NOTE 1 - DESCRIPTION OF PLAN

The Capital Cardiology Associates, P.C. Profit Sharing 401(k) Plan (Plan) was formed effective May 1, 2002. The Plan is sponsored by Capital Cardiology Associates, P.C. (Company). The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan assets are currently held by Fidelity Management Trust Company, the Trustee of the Plan. Company contributions, participant elective deferrals, and participant accounts are held and administered by the Trustee, who invests cash received and income from investments based on written instructions from the participants, and makes distributions to participants.

a. General

The Plan is a Profit Sharing Plan with a 401(k) feature, covering all eligible employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective August 31, 2011, the Plan was amended to include additional investment options for participants.

Effective March 12, 2012, the Plan was amended to add additional predecessor employers for eligibility and vesting purposes.

Effective March 6, 2013, the Plan was amended to include additional investment options for participants.

b. Contributions

Each year, participants may contribute a percentage of their annual wages on a pre-tax basis to the Plan. Contributions are subject to certain limitations as defined by the Plan and the Internal Revenue Code (IRC). The maximum participant deferral was $17,000 and $16,500 for the Plan years ended December 31, 2012 and 2011, respectively. Participants age 50 and over are permitted to make additional elective deferral contributions or "catch-up" contributions of $5,500 for both Plan years ended December 31, 2012 and 2011. Participants may also contribute amounts representing rollovers from other qualified plans.

The Company contributions to the Plan include (i) a 3% fully vested nonelective contribution, pursuant to a safe harbor election, (ii) a matching contribution equal to a uniform percentage of salary deferrals not to exceed 6% of participant compensation, and (iii) a discretionary profit sharing contribution.

Any discretionary profit sharing contribution will be allocated among participants based on a group allocation formula. Contributions allocated to each group are discretionary and determined annually by the Board of Directors. Participants will share in the Company's discretionary profit sharing contribution regardless of the amount of service they complete during the Plan year. The specific annual contribution must be determined to be nondiscriminatory under the IRC. The contributions allocated by participant groups are as follows:

		December 31,	
		2012	2011
Group A	Physicians	10.200% (a)	10.265% (a)
Group B	Upper management	7.000% (a)	7.000% (a)
Group C	Middle management	5.000% (a)	5.000% (a)
Group D	Supervisor/Coordinators	4.000% (a)	4.000% (a)
Group E	All other employees	3.000% (a)	3.000% (a)

(a) The percentage shown is applied to participant salary, up to a maximum allowable amount under the current IRC limit of $250,000 and $245,000 for the Plan years ended December 31, 2012 and 2011, respectively.

NOTE 1 - DESCRIPTION OF PLAN - Continued

b. Contributions - Continued

Company contributions to the Plan (referred to as employer contributions in these financial statements) for the years ended December 31, 2012 and 2011, totaled $1,358,996 and $1,287,069, respectively, of which $950,745 and $900,264 represented discretionary profit sharing contributions and $408,251 and $386,805 represented nonelective contributions. The Company's 3% nonelective contribution was based on the employees' compensation for the years ended December 31, 2012 and 2011, subject to the same compensation limit described above. The Company did not make a matching contribution for the Plan years ended December 31, 2012 and 2011.

Participants direct their elective deferral amounts and Company contributions to any of several investment options.

c. Plan Eligibility

In general, employees are eligible to participate in the Plan after attaining age 21, completing 12 consecutive months of service, and having been credited with 1,000 hours of service. After eligibility requirements are met, participants may enter the Plan at the next entry date. The entry dates of the Plan are January 1, April 1, July 1, and October 1. The normal retirement age is the later of age 65 or the fifth anniversary of the participant's employment commencement date.

d. Participant Accounts

Each participant's account is credited with their voluntary contribution plus the participant's allocable share of (a) the Company's nonelective and matching contributions and (b) Plan earnings or losses, charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately vested in their voluntary contributions, rollover amounts, Company nonelective contributions, and actual earnings thereon. Vesting in the Company's matching or discretionary profit sharing contributions is based on years of continuous service. A participant is 100% vested upon: (1) attaining three years of credited service; (2) disability; (3) death; (4) normal retirement at age 65; or (5) termination of the Plan.

f. Participant Notes Receivable

Participants may borrow from their Plan accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, or 50% of their vested account balance. Loan terms range from one to five years (except for loans used to purchase a primary residence, for which the term may be longer), are secured by the vested balance in the participant's account, and bear interest at a rate equal to local prevailing rates as determined by the Plan Administrator. The interest rates in effect during the years ended December 31, 2012 and 2011, ranged from 3.5% to 8%. Principal and interest are paid ratably through payroll deductions.

g. Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in their account as a lump-sum distribution or as a rollover to another plan. If the value of a participant's vested interest in their account is less than $1,000, a lump-sum distribution will be made by the Plan regardless of whether the participant elects to receive it or not.

In addition, the Plan allows for hardship distributions to satisfy certain financial needs of participants as defined by the Plan document. The Plan also permits in-service distributions once participants obtain the age of 59½.

