KRESS CORPORATION 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note (1) Description Of Plan

The following description of the Kress Corporation (Company) 401(k) Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General - The Plan is a defined contribution plan that was established pursuant to a trust agreement effective January 1, 1991. The Plan has been restated effective January 1, 2012 to include all amendments.

Administration Of The Plan - Kress Corporation has been appointed as the administrator of the Plan. Fidelity Management Trust Company was the trustee of the Plan from January 1, 2011 to December 31, 2011. Effective the first business day of 2012, BMO Harris Bank, N.A. became the Plan's trustee.

Eligibility - An employee is eligible to participate in the salary reduction arrangement and matching contributions as of the first day of the month immediately following the completion of 90 days of service. In order to receive a matching contribution, the participant must complete 1,000 hours of service and be employed on the last day of the plan year.

Employer Contributions - The Company may contribute a discretionary matching contribution to eligible participants. For the years ended December 31, 2012 and 2011, the Company elected to make a match equal to 100% of the salary reduction contributions not to exceed four percent (4%) of the participants' compensation. The amount of the employer matching contribution equaled $286,516 and $268,889 for the years ended December 31, 2012 and 2011, respectively.

Employee Contributions - An eligible employee may elect to contribute up to 50% of the employee's before-tax earnings, not to exceed $17,000 and $16,500 in 2012 and 2011, respectively. Catch-up contributions are also allowed under the Plan for participants who attain age 50 during the plan year. The maximum catch-up contribution is $5,500 in 2012 and 2011. Participants may also contribute amounts representing distributions from other eligible retirement plans.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary match contribution, and (b) Plan earnings less expenses. Allocations are based on participant compensation paid during the Plan year for the company's discretionary match contribution and account balances for Plan earnings. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Contributions from participants are 100% vested at all times. Participants are 100% vested in the Company's matching contribution after three years of service.

Forfeitures - Forfeitures are used first to pay Plan expenses and second to reduce any future matching contributions.

Note (1) Description Of Plan (Cont'd.)

Notes Receivable From Participants - Participants may borrow from their fund accounts a maximum equal to the lesser of $50,000 or 50 percent of the participant's vested account balance. Loan proceeds are withdrawn only from salary reduction contributions. Loans are secured by the participant's vested interest in his account, not to exceed 50 percent. Loans bear interest at rates that range between 3.25% to 5.50%, which is commensurate with local prevailing rates as determined by the Company at the time the loan is made. Principal and interest is paid ratably through payroll deductions. Participants may only have two loans outstanding at any time.

Expenses - Expenses associated with plan administration are paid either by the Plan or the Company.

Payment Of Benefits - Upon termination of service, retirement, disability or death, a participant with a vested account balance not exceeding $1,000 will receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account.

Upon termination of service, a participant with a vested account balance that exceeds $1,000 may elect distribution under any one of the following methods:

(a) Annuity
(b) Lump-sum
(c) Partial withdrawals
(d) Installment payments (annually, quarterly or monthly) over a specified period of time, not exceeding the participant's life expectancy or the joint life expectancy of the participant and his or her designated beneficiary

Investment Options - Participants may direct the allocation of their investment between various Fidelity Advisor funds and other non Fidelity Advisor funds. Participants may change both their salary reduction percent or amount and their investment allocation on a daily basis.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note (2) Summary Of Significant Accounting Policies

Basis Of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation And Income Recognition - The Plan's investments are stated at fair value based on quoted market prices. See note (5) for discussion of fair value measurements. Purchases and sales are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note (2) Summary Of Significant Accounting Policies (Cont'd.)

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment Of Benefits - Benefits are recorded when paid.

Income Tax Status – The Internal Revenue Service has determined and informed BMO Harris Bank, N.A. by a letter dated November 2, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The tax years from 2009 through 2012 remain open for review by the taxing authorities.

As described in Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 962-325-50-3, Reporting of Fully Benefit-Responsive Investment Contracts, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The Plan invests in a common/collective trust that is subject to this reporting requirement. The FSP also requires prior years' statements to comply with this standard.

Subsequent Events – Subsequent events have been evaluated through July 17, 2013, which is the date the financial statements were available to be issued.

Note (3) Summary Of Financial Data Certified By The Trustee

The Plan received from BMO Harris Bank, N.A., the trustee of the Plan, for the year ended December 31, 2012, certification of financial information and data in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Note (5) Fair Value Measurements

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Note (5) Fair Value Measurements (Cont'd.)

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

*Common Collective Trust Fund:* Valued at fair value by discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

*Mutual funds:* Valued at the net asset value (NAV) of shares held by the plan at year-end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note (5) Fair Value Measurements (Cont'd.)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

| | Fair Value | Quoted Prices in Active Markets For Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
|---|---|---|---|---|
| December 31, 2012 | | | | |
| Common Collective trust | $ 2,555,877 | $ - | $ 2,555,877 | $ - |
| Mutual funds | 6,564,172 | 6,564,172 | - | - |
| Total | $ 9,120,049 | $ 6,564,172 | $ 2,555,877 | $ - |
| December 31, 2011 | | | | |
