Note 1 - Description of plan

The following description of the Office Star Products 401(k) Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The plan is a defined contribution plan covering all eligible employees of Blumenthal Distributing, Inc., dba Office Star Products ("the Company"). An employee becomes eligible for participation in the Plan upon attainment of age twenty-one (21) and completion of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible employees (participants) may contribute a portion of their annual compensation subject to certain limitations as defined by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company makes a safe harbor matching contribution of 100% of participant deferral contributions up to the first 5% of participant compensation. Participants direct the investment of their contributions and the matching contributions into various investment options offered by the Plan.

In addition, a nonelective profit sharing contribution may be made at the option of the Company's board of directors. The nonelective profit sharing contribution is allocated to participants based on the participant's compensation for the Plan year in proportion to total compensation of all participants. A participant does not have to make contributions to the Plan to be eligible for an allocation of the nonelective contribution. The Company did not make a nonelective profit sharing contribution for the year ended December 31, 2012.

Rollover contributions

The Plan provides for rollover contributions, which represents contributions by participants from other tax-qualified retirement plans. The maximum amount of a participant's rollover contribution is not affected by the limits otherwise applicable to participant deferral contributions.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their deferral contributions and matching contributions plus actual earnings thereon. Vesting in the profit sharing contribution portion of their account plus actual earnings thereon is based on years of service. A participant is 100% vested after six years of credited service.

Note 1 - Description of plan (continued)

Notes receivable from participants

Participant loans are not permitted.

Payment of benefits

Benefits are payable to participants or designated beneficiaries upon retirement, termination, death or disability. Distributions may be paid in a lump-sum amount equal to the value of the participant's vested interest in his or her account, payments over a fixed period, or they may be rolled over into another plan or an individual retirement account.

Forfeited Accounts

Forfeitures of profit sharing contributions are used to reduce Company contributions and pay Plan expenses. Forfeitures available as of December 31, 2012 to reduce future Company contributions and pay Plan expenses were $1,148. In 2012, employer contributions were reduced by $3,309 from forfeited non-vested accounts.

Hardship withdrawals

Participants may withdraw their pre-tax elective deferral contributions in the event of hardship as defined in the Plan agreement.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 - Summary of accounting policies (continued)

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Administrative expenses include fees and commissions paid to the third party administrator and a broker. The Company pays a portion of the administrative expenses.

Subsequent events

Management evaluates events occurring subsequent to December 31, 2012 in determining the accounting for and disclosure of events that affect the financial statements. The Plan has no subsequent events that required recognition or disclosure in the financial statements for the year ended December 31, 2012. Subsequent events were evaluated through September 4, 2013, which is the date the financial statements were available to be issued.

Note 3 - Fair value measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The fair value of pooled separate accounts is based on the value of the underlying mutual fund shares at year-end.

Level 3 Fair Value Measurements

The guaranteed interest accounts with an insurance company are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest accounts is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Note 3 - Fair value measurements (continued)

The following table sets forth, by level within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

Note 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate or amend the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their Company nonelective profit sharing contribution accounts.

Note 8 - Tax status

The Plan adopted the National Retirement Services, Inc. Non-Standardized 401(k) Profit Sharing Plan and Trust ("the Prototype Plan"). The Prototype Plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Prototype Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC and therefore believes the Plan is qualified and the related trust is tax

Note 8 - Tax status (continued)

exempt. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan's annual return/report of employee benefit plan filings for the past three years are subject to examination by tax authorities, and may change upon examination.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Related party and party-in-interest transactions

Certain plan investments are managed by John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Contract administration fees paid by the plan to John Hancock from the Guaranteed Interest Accounts amounted to $47 for the year ended December 31, 2012.
