Independent Auditor's Report

The Board of Directors
Bay Area Restaurant Management, Inc. 401(k) Plan

We have audited the accompanying financial statements of the Bay Area Restaurant Management, Inc. 401(k) Plan, a defined contribution plan (the "Plan"), which comprise the statements of net assets available for benefits, prepared on a modified cash basis, as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits, prepared on a modified cash basis, for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting. This includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Bay Area Restaurant Management, Inc. 401(k) Plan, as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the years then ended in accordance with the modified cash basis of accounting described in Note A.

Basis of Accounting

We draw attention to Note A of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held for investment purposes at end of year, investment assets both acquired and disposed of within the Plan year, and reportable transactions together referred to as "supplemental information", are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Bay Area Restaurant Management, Inc. 401 (k) Plan
Notes to Financial Statements

A. Description of Plan

The following description of the Bay Area Restaurant Management, Inc. (the "Company") 401(k) Plan (the "Plan") is provided for general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. ***General:*** The Plan is a single employer defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one (21) or older. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. ***Contributions:*** Each year, participants may contribute up the maximum percentage of compensation and dollar amounts permissible under Code Section 402(g) not to exceed the limits of Code Sections 401(k) and 415, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts, mutual funds and a stable value investment as options for participants. The Company contributes 25% of the first 10% of base compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

3. ***Participant Accounts:*** Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. ***Vesting:*** Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of service.

5. ***Notes Receivable from Participants:*** Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance whichever is less. The loans are secured by the balance in the participant's account and bear interest that is commensurate with local prevailing rates as determined by the Plan administrator or prime rate plus 2%. A loan setup fee of $50 is deducted from the participant's account.

6. ***Payment of Benefits:*** On termination of service due to death, disability, or retirement, a participant will receive and amount equal to the value of the participant's vested interest in his or her account. The Plan pays benefits in the form of single lump sum cash payment.

Description of Plan (Cont'd)

7. ***Forfeited Accounts:*** At December 31, 2012 and 2011, forfeited nonvested accounts totaled $212 and $67, respectively. The forfeited amounts may be used to supplement the employer's contributions to the Plan.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements were prepared on a modified cash basis of accounting, which recognizes revenue when received rather than when earned and expenses when paid rather than when incurred. The modified cash basis of accounting requires the adjustment of securities investments from cash value to fair value.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. In accordance with FAS 107 (#12) and SOP 94-4-1, the type of investment owned by this Plan is considered fairly valued at contract value. The contract value is also the fair value.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Accordingly, actual results may differ from those estimates.

Accounting Changes

In September 2010, the Financial Accounting Standards Board (FASB) issued (ASU 2010-25) guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires participant loans of a defined contribution plan to be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. Participant loans were historically classified as investments and measured at fair value.

B. Summary of Accounting Policies (Cont'd)

Accounting Changes (Cont'd)

The new guidance is effective for fiscal years ending after December 15, 2010 and must be applied retrospectively, with early adoption permitted. Plan management does not expect that the adoption of this new guidance will have a material impact on the Plan's net assets, as the value of the participant loans currently reported approximates the carrying value of the participant loans.

ASU 2010-25 does not change the current requirement to present participant loans as investments on Schedule H of Form 5500. Participant loans should still be reported as Plan investments on Form 5500, as well as on the Plan's supplemental schedule – Schedule H, Line 4i. – Schedule of Assets (Held at End of Year).

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Except for the loan origination fees associated with notes receivable from participants and a small processing fee for withdrawals, administrative expenses of maintaining the Plan may be charged against the individual assets held by the Plan and allocated to participants based on their ownership percentage of the investment asset.

B. Summary of Accounting Policies (Cont'd)

Subsequent Events

The Plan has evaluated subsequent events through September 9, 2013, the date the financial statements were available to be issued.

C. Investments

The Plan's assets are handled through a trust. The Company has named Transamerica Retirement Services, as trustee of the Plan. The trustee is appointed by the Company to safeguard the assets of the trust and invest them according to the Plan. The Trustee provides a variety of investment vehicles in which participants may invest. The investment options were approved by the Board of Directors, Bay Area Restaurant Management, Inc. 401(k) Plan.

The following table presents the adjusted cost and fair value of investments on December 31, 2012 and 2011. Investments representing 5% or more of the Plan's net assets are separately identified.

