Report on the Financial Statements

We were engaged to audit the accompanying financial statements of RiceTec, Inc. Retirement/Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Bank & Trust, F.S.B., the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012 and 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules as of or for the year ended December 31, 2012 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the RiceTec, Inc. (the "Company") Retirement/Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. *General* – The Plan is a defined contribution plan covering substantially all employees of RiceTec, Inc. who have six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Effective January 1, 2002, the Plan was amended to incorporate certain provisions of the General Agreement of Tariffs and Trade, the Uniform Services Employment Reemployment Rights Act, the Small Business Job Protection Act, the Taxpayer Relief Act of 1997, the Internal Revenue Restructuring and Reform Act of 1998 and the Community Renewal Tax Relief Act of 2000 (collectively "GUST") and the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

   Effective January 1, 2010, eligible employees not currently participating in the Plan will be automatically enrolled at 3% of base salary for the traditional 401(k). The Company will match this amount dollar for dollar up to the limitation, as described below. The employees can opt out of the Plan, increase or decrease their contribution amounts, and make investment elections within 90 days. Also effective January 1, 2010, participants can also choose to contribute to a traditional 401(k), Roth 401(k), or both. Roth 401(k) utilizes after-tax earnings. The Company will match these contributions dollar for dollar up to the limitation, as described below. Effective January 1, 2010, all participants will also automatically enroll in Contribution Accelerator unless they choose to opt out, which means that participant contributions will automatically increase in increments of 1% each year up to a maximum amount of 6%. These automatic increases will occur at the same time each year.

b. *Contributions* – Participants may contribute from 1% to 75% of eligible compensation, as defined in the Plan, subject to statutory limitations (as defined by the Internal Revenue Code ("IRC") and subject to annual cost-of-living adjustment). Such limitation for 2012 and 2011 was $17,000 and $16,500, respectively. The Plan allows participants age 50 and older to make additional salary deferrals (referred to as employee catch-up contributions), subject to legal limits of $5,500 in 2012 and 2011. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or defined contribution plans. The Plan currently offers a guaranteed investment contract and various mutual funds as investment options for participants. The Company matches 100% of employee contributions, up to 5% of eligible compensation. Contributions are subject to certain limitations as defined in the Plan document.

c. *Participant Accounts* – Each participant's account is credited with the participant's contribution, the Company's matching contributions, and allocations of Plan's earnings and charged with allocations of the Plan's losses and with administrative fees associated with loan requests and/or other participant requests. Allocations are based on the participant's account balance as defined. Participants direct the investment of their contributions into various investment options offered by the Plan. As of December 31, 2012, the Plan offered 14 investment options for participants.

d. *Vesting* – Participants are immediately vested in their contributions and the Company's matching contributions plus actual earnings thereon.

e. *Notes Receivable - Participant Loans* – Participants are permitted to borrow from their fund accounts a minimum amount of $1,000 up to a maximum amount, equal to the lesser of $50,000, or 50 percent of the vested portion of their account balance reduced by the highest outstanding loan balance during the previous twelve month period. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Participant loans mature on various dates through 2017 with interest rates ranging from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions over a period of five years or less, except for the purchase of a principal residence which may be repaid over a reasonable period of time that may be longer than five years.

f. *Payment of Benefits* – On termination of service due to death, disability, retirement or separation from service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan.

g. *Forfeited Accounts* – Forfeitures by non-vested participants are used as an employer credit and then, to the extent any forfeitures remain, they are reallocated to participants' accounts.

h. *Administrative Expenses* – A majority of the costs and expenses of the Plan and its administration, including fees and expenses of the Trustee, are paid by the Company. All taxes, commissions and other charges on purchases, sales and transfers of investments are paid out of the fund or account involved in such purchase or sale. Participants are responsible for their own loan and distribution fees. Participants pay for the annual fund fees, and the Company pays for the recordkeeping fees.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

New Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S., GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures,* to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement and disclosure requirements, while other amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of the provisions of ASU 2011-04 did not have a material impact on the Plan's financial statements.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Mutual Funds

Mutual funds represent investments with various investment managers. The fair value of these investments is determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value as of December 31, 2012 and 2011.

Traditional Guaranteed Investment Contracts ("GICs")

Traditional GICs are investment contracts backed by the general account of the issuer. The Plan deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will occur at contract value (principal plus accrued interest). Accounting principles generally accepted in the United States require that fully benefit-responsive investment contracts be reported at fair value rather than contract value with an offsetting asset or liability in the Statement of Net Assets Available for Benefits and only affects the presentation of the investments within the Plan's Statements of Net Assets Available for Benefits.

