NOTE A - DESCRIPTION OF THE PLAN

The following description of the Avalon Transportation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

Effective January 1, 1998, the Board of Directors of Virgin Fish, Inc. dba Avalon Transportation adopted the Avalon Transportation 401(k) Plan for the benefit of all eligible employees of Virgin Fish, Inc. and Avalon Transportation, LLC (collectively, the "Company"). The Plan is a cash or deferred profit sharing plan under Section 401(a) and 401(k) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Eligibility

An employee is eligible for participation in the Plan upon attainment of age 21 and completion of six months of service, prior to the entry dates of January 1, April 1, July 1, or October 1. Employees covered under a collective bargaining agreement, non-resident aliens, and leased employees are not eligible to participate in the Plan.

3. Contributions

Participants may elect to contribute on a tax-deferred basis up to the maximum deferral limit per Section 402(g) of the IRC of $17,000 for the Plan year ended December 31, 2012. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions in an amount up to $5,500. The Company may, in its discretion, make matching contributions and/or profit sharing contributions to the Plan. During the year ended December 31, 2012 the Company elected to match 15% of employee deferrals up to $200.

4. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings. Participants accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

5. Investment Options

Upon enrollment in the Plan, a participant may direct employee and Company contributions as desired, in any of a variety of options held by John Hancock Life Insurance Company (USA) ("John Hancock USA").

NOTE A - DESCRIPTION OF THE PLAN (Continued)

6. Forfeited Accounts

Forfeitures of terminated participants' non-vested accounts may be used to pay reasonable administrative expenses and then used to reduce future Company contributions. As of December 31, 2012 and 2011 available forfeitures were not significant.

7. Payments of Benefits

Upon termination of service and normal retirement age, a participant is entitled to receive their vested account balance. Upon permanent disability or in the event of death, a participant or a participant's beneficiary is entitled to receive 100% of their account balance. In addition, participants may receive distributions upon attaining age 59 ½ or financial hardship if certain criteria are met.

8. Vesting

Participant contributions, discretionary Company qualified non-elective contributions, discretionary qualified matching contributions, and actual earnings thereon are fully vested at all times. Vesting in the Company's matching and profit sharing contribution portion of their accounts plus earnings thereon is based on years of continuous service as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

9. Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of 50% of their vested account balance, not to exceed $50,000. Only one loan may be outstanding at any time. The loans are secured by the balance in the participant's account and shall bear reasonable rates of interest. Loan maturity is not to exceed five years, except in the case where the loan is used to acquire or construct the participant's principal residence, where the term of a loan will be determined by the plan administrator.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

10. Plan Termination

While the Company has not expressed any intent to terminate the Plan, the Company reserves the right to terminate the Plan at any time. Upon termination, all interests of participants become fully vested, and the assets are distributed among the participants of the Plan in accordance with the provisions of the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

2. Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards* (IFRS). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, to converge the fair value measurement guidance in GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management adopted the provisions of ASU 2011-04 effective January 1, 2012, see Note D.

3. Plan Administration

The Company is the plan sponsor and plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA.

4. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note D for discussion of fair value measurements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation/depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

5. Administrative Expenses

Administrative expenses incurred by the custodian and service providers in performance of their duties are paid from the assets of the Plan. Investment related expenses are included in net appreciation of fair value of investments. Substantially all other out-of-pocket administrative expenses of the Plan are paid by the plan sponsor.

6. Payment of Benefits

Benefits are recorded when paid.

7. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

8. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

9. Subsequent Events

Plan management has evaluated subsequent events through September 19, 2013, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS AND CERTIFICATION BY CUSTODIAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by John Hancock USA, the custodian, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

Total investments and notes receivable from participants held and certified by John Hancock USA in the accompanying Statements of Net Assets Available for Benefits were $1,362,321 and $1,144,381 as of December 31, 2012 and 2011, respectively. Investment income and interest income on notes receivable from participants certified by the custodian totaled $136,353 as of December 31, 2012.

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $133,725. These investments consist of pooled separate accounts offered by the custodian.

Investments that represent 5% or more of the Plan's net assets as of December 31, 2012 and 2011 are as follows:

	2012	2011
Investments at fair value:		
Lifestyle Balanced	$ 239,031	$ 189,482
Lifestyle Growth	$ 228,285	$ 187,970
Lifestyle Moderate	$ 107,628	$ 76,000
Money Market Fund	$ 94,633	$ 159,631

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts: The net asset value (NAV) of these accounts is based on the market value of its underlying investments. The NAV is not a publicly quoted price in an active market. The pooled separate accounts do not have unfunded commitments relating to its investments, or any significant restrictions on participant-directed withdrawals. Participant-directed withdrawals can be made on any business day and do not have a redemption notice period. Participant-directed transfers to other investments options are generally limited to two per calendar month.

Guaranteed Interest Accounts: Valued at fair value, which approximates contract value. Contract value represents contributions made under the contract plus compound interest earned less participant withdrawals and administrative expenses. Interest is earned over a defined term of 3 or 5 years, provided all contributions remain in the account until maturity. Interest rates are established on the first day of the month and apply to all contributions made in the account during the period. Withdrawals taken prior to the end of the guarantee period may be subject to a market value adjustment. For the year ended December 31, 2012, the average crediting rate was 1.22% and the yield ranged from .1% to .15%.

The primary investment objective of the guaranteed interest accounts is to seek to achieve investment income consistent with the preservation of principal, primarily through investments in federal and other government bonds, corporate bonds and commercial mortgages. Transfers between guaranteed interest accounts are not permitted. The guaranteed interest accounts do not have unfunded commitments relating to its investments, or any significant restrictions on participant-directed withdrawals. Participant-directed transfers between a guaranteed interest account and other investment options may be subject to a market value adjustment.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

The custodian is a party-in-interest with respect to the Plan. All investments are held with the custodian. Notes receivable from plan participants and the related interest income are also considered party-in-interest transactions.

NOTE F - TAX STATUS

The Employer adopted the National Retirement Services, Inc. Non-Standardized 401(k) Profit Sharing Plan and Trust ("Non-Standardized Plan") which received its applicable opinion letter dated March 31, 2008 relating to the Plan, in which the Internal Revenue Service (IRS) stated that the Non-Standardized Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the plan administrator and the Plan's advisors believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Administration errors, if any, which are insignificant or operational in nature, are handled by the administrator in accordance with applicable IRS correction policies. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2009.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
