Note 1 DESCRIPTION OF PLAN

The following description of the LeJeune Steel Company Shop Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

- A. General. The Plan is a defined-contribution plan sponsored by APi Group, Inc. and Subsidiaries (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company has appointed Wells Fargo Bank, N.A. to be the trustee and custodian of the assets of the Plan.
- B. Eligibility. All union employees, as agreed upon by the collective bargaining agreements between the participating unions and certain subsidiaries of the Company, are eligible to participate in the Plan after 20 days of service with one of the participating employers. During 2009, the participating employers, all wholly owned subsidiaries of the Company, were as follows:
- LeJeune Steel Company
 - Industrial Fabricators, Inc.
 - Viking Automatic Sprinklers Co.
- C. Contributions. Participants have the option to participate in the Plan through a salary reduction contribution and Company contributions. The salary reduction contribution can be up to 25% of a participant's earnings up to the maximum permitted by law. The Company's contribution is agreed upon in the collective bargaining agreement between the union and the plan sponsor.
- D. Vesting. Participants are fully vested in their accounts.
- E. Participant accounts. Each participant's account is credited with the participant's contributions, the Company's contribution and an allocation of plan earnings. Allocations are based on participant earnings or account balances, as defined.
- F. Participant distributions. Participant distributions represent the amounts paid during the year to withdrawing participants, either in lump-sum amounts or in installments over varying periods, as permitted by the Plan. Participant distributions are recorded when paid.
- G. Plan structure and investment options. Wells Fargo Bank, N.A. (Wells Fargo) manages the Plan's assets. Participants are allowed to invest in a variety of investment choices, as more fully described in the Plan's literature. All funds vary in type of investment, rate of return and investment risk. Participants may elect on a daily basis to have all or part of their account balances and future contributions transferred from one fund to another or in any combination.

Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. Basis of accounting. The financial statements of the Plan are prepared under the accrual method of accounting.
- B. Use of estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
- C. Administrative expenses. The Company pays most administrative expenses on behalf of the Plan.
- D. Investment valuation and income recognition. Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Gains and losses in sales of securities are recorded on a trade-date-basis, and unrealized gains and losses are recorded on the fair value at the end of the reporting period. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend rate.

Note 5 FAIR VALUE MEASUREMENTS

The financial statements reflect the adoption of FASB's authoritative guidance, *Fair Value Measurements*. This guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this guidance are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

- A. Common collective trust. The common collective trust fund is valued at the unit value as reported by the investment manager at year-end. The fund's underlying assets consist of investment contracts and security-backed contracts.
- B. Mutual funds. Mutual funds are valued at the net asset value of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realization value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are

NOTES TO FINANCIAL STATEMENTS

appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

Note 6 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 INCOME TAX STATUS

The Company adopted a prototype non-standardized plan which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the non-standardized plan and related trust, as then designed, was in compliance with applicable requirements of the Internal Revenue Code.

Note 8 PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments include an interest in common collective trust and shares of mutual funds managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Transactions with the Sponsor also qualify as party-in-interest transactions.

Note 9 RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities since December 31, 2009, have occurred in the near term and that such changes could have materially affected the amounts reported in the financial statements.

Note 10 FULLY BENEFIT-RESPONSIVE CONTRACTS

The financial statements reflect the adoption of FASB's authoritative guidance regarding *Reporting of Fully Benefit-Responsive Contracts Held By Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*. The Plan adopted the guidance because of its investment in the Wells Fargo Advantage Stable Return Fund (the "Fund"). Investments held by a collective investment trust are required to be reported at fair value. However, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statements of net assets available for benefits presents investment contracts at fair value as well as an adjustment for fully benefit-responsive contracts from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

The objective of the Fund is to provide a moderate level of stable income without principal volatility while seeking to maintain adequate liquidity and returns superior to shorter maturity instruments. The Fund seeks to achieve this objective by investing in contracts and instruments issued by selected high-quality insurance companies and financial institutions.

The average yield earned by the entire Fund was 3.40% and 5.29% during the years ended December 31, 2009 and 2008, respectively. This average yield was calculated by dividing the annualized earnings of all investments

LEJEUNE STEEL COMPANY SHOP PLAN
NOTES TO FINANCIAL STATEMENTS

in the Fund (irrespective of the interest rate credited to participants) by the fair value of all investments in the Fund.

The average yield earned by the entire Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund was 3.32% and 4.10% during the years ended December 31, 2009 and 2008, respectively. This average yield was calculated by dividing the annualized earnings credited to participants in the Fund (irrespective of the actual earnings) by the fair value of all investments in the Fund.

Market value events may limit the Plan's ability to transact at contract value with the issuer. Market value events are events or conditions that occur which are outside the normal operation of the Fund and lead to any Fund disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the investment contract. Such events may include but are limited to: material amendments to the Fund's structure or administration, changes to the participating plans' competing investment options including the elimination of equity wash provisions, complete or partial termination of the fund, including merger with another fund, the failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, the redemption of all or a portion of the interests in the Fund held by a participating plan at the direction of the participating plan sponsor, any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the fund or participating plans, or the delivery of any communication to the plan participants designed to influence a participant not to invest in the fund. At this time, the Fund does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable.

Note 11 SUBSEQUENT EVENTS

Subsequent events have been evaluated for recognition or disclosure through July 21, 2010, which is the date that financial statements were available to be issued.
