GLENWOOD MANAGEMENT CORP. 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011

---

1. Description of Plan

The following brief description of the Glenwood Management Corp. 401(K) Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

The Plan is a profit sharing 401(K) salary deferral plan covering all employees of the Glenwood Management Corp. who have completed at least one year of eligible services, as defined in the Plan Document, and are twenty-one years of age or older. The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 (ERISA).

a. Sponsorship and administration

The Plan sponsor and administrator is Glenwood Management, Corp. (the "Company"), and the Plan became effective October 1, 1989.

b. Participants accounts

Each participant's account is credited with the participant's voluntary contribution, the Company's matching contributions, any employer discretionary profit-sharing contribution, and Plan earnings, which are allocated proportionately among all participants based on their investment in each fund. Investments are participant directed.

c. Contributions

The Company will contribute annually 25% of the participant's salary deferral contributions but only up to 6% of the participant's compensation. A participant's salary deferral contribution must be at least 1% of compensation and may not exceed 100% of compensation.

d. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service or at the Normal Retirement Date. Upon disability or death, participants become fully vested.

1. Description of Plan (continued)

e. Participant loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

f. Payment of benefits

On retirement, a participant may elect to receive benefits by a lump-sum amount in cash, by a joint and survivor annuity, a life annuity made over the remaining life of the participant or payments made over the life of the participant and a designated beneficiary.

g. Forfeitures

Non–vested portions of a participant's account balance will be forfeited when the participant receives a distribution of the entire vested benefits. The forfeited amounts are transferred to a holding account until they are used to reduce participating employers' matching contributions. During the years ended December 31, 2012 and 2011, no forfeitures were used to reduce the participating employers' matching contribution.

h. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

i. Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated March 11, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

1. Description of Plan (continued)

j. Expenses of the Plan

Administrative expenses of the Plan are paid by the Company.

2. Summary of Accounting Policies

a. Date of Management's Review

Subsequent events were evaluated through August 31, 2013, which is the date the financial statements were available to be issued.

b. Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

c. Notes receivable from participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

d. Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

e. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles accepted in the United States of America, requires the custodian of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expense during the reporting period. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

f. Payment of benefits

Benefits are recorded when paid.

g. Recent pronouncements

The Plan does not anticipate the adoption of recently issued accounting pronouncements will have a significant impact on its statements of net assets available for benefits or its statement of changes in net assets available for benefits.

3. Risks and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investment will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

4. Fair Value Measurements

The fair value measurement accounting literature established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of common stocks, certain corporate bonds and U.S. government securities are based on the closing price reported in the active market where the individual securities are traded, when available.

4. Fair Value Measurements (continued)

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

5. Information Certified By Trustee (Unaudited)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedules that was prepared by MassMutual Retirement Services the trustee of the Plan, and furnished to the Plan administrator. Investments that represent 5% or more of the Plan's net assets are separately identified. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

The fair value of investments at December 31, 2012 and 2011 as reported by the Trustee is summarized as follows:

6. Investment Contract with Insurance Company

The Plan entered into a benefit-responsive investment contract with MassMutual called the Guaranteed Interest Account (GIA). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals or distributions and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by MassMutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals or distributions and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the MassMutual contract value for credit risk of the contract issuer. The average yield and crediting interest rates for guaranteed new and old interest accounts were approximately 2.61%, not to fall below 2.61%, during 2012. The crediting interest rates are based on an agreed-upon formula with the issuer and are set annually.

7. Corrective distribution

During 2012 and 2011, refunds of $32,458 and $6,582, respectively, were recorded for contributions made in excess of amounts allowed by the Internal Revenue Service.

8. Related Party Transactions

Certain Plan assets are shares of mutual funds managed by Mass Mutual Life Insurance Company. Mass Mutual Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.