The fair value of the contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

For financial reporting purposes, the fair value of the contract approximates the contract value of the instruments.

Notes Receivable - Participant Loans

Participant loans are classified as notes receivables-participant loans and are measured at the unpaid principal balance plus unpaid accrued interest. The Plan classifies all participant loans with no payments received for 6 months as in default. Defaulted loans are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. During 2012 and 2011, $928 and $4,328, respectively, were recorded as deemed distributions.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan management evaluated subsequent events through July 31, 2013, which is the date the financial statements were available to be issued.

3. Investments

Investments that represent 5% or more of the Plan's net assets are as follows:

4. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

December 31,	**2012**	2011
Mutual funds	**$ 12,163,786**	$ 9,342,141
Guaranteed investment contract	**5,188,263**	5,146,701
Notes receivable - participant loans	**362,370**	352,870

Years Ended December 31,	**2012**	2011
Interest income on notes receivable from participants	**$ 15,206**	$ 16,105
Net appreciation (depreciation) in fair value of mutual funds	**1,381,782**	(489,473)
Interest income on guaranteed investment contract	**112,251**	106,340
Dividend income	**187,720**	127,115
Other income	**(5)**	8,676

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There were no transfers between levels for the years ended December 31, 2012 and 2011.

The following tables set forth by level within the fair value hierarchy the Plan investment assets and investment liabilities at fair value, as of December 31, 2012 and 2011. As required by FASB ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Investment Assets at Fair Value As of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,163,786	$ —	$ —	$12,163,786

Total investments at fair value	$ 9,342,141	$ 5,146,701	$ —	$14,488,842

6. Guaranteed Investment Contract

In 2003, the Plan entered into a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company ("Prudential"). Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan) (ii) changes to plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Plan document. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long term credit rating below a threshold set forth in the contract; is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, withdrawing plans may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro-rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

As described in Note 2, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Average yields for the GIC	**2012**	2011
Based on actual earnings	**2.20**%	2.20%
Based on interest rate credited to participants	**2.05**%	2.20%

7. Related Party Transactions

The Plan assets are managed by Prudential Bank & Trust, F.S.B, trustee of the Plan; therefore, these transactions qualify as party-in-interest. Participant loans also qualify as parties-in-interest transactions. Fees paid by the Plan to parties-in-interest amounted to $5,887 and $3,609 for the years ended December 31, 2012 and 2011, respectively.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would remain 100% vested in their accounts.

9. Tax Status

The Plan is an adoption of a non-standardized prototype arrangement designed by Prudential Retirement Insurance and Annuity Company. Prudential Retirement Insurance and Annuity Company obtained its latest determination letter on February 6, 2002, in which the Internal Revenue Service ("IRS") stated that the prototype arrangement, as designed, was in compliance with the applicable requirements of the IRC including amendments to comply with recent legislation (GUST). The Plan has not yet received its own determination letter from the IRS. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal and state income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a tax liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

10. Risks and Uncertainties

The Plan provides for investment in various investment securities. Such investment options are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

11. Delinquent Participant Contributions

In 2012, the Company determined that certain employee deferrals aggregating $7,535 had not been remitted to the Plan in a timely manner, according to Department of Labor regulations. Although these remittances were made, they fell outside the normal processing time the Company allows. An investigation was held to determine the root cause of the delinquent contributions, and corrective measures were taken. Of the aggregate amount, lost earning calculations of $7,200 will be processed and deposited to participant accounts in 2013.

In 2011, the Company determined that certain employee deferrals aggregating $168 had not been remitted to the Plan in a timely manner, according to Department of Labor regulations. Although these remittances were made, they fell outside the normal processing time the Company allows. An investigation was held to determine the root cause of the delinquent contributions, and corrective measures were taken. Lost earning calculations were processed and deposited to participant accounts in 2012.

12. Subsequent Events

On December 31, 2012, the Company formed a separate defined contribution plan for its employees in Puerto Rico. Therefore, approximately $425,000 was transferred out of the Plan into a separate plan, which began effective January 1, 2013.

