To the Trustee and Participants
Aqua-Aerobic Systems, Inc.
Profit Sharing Plan
Rockford, Illinois

We were engaged to audit the statements of net assets available for benefits of Aqua-Aerobic Systems, Inc. Profit Sharing Plan as of December 31, 2009 and 2008 and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental Schedule H, Line 4i - Schedule of Assets (held at end of year). These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2009 and as of December 31, 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of the Aqua-Aerobic Systems, Inc. (the Company) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan. All employees of the Company who have completed three months of service and have reached the age of 18 and are not a leased employee are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a percentage of their eligible compensation as defined by the Plan, subject to the maximum amount allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may contribute a discretionary matching amount, on behalf of each participant. The amount of the discretionary match declared for those employees covered by the collective bargaining agreement with UAW Local #622 may be different than the amount for the non-covered employees. The Company may also contribute a profit sharing amount and additional amounts, at the discretion of the Company's Board of Directors, to eligible employees who are employed on December 31 of the plan year. For each active participant who is covered by the collective bargaining agreement with UAW Local #622 the Company shall contribute an amount equal to a percentage of such active participants' compensation as set forth in the collective bargaining agreement. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's matching contributions and an allocation of (a) the Company's discretionary contributions, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in the amount of their elective contributions and the allocated earnings thereon. Participants' vesting in the Company's matching contributions, discretionary profit sharing and earnings thereon, is based on years of service. A participant is fully vested after five years of credited service. A participant who is covered by the collective bargaining agreement with UAW Local #622 is immediately vested in the Company contribution and the allocated earnings thereon. A participant is also fully vested if their termination is a result of death or disability.

Investment options: Participants must direct all contributions to selected investments as made available and determined by the Plan Administrator. Participants have the option to transfer monies between investments and change the allocation of their investment elections daily.

Payment of benefits: On termination of service for any reason, participants may elect to receive benefits in a lump-sum distribution or in installments over a period of not more than their assumed life expectancy.

Administrative expenses: All administrative expenses incurred by the Plan and audit related fees can be paid by either the plan sponsor or the Plan.

Forfeited accounts: At December 31, 2009 and 2008, forfeited nonvested accounts totaled approximately $1,600 and $24,600, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2009, approximately $24,600 was used to reduce employer contributions.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective investment trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Payment of benefits: Benefits are recorded when paid.

New accounting pronouncement: In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The adoption of this guidance did not have a material impact on the Plan's financial position or Statement of Changes in Net Assets Available for Benefits.

Note 2. Significant Accounting Policies (Continued)

In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* which requires new disclosures and reasons for transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurements and disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective and not yet adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. The Plan's management is currently evaluating the impact of the guidance related to the financial statement disclosures.

Reclassifications: Certain amounts in the 2008 Statement of Net Assets Available for Benefits have been reclassified to conform to the current year presentation.

Subsequent events: The Plan has evaluated subsequent events through July 28, 2010, the date on which the financial statements were issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments:

	2009	2008
Investments:		
Collective investment trust, at fair value	$ 317,564	$ 161,016
Adjustment from fair value to contract value for interest in collective investment trust relating to fully benefit-responsive investment contracts	5,905	8,686
Collective investment trust, at contract value	323,469	169,702
Shares of registered investment companies, at fair value	16,113,957	12,225,558

Fidelity Management Trust Company also certified to the completeness and accuracy of $2,517,794 of net appreciation in fair value of investments and $197,751 of interest and dividends related to the aforementioned investments for the year ended December 31, 2009.

Note 4. Investments

The following table presents the fair values of investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008:

	2009	2008
Investments at fair value based on quoted market prices:		
Registered investment companies:		
Fidelity Contrafund	$ 4,899,072	$ 3,513,059
Fidelity International Discovery Fund	1,745,616	1,126,452
Fidelity Retirement Money Market Trust	2,808,458	2,476,908
Fidelity US Bond Index Fund	1,866,812	1,978,617

Note 5. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (ASC) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Collective investment trust: Investments in the collective investment trust are reported at fair value based upon the trust's underlying investments.

