NOTE A - DESCRIPTION OF PLAN

The following description of SBK Capital, LLC 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all employees of SBK Capital, LLC and its affiliates ("the Company"), who have 6 months of service and have attained age 21. Upon meeting the eligibility requirements, employees may enter the Plan on the first day of the next January or July. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

Each year participants may contribute pre-tax and post-tax annual compensation as defined in the Plan and subject to ERISA limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers several pooled separate accounts and an insurance company general account as investment options for participants. The Company made no contributions for the year ended December 31, 2012. Contributions are subject to certain limitations.

3. Participant accounts

Each participant's account is credited with the participant's contribution and employer qualified matching contribution, as well as an allocation of (a) employer discretionary contributions, (b) plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions and any special contributions, as defined by the Plan, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is fully vested after six years of credited service.

5. Payment of benefits

On termination of service, a participant may elect to receive either a lump-sum or installment payments up to the value of the participant's vested interest in his or her account. Certain in-service benefit withdrawals are also permitted.

NOTE A - DESCRIPTION OF PLAN (continued)

6. Notes receivable from participants

The Plan does not currently allow participants to borrow from their accounts, however, at December 31, 2011, notes receivable from participants remained outstanding from loans issued prior to April 1, 2010, at which point the plan was amended to no longer permit loans to participants. Prior to this amendment, participants were permitted to borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. At December 31, 2011, outstanding loans were secured by the balance in the participant's account and carried interest rates ranging from 4.5% to 6% which were commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest was paid ratably through payroll deductions. As of December 31, 2011, the Plan had participant loans receivable of approximately $5,960.

7. Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of accounting

The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United Stated of America, including the use of the accrual method of accounting.

As described in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946-210, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value.

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Plan invests in a group annuity contract which is subject to FASB ASC 946-210. An adjustment is presented on the statements of net assets available for benefits for this investment to present the contract value.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2. Investments, valuation, and income recognition

The Plan's investments are stated at fair value using quoted market prices. Shares of pooled separate accounts are valued at the quoted market price, which represents the net asset value of shares held by the Plan at year end. Dividend income is recorded on the ex-dividend date and capital gain distributions are included in dividend income. Interest income is recorded on the accrual basis.

3. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management and the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

4. Payments of benefits

Benefits are recorded when paid.

5. Notes receivable from participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Management reviews unpaid loan balance to determine if an allowance should be recorded for balance that are considered uncollectable. As of December 31, 2011, all balances are considered to be fully collectable and, as such, no allowance has been recorded.

NOTE C - INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE - UNAUDITED

Ameritas Life Insurance Corp., the trustee, holds the Plan's investments and executes investment transactions. The following is a summary of the Plan's financial information that is included in the financial statements, accompanying notes and supplemental schedule of assets (held at end of year), based on information certified by the trustee as complete and accurate in accordance with section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As directed by the plan administrator, this information is unaudited. The value of investments certified at December 31, 2012 and 2011 was $1,951,171 and $1,730,944, respectively.

NOTE C - INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE - UNAUDITED (continued)

Investments are reported at fair value with the exception of the insurance company general account, which is reported at contract value.

The following presents investments that represent 5% or more of the Plan's net assets:

	2012	2011
T. Rowe Capital Appreciation, Advisor Class	$ 602,552	$ 461,817
Ameritas Life Insurance Company Guaranteed Investment Account	294,321	315,521
Thornburg International Value Fund, R4	139,234	139,710
Calvert VP S&P 500 Index	117,406	131,408
T. Rowe Price Retirement 2030, Advisor Class	106,344	*

*Did not represent 5% or more of the assets for the year presented.

The Plan's investments, including investments bought, sold, and held for the year ended December 31, 2012, changed in value as follows:

Net appreciation in fair value of investments	$ 190,761
Dividend and interest income	$ 10,166

NOTE D - RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are pooled separate accounts managed by Ameritas Life Insurance Corp. Ameritas Life Insurance Corp. is the record keeper and custodian as defined by the Plan and therefore these transactions qualify as party-in-interest transactions.

Plan participants pay daily fees through all accounts for investment management fees. It is impracticable to estimate the fees paid directly by the participants to the Plan.

Fees paid by the Plan for administrative expenses amounted to $6,724 for the year ended December 31, 2012.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE F - INCOME TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan adheres to the provisions of FASB ASC 740, *Income Taxes*, which establishes rules for recognizing and measuring tax positions taken in an income tax return, including disclosures of uncertain tax positions (UTPs). ASC 740 mandates that companies evaluate all material income tax positions for periods that remain open under applicable statutes of limitation, as well as positions expected to be taken in future returns. The UTP rules then impose a recognition threshold on each tax position. A plan can recognize an income tax benefit only if the position has a "more likely than not" (i.e. more than 50 percent) chance of being sustained on the technical merits. For the years ended December 31, 2012 and 2011, the Plan has taken no material tax positions on its applicable tax filings that do not meet the more likely than not threshold. As a result, no amount for UTPs has been included in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities, which are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

NOTE H - FAIR VALUE MEASUREMENTS (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets • quoted prices for identical or similar assets or liabilities in inactive markets • inputs other than quoted prices that are observable for the asset or liability • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of the unobservable inputs.

NOTE H - FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts: are invested in investments such as stocks, mutual funds, bonds, etc. Ameritas Life Insurance Corp owns the underlying investments in the separate accounts. The underlying measurements for the separate accounts have observable (Level 1) inputs, including quoted prices for similar assets in active markets. The fair value of the pooled separate accounts equals the number of shares of the respective underlying fund multiplying by the close net asset value (NAV) per share quoted by the fund.

Guaranteed Investment Accounts: The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is measured using an income approach based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE H - FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2012	Level 1	Level 2	Level 3

NOTE H - FAIR VALUE MEASUREMENTS (continued)

The following table presents changes in the Plan's Level 3 investment assets measured at fair value on a recurring basis for the year ending December 31:

{a} the various funds seek to replicate the total return of the various investments, index or mutual fund specifically related to the investment fund category and type.

NOTE I - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into an investment contract with Ameritas Life Insurance Corp. ("Ameritas"). Ameritas maintains the contributions in a guaranteed investment account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the Plan by Ameritas, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE I - INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

Each guaranteed investment account is available at maturity to: reinvest in a new guaranteed investment account, pay benefits or expenses, or transfer to another investment option. Benefits must be paid from the retirement funds other than the guaranteed investment account prior to maturity. Retirement funds are available prior to maturity upon plan termination. A surrender charge may apply to withdrawals from an unmatured guaranteed investment fund. A surrender charge does not apply to withdrawals due to retirement, termination of employment, disability or death.

The fair market value of the account is the value paid when funds are withdrawn prior to their maturity. If the applicable interest rate is equal to or less than the interest rate on the account, the fair market value is equal to the contract value. If applicable interest rate is greater than the interest rate on the account, the fair market value is the contract value reduced by a percentage.

Average yields:

	2012	2011
Based on actual earnings	3.15%	2.60%
Based on interest rate credited to participants	2.93%	3.18%
