliance with the applicable requirements of the Internal Revenue Code.

NOTE G—RECONCILIATION OF FINANCIAL STATEMENTS AND FORM 5500

There is a difference between the financial statement assets which are prepared on the accrual basis, and the Form 5500 Schedule H assets and liability statement, which are prepared on the cash basis. The difference is the form 5500 has $637 more assets than the financial statements; this is due to the forfeitures.

	2011	2010
Net Assets Available for benefits per the financial statements	$ 3,751,399	$ 3,713,733
Net assets available per form 5500	$ 3,752,036	$ 3,713,733
Variance-Forfeitures	$ 637	$ -

NOTE H – RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – SUBSEQUENT EVENTS

In accordance with ASC 855 Financial Standard 165, management had evaluated subsequent events through July 18, 2012, the date on which the Financial Statements were available to be issued.