Shares of registered investment companies: Shares of registered investment companies are reported at fair value based on the quoted market price of the fund which represents the net asset value of the shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2009 and 2008:

	2009			
	Assets at Fair Value			
Description	Total	Level 1	Level 2	Level 3
Collective investment trust	$ 317,564	$ -	$ 317,564	$ -
Shares of registered investment companies:				
Money market fund	2,808,458	2,808,458	-	-
Intermediate bond fund	1,866,812	1,866,812	-	-
Balanced fund (a)	854,135	854,135	-	-
Domestic equities large cap value fund	37,298	37,298	-	-
Large cap blend fund	33,296	33,296	-	-
Large cap growth funds	5,225,283	5,225,283	-	-
Mid cap value funds	905,533	905,533	-	-
Mid cap growth funds	773,404	773,404	-	-
Small cap value fund	7,694	7,694	-	-
Small cap blend fund	265,798	265,798	-	-

International/Global funds	1,942,014	1,942,014	-	-
Life Cycle funds (b)	1,352,282	1,352,282	-	-
Totals	$ 16,431,521	$ 16,113,957	$ 317,564	$ -

(a) Balanced Funds - are funds that combine a stock component, a bond component and sometimes a money market component in a single portfolio.

(b) Life Cycle Funds - are a special category of balanced, or asset-allocation, mutual funds in which the proportional representation on an asset class in a fund's portfolio is automatically adjusted during the course of the fund's time horizon. The automatic portfolio run from a position of higher risk to one of lower risk as the investor ages and/or nears retirement.

Note 5. Fair Value Measurements (Continued)

	2008			
	Assets at Fair Value			
Description	Total	Level 1	Level 2	Level 3
Collective investment trust	$ 161,016	$ -	$ 161,016	$ -

Totals	$ 12,386,574	$ 12,225,558	$ 161,016	$ -

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using the net asset value per share as of December 31, 2009:

	Fair Value Estimated using Net Asset Value per Share			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Asset category:				
Collective investment trust -				
Stable Value Fund	$ 317,564	$ -	Immediate	1 year

Note 6. Income Tax Status

The Plan has filed for a determination letter from the Internal Revenue Service regarding the Plan's qualification under Section 401(a) and the related trust's tax-exempt status under the provisions of Section 501(a) of the Code. The Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Plan Administrator will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

Note 8. Related Party Transactions

Certain plan investments are shares of registered investment companies, money market, and a collective investment trust managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for administrative expenses to Fidelity amounted to approximately $140 for the year ended December 31, 2009.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.

To the Trustee and Participants
Aqua-Aerobic Systems, Inc.
Profit Sharing Plan
Rockford, Illinois

We were engaged to audit the statements of net assets available for benefits of Aqua-Aerobic Systems, Inc. Profit Sharing Plan as of December 31, 2009 and 2008 and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental Schedule H, Line 4i - Schedule of Assets (held at end of year). These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2009 and as of December 31, 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of the Aqua-Aerobic Systems, Inc. (the Company) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan. All employees of the Company who have completed three months of service and have reached the age of 18 and are not a leased employee are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a percentage of their eligible compensation as defined by the Plan, subject to the maximum amount allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may contribute a discretionary matching amount, on behalf of each participant. The amount of the discretionary match declared for those employees covered by the collective bargaining agreement with UAW Local #622 may be different than the amount for the non-covered employees. The Company may also contribute a profit sharing amount and additional amounts, at the discretion of the Company's Board of Directors, to eligible employees who are employed on December 31 of the plan year. For each active participant who is covered by the collective bargaining agreement with UAW Local #622 the Company shall contribute an amount equal to a percentage of such active participants' compensation as set forth in the collective bargaining agreement. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's matching contributions and an allocation of (a) the Company's discretionary contributions, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in the amount of their elective contributions and the allocated earnings thereon. Participants' vesting in the Company's matching contributions, discretionary profit sharing and earnings thereon, is based on years of service. A participant is fully vested after five years of credited service. A participant who is covered by the collective bargaining agreement with UAW Local #622 is immediately vested in the Company contribution and the allocated earnings thereon. A participant is also fully vested if their termination is a result of death or disability.

Investment options: Participants must direct all contributions to selected investments as made available and determined by the Plan Administrator. Participants have the option to transfer monies between investments and change the allocation of their investment elections daily.

Payment of benefits: On termination of service for any reason, participants may elect to receive benefits in a lump-sum distribution or in installments over a period of not more than their assumed life expectancy.

Administrative expenses: All administrative expenses incurred by the Plan and audit related fees can be paid by either the plan sponsor or the Plan.