On February 1, 2013, the Plan changed its custodian from Prudential Bank & Trust F.S.B. to Great-West Financial, and all Plan assets were transferred accordingly.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of RiceTec, Inc. Retirement/Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Bank & Trust, F.S.B., the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012 and 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules as of or for the year ended December 31, 2012 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the RiceTec, Inc. (the "Company") Retirement/Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. *General* – The Plan is a defined contribution plan covering substantially all employees of RiceTec, Inc. who have six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Effective January 1, 2002, the Plan was amended to incorporate certain provisions of the General Agreement of Tariffs and Trade, the Uniform Services Employment Reemployment Rights Act, the Small Business Job Protection Act, the Taxpayer Relief Act of 1997, the Internal Revenue Restructuring and Reform Act of 1998 and the Community Renewal Tax Relief Act of 2000 (collectively "GUST") and the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

   Effective January 1, 2010, eligible employees not currently participating in the Plan will be automatically enrolled at 3% of base salary for the traditional 401(k). The Company will match this amount dollar for dollar up to the limitation, as described below. The employees can opt out of the Plan, increase or decrease their contribution amounts, and make investment elections within 90 days. Also effective January 1, 2010, participants can also choose to contribute to a traditional 401(k), Roth 401(k), or both. Roth 401(k) utilizes after-tax earnings. The Company will match these contributions dollar for dollar up to the limitation, as described below. Effective January 1, 2010, all participants will also automatically enroll in Contribution Accelerator unless they choose to opt out, which means that participant contributions will automatically increase in increments of 1% each year up to a maximum amount of 6%. These automatic increases will occur at the same time each year.

b. *Contributions* – Participants may contribute from 1% to 75% of eligible compensation, as defined in the Plan, subject to statutory limitations (as defined by the Internal Revenue Code ("IRC") and subject to annual cost-of-living adjustment). Such limitation for 2012 and 2011 was $17,000 and $16,500, respectively. The Plan allows participants age 50 and older to make additional salary deferrals (referred to as employee catch-up contributions), subject to legal limits of $5,500 in 2012 and 2011. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or defined contribution plans. The Plan currently offers a guaranteed investment contract and various mutual funds as investment options for participants. The Company matches 100% of employee contributions, up to 5% of eligible compensation. Contributions are subject to certain limitations as defined in the Plan document.

c. *Participant Accounts* – Each participant's account is credited with the participant's contribution, the Company's matching contributions, and allocations of Plan's earnings and charged with allocations of the Plan's losses and with administrative fees associated with loan requests and/or other participant requests. Allocations are based on the participant's account balance as defined. Participants direct the investment of their contributions into various investment options offered by the Plan. As of December 31, 2012, the Plan offered 14 investment options for participants.

d. *Vesting* – Participants are immediately vested in their contributions and the Company's matching contributions plus actual earnings thereon.

e. *Notes Receivable - Participant Loans* – Participants are permitted to borrow from their fund accounts a minimum amount of $1,000 up to a maximum amount, equal to the lesser of $50,000, or 50 percent of the vested portion of their account balance reduced by the highest outstanding loan balance during the previous twelve month period. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Participant loans mature on various dates through 2017 with interest rates ranging from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions over a period of five years or less, except for the purchase of a principal residence which may be repaid over a reasonable period of time that may be longer than five years.

f. *Payment of Benefits* – On termination of service due to death, disability, retirement or separation from service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan.

g. *Forfeited Accounts* – Forfeitures by non-vested participants are used as an employer credit and then, to the extent any forfeitures remain, they are reallocated to participants' accounts.

h. *Administrative Expenses* – A majority of the costs and expenses of the Plan and its administration, including fees and expenses of the Trustee, are paid by the Company. All taxes, commissions and other charges on purchases, sales and transfers of investments are paid out of the fund or account involved in such purchase or sale. Participants are responsible for their own loan and distribution fees. Participants pay for the annual fund fees, and the Company pays for the recordkeeping fees.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

New Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S., GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures,* to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement and disclosure requirements, while other amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of the provisions of ASU 2011-04 did not have a material impact on the Plan's financial statements.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Mutual Funds

Mutual funds represent investments with various investment managers. The fair value of these investments is determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value as of December 31, 2012 and 2011.

Traditional Guaranteed Investment Contracts ("GICs")

Traditional GICs are investment contracts backed by the general account of the issuer. The Plan deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will occur at contract value (principal plus accrued interest). Accounting principles generally accepted in the United States require that fully benefit-responsive investment contracts be reported at fair value rather than contract value with an offsetting asset or liability in the Statement of Net Assets Available for Benefits and only affects the presentation of the investments within the Plan's Statements of Net Assets Available for Benefits.

