NOTE 1 - DESCRIPTION OF PLAN

The following description of The Ergonomic Group, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the original Plan document for a more complete description of the Plan's provisions.

A. General - The Plan is a defined contribution plan covering all employees of the Company who have three months of service and are age 21 or older. There are two types of salary deferrals, Regular 401(k) deferrals and Roth 401(k) deferrals. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions - Each year, participants may contribute up to 75% of pre-tax annual compensation within statutory limits, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. Each eligible employee hired by the Company is automatically enrolled in the Plan, unless the employee makes an affirmative election not to enroll. The employee is enrolled to contribute 1% of their eligible compensation to the Plan.

C. Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting - Participants vest immediately in their contributions plus the actual earnings thereon.

E. Notes Receivable from Participants - Participants may borrow from their accounts a minimum of $500, up to a maximum equal to the lesser of $50,000, reduced by the excess, if any, of the highest outstanding balance of loans from the Plan during the 12 month period ending on the day before such a loan is made, over the outstanding balance of loans from the Plan on the date the loan is made; or 50% of their vested account balance. Loan terms may not exceed 5 years unless the loan is used to purchase a participant's residence, in which case repayment terms may not exceed 30 years. The loans are secured by the balance in the participant's account and bear an interest rate of the prevailing prime rate at the time of the advance plus 1%. Principle and interest is paid ratably through bi-weekly payroll deductions.

F. Payment of Benefits - Participants may receive a full distribution of their benefits upon retirement, in the event of death or disability, in the event of immediate and heavy financial need, upon termination of employment or upon attaining the age

NOTE 1 - DESCRIPTION OF PLAN *(Continued)*

of 59½. Participants may elect to receive either a lump-sum amount equal to the participant's interest in his or her account or installment payments over a period of years which does not exceed the life expectancy of the participant or his or her beneficiary. Minimum distributions shall be made in accordance with Treasury Regulation Section 1.401 (a) (9). The entire interest of a participant must be distributed or begin to be distributed no later than the April 1 of the calendar year following the calendar year in which the participant attains the age of 70 ½. If the value of a participant's account is $5,000 or less, the Plan shall immediately distribute the participant's entire vested account balance.

G. Forfeitures - At December 31, 2012 and 2011, forfeited non-vested accounts totaled $9,879 and $9,642, respectively. Forfeited amounts may first be used to reduce administrative expenses of the Plan, or applied to the restoration of participant's individual accounts. Any remaining forfeitures may be used to reduce employer discretionary matching contributions. During the year ended December 31, 2012, forfeited non-vested accounts were not utilized.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

A. Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

B. Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

C. Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. Notes Receivable from Participants - Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. There are no allowances for credit losses, as repayments of principal and interest are generally received through payroll deductions and the notes are fully collateralized by the participants' account balances.

E. Payment of Benefits - Benefits are recorded when paid.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES *(Continued)*

F. Administrative Expenses - All expenses of maintaining the Plan are paid by either the Plan or the Company. Fees charged to process participants' requests are paid by the participant as provided by the Plan document.

G. Subsequent Events - The Plan has evaluated subsequent events through September 23, 2013 the date the financial statements were available to be issued.

NOTE 3 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rule and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company, the Trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2012	2011

Participant directed investments in accounts established by the Reliance Trust Company, at fair value	$ 8,804,000	$ 7,743,109

	$ 9,074,920	$ 8,076,466

	For the Year Ended December 31, 2012
Investment Income:	
Interest and dividends	$ 291,798
Other income	94
Net appreciation in fair value of investments	676,182
Total Investment income:	$ 968,074

NOTE 4 - INVESTMENTS

All of the Plan's investments are participant directed. The following presents investments that represent 5% or more of the Plan's net assets.

	2012	2011
Davis New York Venture	$ 822,277	$ 730,865
Ready Assets Prime Money Fund	770,094	732,106
PIMCO Total Return	691,638	606,709
Blackrock US Government Bond	631,781	611,085
Blackrock Health Science Opportunity Portfolio	579,691	447,685
Goldman Sachs Mid Cap Value	566,985	437,942
Blackrock Equity Dividend	410,730	420,535

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value by $676,182.

NOTE 5 - FAIR VALUE MEASUREMENTS

The frame-work for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 5 - FAIR VALUE MEASUREMENTS *(Continued)*

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2012:

NOTE 6 - EXCESS PARTICIPANT CONTRIBUTIONS PAYABLE

The Plan failed to pass the Average Deferral Percentage ("ADP") test for the year ended December 31, 2012, accordingly, excess contributions amounting to $24,042 were recorded as a liability in the accompanying statement of net assets available for benefits as of December 31, 2012, and as a reduction of participant directed contributions for the year on the statement of changes in net assets available for benefits for the year ended December 31, 2012. The excess participant contributions payable as of December 31, 2012 was returned by the Plan to certain participants on March 15, 2013. The Plan passed the ADP test for the year ended December 31, 2011.

NOTE 7 - CONTRIBUTION PAYABLE

During 2012, the Plan administrator discovered that two ineligible employees participated in the Plan for the year ended December 31, 2012. The Company corrected this error in accordance with the provision of the Internal Revenue Services' Employee Plan's Compliance Resolution System ("EPCRS"). The amount refunded for the correction amounted to $138, which was recorded as a liability as of December 31, 2012 in the accompanying statement of net assets available for benefits and as a reduction of participant contributions on the statement of changes in net assets available for benefits. The Company reimbursed the participant on August 1, 2013.

NOTE 8 - RELATED PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Reliance Trust Company, the Plan's Trustee as defined by the Plan for the year ended December 31, 2012. Fees incurred related to investment management services performed by the Trustee are paid directly by the Plan and amounted to $52,549 for the year ended December 31, 2012. Fees paid by the Plan for the administration of the Plan by Automatic Data Processing, Inc., the third party administrator as defined by the Plan amounted to $1,600 for the year ended December 31, 2012. Accordingly, these transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA.

NOTE 9 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE 10 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 - TAX STATUS

The Company adopted a non-standardized prototype plan for which the Internal Revenue Service ("IRS") has issued an opinion letter dated March 31, 2008, covering the qualification of the Plan under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or (asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.