Forfeited accounts: At December 31, 2009 and 2008, forfeited nonvested accounts totaled approximately $1,600 and $24,600, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2009, approximately $24,600 was used to reduce employer contributions.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective investment trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Payment of benefits: Benefits are recorded when paid.

New accounting pronouncement: In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The adoption of this guidance did not have a material impact on the Plan's financial position or Statement of Changes in Net Assets Available for Benefits.

Note 2. Significant Accounting Policies (Continued)

In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* which requires new disclosures and reasons for transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurements and disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective and not yet adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. The Plan's management is currently evaluating the impact of the guidance related to the financial statement disclosures.

Reclassifications: Certain amounts in the 2008 Statement of Net Assets Available for Benefits have been reclassified to conform to the current year presentation.

Subsequent events: The Plan has evaluated subsequent events through July 28, 2010, the date on which the financial statements were issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments:

	2009	2008
Investments:		
Collective investment trust, at fair value	$ 317,564	$ 161,016
Adjustment from fair value to contract value for interest in collective investment trust relating to fully benefit-responsive investment contracts	5,905	8,686
Collective investment trust, at contract value	323,469	169,702
Shares of registered investment companies, at fair value	16,113,957	12,225,558

Fidelity Management Trust Company also certified to the completeness and accuracy of $2,517,794 of net appreciation in fair value of investments and $197,751 of interest and dividends related to the aforementioned investments for the year ended December 31, 2009.

Note 4. Investments

The following table presents the fair values of investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008:

	2009	2008
Investments at fair value based on quoted market prices:		
Registered investment companies:		
Fidelity Contrafund	$ 4,899,072	$ 3,513,059
Fidelity International Discovery Fund	1,745,616	1,126,452
Fidelity Retirement Money Market Trust	2,808,458	2,476,908
Fidelity US Bond Index Fund	1,866,812	1,978,617

Note 5. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (ASC) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Collective investment trust: Investments in the collective investment trust are reported at fair value based upon the trust's underlying investments.

Shares of registered investment companies: Shares of registered investment companies are reported at fair value based on the quoted market price of the fund which represents the net asset value of the shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2009 and 2008:

	2009			
	Assets at Fair Value			
Description	Total	Level 1	Level 2	Level 3
Collective investment trust	$ 317,564	$ -	$ 317,564	$ -
Shares of registered investment companies:				
Money market fund	2,808,458	2,808,458	-	-
Intermediate bond fund	1,866,812	1,866,812	-	-

Totals	$ 16,431,521	$ 16,113,957	$ 317,564	$ -

(a) Balanced Funds - are funds that combine a stock component, a bond component and sometimes a money market component in a single portfolio.

(b) Life Cycle Funds - are a special category of balanced, or asset-allocation, mutual funds in which the proportional representation on an asset class in a fund's portfolio is automatically adjusted during the course of the fund's time horizon. The automatic portfolio run from a position of higher risk to one of lower risk as the investor ages and/or nears retirement.

Totals	$ 12,386,574	$ 12,225,558	$ 161,016	$ -

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using the net asset value per share as of December 31, 2009:

	Fair Value Estimated using Net Asset Value per Share			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Asset category:				
Collective investment trust -				
Stable Value Fund	$ 317,564	$ -	Immediate	1 year

Note 6. Income Tax Status

The Plan has filed for a determination letter from the Internal Revenue Service regarding the Plan's qualification under Section 401(a) and the related trust's tax-exempt status under the provisions of Section 501(a) of the Code. The Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Plan Administrator will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

Note 8. Related Party Transactions

Certain plan investments are shares of registered investment companies, money market, and a collective investment trust managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for administrative expenses to Fidelity amounted to approximately $140 for the year ended December 31, 2009.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.

To the Trustee and Participants
Aqua-Aerobic Systems, Inc.
Profit Sharing Plan
Rockford, Illinois