The fair value of the contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

For financial reporting purposes, the fair value of the contract approximates the contract value of the instruments.

Notes Receivable - Participant Loans

Participant loans are classified as notes receivables-participant loans and are measured at the unpaid principal balance plus unpaid accrued interest. The Plan classifies all participant loans with no payments received for 6 months as in default. Defaulted loans are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. During 2012 and 2011, $928 and $4,328, respectively, were recorded as deemed distributions.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan management evaluated subsequent events through July 31, 2013, which is the date the financial statements were available to be issued.

3. Investments

Investments that represent 5% or more of the Plan's net assets are as follows:

4. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

December 31,	**2012**	2011
Mutual funds	**$ 12,163,786**	$ 9,342,141
Guaranteed investment contract	**5,188,263**	5,146,701
Notes receivable - participant loans	**362,370**	352,870

Years Ended December 31,	**2012**	2011
Interest income on notes receivable from participants	**$ 15,206**	$ 16,105
Net appreciation (depreciation) in fair value of mutual funds	**1,381,782**	(489,473)
Interest income on guaranteed investment contract	**112,251**	106,340
Dividend income	**187,720**	127,115
Other income	**(5)**	8,676

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There were no transfers between levels for the years ended December 31, 2012 and 2011.

The following tables set forth by level within the fair value hierarchy the Plan investment assets and investment liabilities at fair value, as of December 31, 2012 and 2011. As required by FASB ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Investment Assets at Fair Value As of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,163,786	$ —	$ —	$12,163,786

Total investments at fair value	$ 12,163,786	$ 5,188,263	$ —	$17,352,049

	Investment Assets at Fair Value As of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 9,342,141	$ —	$ —	$ 9,342,141

Total investments at fair value	$ 9,342,141	$ 5,146,701	$ —	$14,488,842

6. Guaranteed Investment Contract

In 2003, the Plan entered into a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company ("Prudential"). Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan) (ii) changes to plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Plan document. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long term credit rating below a threshold set forth in the contract; is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, withdrawing plans may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro-rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

As described in Note 2, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Average yields for the GIC	**2012**	2011
Based on actual earnings	**2.20**%	2.20%
Based on interest rate credited to participants	**2.05**%	2.20%

7. Related Party Transactions

The Plan assets are managed by Prudential Bank & Trust, F.S.B, trustee of the Plan; therefore, these transactions qualify as party-in-interest. Participant loans also qualify as parties-in-interest transactions. Fees paid by the Plan to parties-in-interest amounted to $5,887 and $3,609 for the years ended December 31, 2012 and 2011, respectively.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would remain 100% vested in their accounts.

9. Tax Status

The Plan is an adoption of a non-standardized prototype arrangement designed by Prudential Retirement Insurance and Annuity Company. Prudential Retirement Insurance and Annuity Company obtained its latest determination letter on February 6, 2002, in which the Internal Revenue Service ("IRS") stated that the prototype arrangement, as designed, was in compliance with the applicable requirements of the IRC including amendments to comply with recent legislation (GUST). The Plan has not yet received its own determination letter from the IRS. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal and state income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a tax liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

10. Risks and Uncertainties

The Plan provides for investment in various investment securities. Such investment options are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

11. Delinquent Participant Contributions

In 2012, the Company determined that certain employee deferrals aggregating $7,535 had not been remitted to the Plan in a timely manner, according to Department of Labor regulations. Although these remittances were made, they fell outside the normal processing time the Company allows. An investigation was held to determine the root cause of the delinquent contributions, and corrective measures were taken. Of the aggregate amount, lost earning calculations of $7,200 will be processed and deposited to participant accounts in 2013.

In 2011, the Company determined that certain employee deferrals aggregating $168 had not been remitted to the Plan in a timely manner, according to Department of Labor regulations. Although these remittances were made, they fell outside the normal processing time the Company allows. An investigation was held to determine the root cause of the delinquent contributions, and corrective measures were taken. Lost earning calculations were processed and deposited to participant accounts in 2012.

12. Subsequent Events

On December 31, 2012, the Company formed a separate defined contribution plan for its employees in Puerto Rico. Therefore, approximately $425,000 was transferred out of the Plan into a separate plan, which began effective January 1, 2013.

