1. Description of the Plan

The following description of the DeMet's Candy Company 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of DeMet's Candy Company (the "Plan Sponsor") who are twenty-one years of age or older. The Plan is also subject to the provisions of the Employees Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute an elected amount of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollovers from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various Principal Life Insurance Company separate accounts as investment options for participants. The Plan Sponsor contributes 50 percent of the first 4 percent of compensation that a participant contributes to the Plan. The Plan Sponsor may also make additional discretionary profit sharing contributions to non-highly compensated employees who are active participants during the plan year. Contributions are subject to certain federal limitations.

The Plan accrues a liability for corrective distributions when a participant contributes more than what is allowable under the Plan. The corrective distribution is recorded as a liability and a reduction to contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Plan Sponsor's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Plan Sponsor's contribution portion of their accounts is based on years of continuous service as follows; less than 1 year – 0%, 1 year and less than 2 years –

20%, 2 years and less than 3 years – 40%, 3 years and less than 4 years – 60%, 4 years and less than 5 years – 80% and 5 years or more – 100%.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% percent of their account balance. The number of outstanding loans a participant may have is limited to 2. Loan terms are 5 years or if the loan was used for a principal residence the term is limited to the lesser of 15 years or a period consistent with commercial home loan practices. Loans bear interest commensurate with prevailing rates as determined by the plan administrator. The interest rate on loans outstanding at December 31, 2012 and 2011 was 4.25%, respectively. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

Forfeited accounts are used to reduce the first employer contribution after the forfeiture is determined. For the year ended December 31, 2012 and 2011, employer contributions were reduced by $3,033 and $950 from forfeited nonvested accounts, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. ASC 820 clarifies the definition of fair value and expands disclosures regarding fair value measurements. Fair value is defined as the price that would be received to sell or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. ASC 820 establishes a three-tier hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets and liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of assets or liabilities.

A financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of non-observable inputs.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Plan Sponsor with the exception of participant loan administrative costs which are paid by the Plan.

Risk and Uncertainties

The Plan provides investment options that may invest in any combination of stocks, bonds, fixed income securities and other investment securities. These investment options are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk and uncertainty associated with certain investment securities, it is at least reasonably possible that changes in the values of investment options will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Events Occurring After Reporting Date

The plan administrator has evaluated events and transactions occurring after December 31, 2012 through September 27, 2013, the date the financial statements were available to be issued for possible disclosure and recognition in the financial statements.

3. Investment Contract with Insurance Company

The Plan has entered into an investment contract with Principal Life Insurance Company, which maintains certain of the Plan's assets in Pooled Separate Accounts. These accounts hold assets allocated to each separate account. The value of each separate account (27 accounts at December 31, 2012) is determined at the close of each business day based on fair value. These accounts are separate accounts (not part of Principal Life Insurance Company's general account (i.e. segregated)); income, gains, or losses from the assets in each account are credited to or charged against that account without regard to other income, gains or losses of Principal Life Insurance Company or any other separate account.

4. Investments

The following investments, at fair value, represented 5 percent or more of the Plan's net assets available for benefits as of December 31:

	2012	2011
Principal Lifetime 2030 Separate Account-R2	$ 470,239	$ 382,447
Principal Large-Cap Growth Separate Account-R2	408,335	344,539
Principal Bond and Mortgage Separate Account-R2	323,269	288,882
Principal Money Market Separate Account-R2	212,722	182,716
Principal Lifetime Strategy Inc Separate Account-R2	168,561	149,762
Principal Lifetime 2025 Separate Account -R2 *	162,024	6,889

*The December 31, 2011 investment balance in Principal Lifetime 2025 Separate Account – R 2 was below 5% of the Plan's net assets available for benefits but

has been included to maintain consistency with the current year investments reported.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) had a net appreciation in value of $251,198.

5. Related Party Transactions

Certain Plan investments are in pooled separate accounts managed by Principal Life Insurance Company ("PLIC"). PLIC is the Plan's record keeper and insurance carrier, therefore, these transactions qualify as party-in-interest transactions. PLIC charges the pooled separate accounts a maximum management fee of 3% of the value of the underlying assets.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their account balances.

7. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal, state or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Financial Data Certified by the Plan's Insurance Carrier

The following is a summary of the Plan's financial information and data included in the Plan's financial statements certified by PLIC, the insurance carrier, as of December 31, 2012 and 2011 and for the year ended December 31, 2012 as complete and accurate, in accordance with 29 CFR 2520.103-5 (c) of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974.

Level 2 Fair Value Measurements

According to PLIC, the pooled separate accounts (excluding the Principal U.S. Property Separate Account) are invested in multiple types of securities and mutual funds. PLIC owns the underlying investments in the pooled separate accounts. The underlying assets included in the pooled separate accounts have observable Level 1 or 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. While the underlying assets are valued using quoted prices, the fair value of the pooled separate accounts are not publicly quoted; accordingly, the fair value of the pooled separate accounts are reported at Level 2.

Level 3 Fair Value Measurements

The Principal U.S. Property Separate Account invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. These underlying real estate investments have unobservable Level 3 pricing inputs. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate data inputs. In addition, each property is appraised annually by an independent appraiser.

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31,

	Fixed Income	
	2012	2011
Balance, beginning of year	$ 12,828	$ 8,536
