NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the ARC Excess and Surplus, LLC 401k Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full time employees who have completed a 3 month 250 hour service requirement and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Company sponsors a defined contribution 401(k) covering substantially all of its employees. Eligible employees may elect to defer up to 100% of their compensation each year subject to annual limits imposed by the Internal Revenue Service. The Internal Revenue Code of 1986, as amended (the "Code") imposes a limitation that is adjusted annually for cost of living increases on participants' pre-tax contributions which are qualified under Code Section 401(k) and other specified tax favored plans. For 2012 and 2011, this limit was $17,000 and $16,500, respectively, for participants under age 50 and $22,500 and $22,000, respectively, for participants age 50 or older. The plan complied with nondiscrimination requirements under the Code during 2012 and 2011 by utilizing a safe harbor design for deferrals in accordance with Section 401(k)(12) of the Code. The Company did not make a matching contribution for salary deferrals elected by each eligible employee in 2012.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are 100% vested in salary deferrals and matching contributions if the employer contributes to the Plan on your behalf.

Payment of benefits - An employee is entitled to a distribution upon termination of service due to death, disability or retirement. The participant or beneficiary may elect the distribution as a lump sum amount equal to the value of the participant's vested interest in his or her account, or may rollover their distribution to an IRA or another qualified plan. Hardship distributions are also permitted.

ARC EXCESS AND SURPLUS, LLC 401K PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1- DESCRIPTION OF THE PLAN-CONTINUED

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deduction.

Administration and Plan Expenses – Plan assets are held in trust by John Hancock Life Insurance Co. of New York (the "Plan Trustee"). The third party record keeper is United Retirement Incorporated, formerly Circle Pension Services. Administrative expenses are primarily paid by the Company.

Transfer of Account Balances-A participant's account balance may be transferred among the Plan's investment options upon receipt of instructions from the participant. Account balances may be allocated among the Plan's investment options on a daily basis.

Participant Rollovers-A rollover contribution is a transfer to the Plan of a qualified distribution in accordance with the provisions of the Plan. Rollovers are accepted into the Plan, but are not subject to the Company's contributions.

Subsequent Events-The Plan has evaluated subsequent events through September 13, 2013 the date the financial statements were available to be issued.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Use of Estimates – The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Accounting estimates are an integral part of the financial statements. These estimates are based, in part, on management's assumptions concerning future events. Among the more significant assumptions are those that relate to fair value measurements. These accounting estimates reflect the best judgment of management, but actual results could differ.

Contributions-Participant and Employer contributions are recorded in the period the Employer makes the payroll deductions or upon approval by the Company for discretionary Employee contributions, if any.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES-CONTINUED

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note Receivable from Participants-Note receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document. plan.

Recent Accounting Pronouncements-In January 2010, the Financial Accounting Standards Board ("FASB") amended the existing disclosure guidance on fair value measurements, which was effective January 1, 2010, except for disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements, which was effective January 1, 2011. Among other things, the updated guidance requires additional disclosure for the amounts of significant transfers in and out of Level 1 and Level 2 measurements and requires certain Level 3 disclosures on a gross basis. Additionally, the updates amend existing guidance to require a greater level of disaggregated information and more robust disclosures about valuation techniques and inputs to fair value measurements. Since the amended guidance requires only additional disclosures, the adoption of the provision did not impact the Plan's Statement of Net Assets Available for Benefits or the Statement of Changes in Net assets available for benefits.

Risk and Uncertainties-The Plan provides for various investments in John Hancock mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the overall volatility in the financial markets, it is at least reasonably possible that changes will occur in the near term that could materially affect the participant's account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits – Benefits are recorded when paid.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That Framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level measurements 1) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Inputs to the valuation methodology include:

a) Quoted prices for similar assets or liabilities in active markets;

b) Quoted prices for identical or similar assets or liabilities in inactive markets.

Level 2 — Inputs other than quoted market prices that are observable for asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.