On February 1, 2013, the Plan changed its custodian from Prudential Bank & Trust F.S.B. to Great-West Financial, and all Plan assets were transferred accordingly.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of RiceTec, Inc. Retirement/Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Bank & Trust, F.S.B., the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012 and 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules as of or for the year ended December 31, 2012 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the RiceTec, Inc. (the "Company") Retirement/Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. *General* – The Plan is a defined contribution plan covering substantially all employees of RiceTec, Inc. who have six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Effective January 1, 2002, the Plan was amended to incorporate certain provisions of the General Agreement of Tariffs and Trade, the Uniform Services Employment Reemployment Rights Act, the Small Business Job Protection Act, the Taxpayer Relief Act of 1997, the Internal Revenue Restructuring and Reform Act of 1998 and the Community Renewal Tax Relief Act of 2000 (collectively "GUST") and the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

   Effective January 1, 2010, eligible employees not currently participating in the Plan will be automatically enrolled at 3% of base salary for the traditional 401(k). The Company will match this amount dollar for dollar up to the limitation, as described below. The employees can opt out of the Plan, increase or decrease their contribution amounts, and make investment elections within 90 days. Also effective January 1, 2010, participants can also choose to contribute to a traditional 401(k), Roth 401(k), or both. Roth 401(k) utilizes after-tax earnings. The Company will match these contributions dollar for dollar up to the limitation, as described below. Effective January 1, 2010, all participants will also automatically enroll in Contribution Accelerator unless they choose to opt out, which means that participant contributions will automatically increase in increments of 1% each year up to a maximum amount of 6%. These automatic increases will occur at the same time each year.

b. *Contributions* – Participants may contribute from 1% to 75% of eligible compensation, as defined in the Plan, subject to statutory limitations (as defined by the Internal Revenue Code ("IRC") and subject to annual cost-of-living adjustment). Such limitation for 2012 and 2011 was $17,000 and $16,500, respectively. The Plan allows participants age 50 and older to make additional salary deferrals (referred to as employee catch-up contributions), subject to legal limits of $5,500 in 2012 and 2011. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or defined contribution plans. The Plan currently offers a guaranteed investment contract and various mutual funds as investment options for participants. The Company matches 100% of employee contributions, up to 5% of eligible compensation. Contributions are subject to certain limitations as defined in the Plan document.

c. *Participant Accounts* – Each participant's account is credited with the participant's contribution, the Company's matching contributions, and allocations of Plan's earnings and charged with allocations of the Plan's losses and with administrative fees associated with loan requests and/or other participant requests. Allocations are based on the participant's account balance as defined. Participants direct the investment of their contributions into various investment options offered by the Plan. As of December 31, 2012, the Plan offered 14 investment options for participants.

d. *Vesting* – Participants are immediately vested in their contributions and the Company's matching contributions plus actual earnings thereon.

e. *Notes Receivable - Participant Loans* – Participants are permitted to borrow from their fund accounts a minimum amount of $1,000 up to a maximum amount, equal to the lesser of $50,000, or 50 percent of the vested portion of their account balance reduced by the highest outstanding loan balance during the previous twelve month period. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Participant loans mature on various dates through 2017 with interest rates ranging from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions over a period of five years or less, except for the purchase of a principal residence which may be repaid over a reasonable period of time that may be longer than five years.

f. *Payment of Benefits* – On termination of service due to death, disability, retirement or separation from service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan.

g. *Forfeited Accounts* – Forfeitures by non-vested participants are used as an employer credit and then, to the extent any forfeitures remain, they are reallocated to participants' accounts.

h. *Administrative Expenses* – A majority of the costs and expenses of the Plan and its administration, including fees and expenses of the Trustee, are paid by the Company. All taxes, commissions and other charges on purchases, sales and transfers of investments are paid out of the fund or account involved in such purchase or sale. Participants are responsible for their own loan and distribution fees. Participants pay for the annual fund fees, and the Company pays for the recordkeeping fees.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

New Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S., GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures,* to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement and disclosure requirements, while other amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of the provisions of ASU 2011-04 did not have a material impact on the Plan's financial statements.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Mutual Funds

Mutual funds represent investments with various investment managers. The fair value of these investments is determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value as of December 31, 2012 and 2011.

Traditional Guaranteed Investment Contracts ("GICs")

Traditional GICs are investment contracts backed by the general account of the issuer. The Plan deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will occur at contract value (principal plus accrued interest). Accounting principles generally accepted in the United States require that fully benefit-responsive investment contracts be reported at fair value rather than contract value with an offsetting asset or liability in the Statement of Net Assets Available for Benefits and only affects the presentation of the investments within the Plan's Statements of Net Assets Available for Benefits.