We were engaged to audit the statements of net assets available for benefits of Aqua-Aerobic Systems, Inc. Profit Sharing Plan as of December 31, 2009 and 2008 and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental Schedule H, Line 4i - Schedule of Assets (held at end of year). These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2009 and as of December 31, 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of the Aqua-Aerobic Systems, Inc. (the Company) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan. All employees of the Company who have completed three months of service and have reached the age of 18 and are not a leased employee are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a percentage of their eligible compensation as defined by the Plan, subject to the maximum amount allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may contribute a discretionary matching amount, on behalf of each participant. The amount of the discretionary match declared for those employees covered by the collective bargaining agreement with UAW Local #622 may be different than the amount for the non-covered employees. The Company may also contribute a profit sharing amount and additional amounts, at the discretion of the Company's Board of Directors, to eligible employees who are employed on December 31 of the plan year. For each active participant who is covered by the collective bargaining agreement with UAW Local #622 the Company shall contribute an amount equal to a percentage of such active participants' compensation as set forth in the collective bargaining agreement. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's matching contributions and an allocation of (a) the Company's discretionary contributions, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in the amount of their elective contributions and the allocated earnings thereon. Participants' vesting in the Company's matching contributions, discretionary profit sharing and earnings thereon, is based on years of service. A participant is fully vested after five years of credited service. A participant who is covered by the collective bargaining agreement with UAW Local #622 is immediately vested in the Company contribution and the allocated earnings thereon. A participant is also fully vested if their termination is a result of death or disability.

Investment options: Participants must direct all contributions to selected investments as made available and determined by the Plan Administrator. Participants have the option to transfer monies between investments and change the allocation of their investment elections daily.

Payment of benefits: On termination of service for any reason, participants may elect to receive benefits in a lump-sum distribution or in installments over a period of not more than their assumed life expectancy.

Administrative expenses: All administrative expenses incurred by the Plan and audit related fees can be paid by either the plan sponsor or the Plan.

Forfeited accounts: At December 31, 2009 and 2008, forfeited nonvested accounts totaled approximately $1,600 and $24,600, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2009, approximately $24,600 was used to reduce employer contributions.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective investment trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Payment of benefits: Benefits are recorded when paid.

New accounting pronouncement: In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The adoption of this guidance did not have a material impact on the Plan's financial position or Statement of Changes in Net Assets Available for Benefits.

Note 2. Significant Accounting Policies (Continued)

In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* which requires new disclosures and reasons for transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurements and disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective and not yet adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. The Plan's management is currently evaluating the impact of the guidance related to the financial statement disclosures.

Reclassifications: Certain amounts in the 2008 Statement of Net Assets Available for Benefits have been reclassified to conform to the current year presentation.

Subsequent events: The Plan has evaluated subsequent events through July 28, 2010, the date on which the financial statements were issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments:

	2009	2008
Investments:		
Collective investment trust, at fair value	$ 317,564	$ 161,016
Adjustment from fair value to contract value for interest in collective investment trust relating to fully benefit-responsive investment contracts	5,905	8,686
Collective investment trust, at contract value	323,469	169,702
Shares of registered investment companies, at fair value	16,113,957	12,225,558

Fidelity Management Trust Company also certified to the completeness and accuracy of $2,517,794 of net appreciation in fair value of investments and $197,751 of interest and dividends related to the aforementioned investments for the year ended December 31, 2009.

Note 4. Investments

The following table presents the fair values of investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008:

	2009	2008
Investments at fair value based on quoted market prices:		
Registered investment companies:		
Fidelity Contrafund	$ 4,899,072	$ 3,513,059
Fidelity International Discovery Fund	1,745,616	1,126,452
Fidelity Retirement Money Market Trust	2,808,458	2,476,908
Fidelity US Bond Index Fund	1,866,812	1,978,617

Note 5. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (ASC) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Collective investment trust: Investments in the collective investment trust are reported at fair value based upon the trust's underlying investments.

Shares of registered investment companies: Shares of registered investment companies are reported at fair value based on the quoted market price of the fund which represents the net asset value of the shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2009 and 2008:

	2009			
	Assets at Fair Value

(a) Balanced Funds - are funds that combine a stock component, a bond component and sometimes a money market component in a single portfolio.

(b) Life Cycle Funds - are a special category of balanced, or asset-allocation, mutual funds in which the proportional representation on an asset class in a fund's portfolio is automatically adjusted during the course of the fund's time horizon. The automatic portfolio run from a position of higher risk to one of lower risk as the investor ages and/or nears retirement.

Note 6. Income Tax Status

The Plan has filed for a determination letter from the Internal Revenue Service regarding the Plan's qualification under Section 401(a) and the related trust's tax-exempt status under the provisions of Section 501(a) of the Code. The Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Plan Administrator will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

Note 8. Related Party Transactions

Certain plan investments are shares of registered investment companies, money market, and a collective investment trust managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for administrative expenses to Fidelity amounted to approximately $140 for the year ended December 31, 2009.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.