NOTE 1 - DESCRIPTION OF PLAN - Continued

h. Forfeiture Accounts

The nonvested portion of a participant's account, as defined by the Plan, represents a forfeiture. Any forfeitures will be used to pay administrative expenses for the Plan. After all administrative expenses are paid, the remaining forfeitures will be added to the Company's discretionary profit sharing contribution, if any, and allocated to participants as an additional employer contribution. There were no forfeiture amounts allocated to participants as an additional contribution during the Plan years ended December 31, 2012 and 2011. There were $5,080 and $1,225 of unallocated forfeitures at December 31, 2012 and 2011, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

a. Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) for defined contribution pension plans.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

b. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is defined as an exchange price that would be received for an asset or paid to transfer a liability (an "exit" price) between market participants on the measurement date, in the principal or most advantageous market for the asset or liability.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Effective December 31, 2012, the Plan adopted Accounting Standards Update (ASU) 2011-04, *Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-04 clarifies existing guidance and makes wording changes to align with International Financial Reporting Standards. In addition, certain amendments to this ASU change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The adoption of ASU 2011-04 did not have a material impact on the Plan's financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

d. Participant Notes Receivable

Participant loans are classified as loans receivable from participants, which are stated at their principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

e. Payment of Benefits

Benefits are recorded when paid.

f. Administrative Fees

As described above, certain administrative costs are paid by forfeitures. Administrative costs in excess of forfeitures are paid by the Plan or the Company. Administrative costs paid by the Plan are allocated ratably to participants based on their account balance.

g. Subsequent Events

The Plan has evaluated subsequent events that provide additional evidence about conditions that existed at the financial statement date through July 26, 2013, the date the financial statements were available to be issued.

NOTE 3 - INFORMATION CERTIFIED AND PROVIDED BY TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of investments held at December 31, 2012 and 2011, and investment income for the year ended December 31, 2012, that is disclosed in the accompanying financial statements and supplemental schedule, and obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee of the Plan:

	December 31,	
	2012	2011
Investments, at fair value	$ 22,808,732	$ 18,849,087
Interest and dividends	469,169	415,130
Net appreciation (depreciation) in fair value of investments	1,869,390	(979,044)

NOTE 4 - INVESTMENTS AND FAIR VALUE MEASUREMENT

The following tables present separately those assets that represent 5% or more of the Plan's net assets:

Fidelity Managed Income Portfolio	2,694,665
Fidelity Freedom 2020 Fund	1,052,471

The Plan's investments, including gains and losses on investments bought and sold, as well as held during the year appreciated (depreciated) as follows:

	December 31,	
	2012	2011
Mutual funds	$ 1,794,474	$ (1,045,504)
Investment contract	74,916	66,460
	$ 1,869,390	$ (979,044)

U.S. GAAP provides a framework for measuring fair value. That framework includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following three levels of inputs that may be used to measure fair value are:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 4 - INVESTMENTS AND FAIR VALUE MEASUREMENT - Continued

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan that are registered with the Securities Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the major categories of the Plan's investments measured at fair value:

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed investment contract	$ 2,694,665	Discounted cash flow	Duration	2.5	1.31%

NOTE 5 - INVESTMENT CONTRACT

The Plan has entered into a benefit-responsive investment contract with Fidelity Management Trust Company. Fidelity Management Trust Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Fidelity Management Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are viewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	December 31,	
Average Yields	2012	2011
Based on actual earnings	1.31%	1.48%
Based on interest rate credited to participants	1.31%	1.48%

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan terminates, participants will become 100% vested in their accounts, and the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. Upon termination of the Plan, the Trustee will continue to hold the Plan assets and will make distributions of the Plan benefits in accordance with the instructions of the Plan Administrator and the Plan provisions.

NOTE 7 - TAX STATUS

The Internal Revenue Service (IRS) has ruled that the Volume Submitter Profit Sharing Plan offered by the Plan Trustee and adopted by the Plan on November 30, 2009, constitutes a qualified plan under Section 401(a) of the IRC and is, therefore, exempt from federal income taxes under the provisions of Section 501(a). The volume submitter plan has received an opinion letter dated March 31, 2008, from the IRS as to the Plan's qualified status. Although the Plan has been amended since receiving this letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7 - TAX STATUS - Continued

The Plan's management evaluates tax positions taken by the Plan and recognizes a tax liability or asset if an uncertain tax position was taken and it is more likely than not that the tax position would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions. The Plan is no longer subject to income tax examinations for the years 2008 and prior.

NOTE 8 - RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

The Company's contributions to the Plan for the years ended December 31, 2012 and 2011, were $1,358,996 and $1,287,069, respectively, of which $1,018,106 and $967,053 were due the Plan at December 31, 2012 and 2011, respectively. Administrative fees incurred and paid by the Company totaled $12,284 and $26,375 for the years ended December 31, 2012 and 2011, respectively.

Certain Plan administrative functions are performed by officers or employees of the Company who do not receive compensation for such functions from the Plan. Certain administrative expenses incurred by the Plan are paid by the Company.

In addition, several of the mutual funds offered as investment options are managed by Fidelity Management Trust Company, the Trustee of the Plan.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan is comprised of investments in a combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The net assets available for benefits, at fair value per the financial statements, agree to the net assets available for benefits on the Form 5500 as of and for the years ended December 31, 2012 and 2011.

The following is a reconciliation of the net increase in net assets available for benefits per the accompanying financial statements, which were prepared under U.S. GAAP, to the net income on the Form 5500 at:

	December 31,