The fair value of the contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

For financial reporting purposes, the fair value of the contract approximates the contract value of the instruments.

Notes Receivable - Participant Loans

Participant loans are classified as notes receivables-participant loans and are measured at the unpaid principal balance plus unpaid accrued interest. The Plan classifies all participant loans with no payments received for 6 months as in default. Defaulted loans are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. During 2012 and 2011, $928 and $4,328, respectively, were recorded as deemed distributions.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan management evaluated subsequent events through July 31, 2013, which is the date the financial statements were available to be issued.

3. Investments

Investments that represent 5% or more of the Plan's net assets are as follows:

4. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

December 31,	**2012**	2011
Mutual funds	**$ 12,163,786**	$ 9,342,141
Guaranteed investment contract	**5,188,263**	5,146,701
Notes receivable - participant loans	**362,370**	352,870

Years Ended December 31,	**2012**	2011
Interest income on notes receivable from participants	**$ 15,206**	$ 16,105
Net appreciation (depreciation) in fair value of mutual funds	**1,381,782**	(489,473)
Interest income on guaranteed investment contract	**112,251**	106,340
Dividend income	**187,720**	127,115
Other income	**(5)**	8,676

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There were no transfers between levels for the years ended December 31, 2012 and 2011.

The following tables set forth by level within the fair value hierarchy the Plan investment assets and investment liabilities at fair value, as of December 31, 2012 and 2011. As required by FASB ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Investment Assets at Fair Value As of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,163,786	$ —	$ —	$12,163,786

Total investments at fair value	$ 12,163,786	$ 5,188,263	$ —	$17,352,049

	Investment Assets at Fair Value As of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 9,342,141	$ —	$ —	$ 9,342,141
Guaranteed investment contract	—	5,146,701	—	5,146,701
Total investments at fair value	$ 9,342,141	$ 5,146,701	$ —	$14,488,842

6. Guaranteed Investment Contract

In 2003, the Plan entered into a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company ("Prudential"). Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan) (ii) changes to plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Plan document. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long term credit rating below a threshold set forth in the contract; is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, withdrawing plans may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro-rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

As described in Note 2, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Average yields for the GIC	**2012**	2011
Based on actual earnings	**2.20**%	2.20%
Based on interest rate credited to participants	**2.05**%	2.20%

7. Related Party Transactions

The Plan assets are managed by Prudential Bank & Trust, F.S.B, trustee of the Plan; therefore, these transactions qualify as party-in-interest. Participant loans also qualify as parties-in-interest transactions. Fees paid by the Plan to parties-in-interest amounted to $5,887 and $3,609 for the years ended December 31, 2012 and 2011, respectively.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would remain 100% vested in their accounts.

9. Tax Status

The Plan is an adoption of a non-standardized prototype arrangement designed by Prudential Retirement Insurance and Annuity Company. Prudential Retirement Insurance and Annuity Company obtained its latest determination letter on February 6, 2002, in which the Internal Revenue Service ("IRS") stated that the prototype arrangement, as designed, was in compliance with the applicable requirements of the IRC including amendments to comply with recent legislation (GUST). The Plan has not yet received its own determination letter from the IRS. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal and state income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a tax liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

10. Risks and Uncertainties

The Plan provides for investment in various investment securities. Such investment options are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

11. Delinquent Participant Contributions

In 2012, the Company determined that certain employee deferrals aggregating $7,535 had not been remitted to the Plan in a timely manner, according to Department of Labor regulations. Although these remittances were made, they fell outside the normal processing time the Company allows. An investigation was held to determine the root cause of the delinquent contributions, and corrective measures were taken. Of the aggregate amount, lost earning calculations of $7,200 will be processed and deposited to participant accounts in 2013.

In 2011, the Company determined that certain employee deferrals aggregating $168 had not been remitted to the Plan in a timely manner, according to Department of Labor regulations. Although these remittances were made, they fell outside the normal processing time the Company allows. An investigation was held to determine the root cause of the delinquent contributions, and corrective measures were taken. Lost earning calculations were processed and deposited to participant accounts in 2012.

12. Subsequent Events

On December 31, 2012, the Company formed a separate defined contribution plan for its employees in Puerto Rico. Therefore, approximately $425,000 was transferred out of the Plan into a separate plan, which began effective January 1, 2013.

On February 1, 2013, the Plan changed its custodian from Prudential Bank & Trust F.S.B. to Great-West Financial, and all Plan assets were transferred accordingly.