	December 31, 2011		December 31, 2011

Totals	$ 2,379,156	$ 2,579,289	$ 2,354,810	$ 2,350,269

During 2012 and 2011 the plan's investments (including investments bought, sold, and held during the year) appreciated in value by $215,304 and $(4,539) respectively as follows:

	2012	2011
Equity	74,757	(17,013)

Hybrid	112,325	(8,840)
Investment contract	15,172	19,163
	$ 215,304	$ (4,539)

D. Fair Value Measurements

In accordance with the authoritative guidance on fair value measurements and disclosures under generally accepted accounting principles in the United States, the Plan discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The inputs are summarized in the three broad levels listed below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The level of a value determined for a financial instrument within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements in its entirety. The categorization of a value determined for the financial instrument within the hierarchy is based on the transparency of the price inputs for the instrument and does not necessarily correspond to the Plan's perceived risk of that instrument. To the extent possible, investments are valued using market quotations provided by independent pricing services.

All investments are participant directed. The separate account investment options are exempt from registration with the SEC; however, certain of the separate account investment choices invest in underlying mutual funds, which are subject to SEC registration. Several investments have been developed and made available to participants. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Level 1 – Separate accounts offered are proprietary to Transamerica and many invest exclusively in one underlying mutual fund traded on an established market. Those separate accounts investing in mutual funds or equity securities are measured using quoted prices in active markets for identical asset ("Level 1" input under ASC 820). Accordingly, the unit value for a separate investment fund is a Level 1 price. All of the Plan's investments have been assigned to Level 1.

D. Fair Value Measurements (Cont'd)

Level 2 – Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities ("Level 2" input under ASC 820). The stable value account investment is also considered to be Level 2.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

	December 31, 2012			
	Level 1	Level 2	Level 3	Total
Equity	$ 297,875	$ 370,373		668,248
Bonds		101,415		101,415
Hybrid	974,650			974,650
Investment contract		834,974		834,974
Totals	$ 1,272,525	$ 1,306,762		$ 2,579,289

	December 31, 2012			
	Level 1	Level 2	Level 3	Total
Equity	$ 173,267	$ 232,639		405,906
Bonds		72,249		72,249
Hybrid	889,475			889,475
Investment contract		982,639		982,639
Totals	$ 1,062,742	$ 1,287,527		$ 2,350,269

There were no significant transfers between levels during the year ended December 31, 2012.

E. Investment Contract in Transamerica's Stable Value Option

The Plan entered into a benefit-responsive contract in Transamerica's Group Annuity Contract. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged or participant withdrawals and administrative expenses. Transamerica is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

E. Investment Contract in Transamerica's Stable Value Option (Cont'd)

Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $834,974 and $982,639 respectively. The crediting interest rate is based on a formula agreed upon with the issuer. There is no stated minimum or maximum interest rate for the Stable Value Option investment.

Since the Stable Value Option investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable.

F. Related Party Transactions

Certain Plan investments in mutual funds and collective funds may invest in affiliated funds where the Trustee or its affiliates may serve as the trustee, investment manager, custodian, and/or transfer agent. The funds may invest cash in money market accounts, which are managed by the trustee or its affiliates. The fund's day-to-day investment activities are managed by the trustee. Fees for such services are paid directly by the investors and are included in net appreciation in fair value of investments.

G. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

H. Tax Status

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

I. Risk and Uncertainties

Economic Risk: Changes in economic conditions, including, for example, interest rates, inflation rates, employment conditions, competition, technological developments, political and diplomatic events and trends, and tax laws may adversely affect the business prospects or perceived prospects of the under lying investments in which the Plan invests.

Interest Rate: Increases in interest rates typically lower the present value of a company's future earnings stream. Since the market price of a security changes continuously based upon the investors' collective perceptions of future earnings, security prices will generally decline when investors anticipate or experience rising interest rates.

Market Risk: Security prices fluctuate in response to many factors, including the activities of individual companies and general market and economic conditions. Regardless of any one company's particular prospects, a declining market may produce a decline in security prices for all companies. Market declines may continue for an indefinite period of time, and investors should understand that from time to time during temporary or extended bear markets, the value of the Plan's assets may decline.

Sector Risk: Sector risk is the possibility that securities within the same group of industries will decline in price due to sector-specific market or economic developments. If the Plan invests more heavily in a particular sector, the value of the Plan will be particularly sensitive to declines in that sector. Additionally, some sectors could be subject to greater government regulation or increases in government regulation than other sectors, either of which may have an adverse affect on the value of securities of companies in the sector.

Liquidity Risk: The Plan's investments all have daily liquidity.

J. Subsequent Events
