NOTE A - DESCRIPTION OF PLAN

The following description of the Comprehensive Energy Services 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is classified as a defined-contribution plan, covering employees with at least six months of service, and who are age 21 or older. The company is the plan administrator and is responsible for reporting and disclosure requirements under the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Upon the death, permanent disability, or retirement of participants, their entire account balances become fully vested. Otherwise, vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service (defined as 1,000 hours during a Plan year). A participant becomes 100% vested after three years of service.

3. Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and an insurance company general account as investment options for participants. The Company at its discretion may elect to make employer matching contributions. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

4. Participant accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN (continued)

5. Forfeitures

If a participant terminates employment with the Company while not vested, the non-vested portion of their Plan account, determined as of the end of the Plan year which the termination occurs, is forfeited. Forfeiture amounts are first used to pay Plan expenses for the Plan year in which the forfeitures are to be allocated. The remaining forfeitures are used to reduce employer matching contributions. There were $1,211 and $5,262 of unallocated forfeitures at December 31, 2009 and 2008, respectively.

6. Participant loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at 8.25% which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

7. Payment of benefits

On termination of service, a participant’s vested account balance, if less than $5,000 shall be distributed to or for the benefit of the participant generally in a lump sum payment or a direct rollover into another retirement account. If the vested balance is over $5,000, the participant can choose to leave the balance in the Plan, or to be distributed to or for the benefit of the participant generally in a lump sum payment or a direct rollover into another retirement account.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of accounting

The Plan’s financial statements are prepared under the accrual method of accounting.

2. Investments, valuation, and income recognition

The Plan’s investments are stated at fair value. Quoted market prices are used to value investments. Shares of pooled separate accounts are valued at the net asset value of shares held by the Plan at year-end. The fixed account is stated at fair value as determined by the trustee. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

4. Plan expenses

Certain administrative expenses are paid directly by the Company and will not be reimbursed by the Plan. Certain investment expenses are netted against net appreciation in the fair value of investments.

5. Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Service Code (IRC). The plan administration believes the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

6. Benefit payments

Benefits are recorded when paid.

NOTE C - RISKS AND UNCERTAINTIES

The plan invests in various investments securities, which are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE D - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are pooled separate accounts managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative expenses amounted to $5,102 for the year ended December 31, 2009. In addition, plan participants also pay daily fees through the pooled separate accounts for investment management fees. It is impracticable to estimate the fees directly paid by the participants of the Plan.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the aggregate value of their Individual Accounts regardless of vesting schedule years of service. Depending on the facts and circumstances, a partial termination may be found to occur where a significant number of employees are terminated by the Company or excluded from Plan participation. In the case of a partial termination, only those affected will become 100% vested.

NOTE F - INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE AND CUSTODIAN (UNAUDITED)

Fidelity Management Trust Company, the custodian, held the Plan's investments and executed investment transactions. The following information, as well as the information in the supplemental schedule, was certified by the trustee as complete and accurate and, as directed by the Plan administrator, is unaudited.

The following presents investments at fair value that represent 5% or more of the Plan's net assets at December 31:

	2009	2008
Fidelity Money Market Trust Retirement Portfolio	$ 214,128	$ 163,235

Fidelity Mid Cap Value Fund	72,814	44,333
Other	375,693	364,700
Total	$ 1,191,671	$ 948,558

NOTE G - FAIR VALUE MEASUREMENTS

FASB ASC 820-10-50 (formerly FASB Statement No. 157), *Fair Value Measurements,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10-50 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of the unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts: Invests mainly in fixed securities such as common stock, asset backed securities, residential mortgage backed securities, commercial mortgage backed securities and corporate bonds.

Money Market Trust: Valued at the net asset value of the trust which predominantly consists of short-term fixed income securities.

NOTE G - FAIR VALUE MEASUREMENTS (continued)

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009:

2009	**Investments at Fair Value as of December 31:**			
	Level 1	Level 2	Level 3	Total

Total investment assets at fair value	$ -	$ 1,182,856	$ 8,815	$ 1,191,671

Level 3 assets were less than 1% of total investments at fair value

2008	**Investments at Fair Value as of December 31:**			
	Level 1	Level 2	Level 3	Total
Assets:

Total investment assets at fair value	$ -	$ 942,685	$ 5,873	$ 948,558

NOTE G - FAIR VALUE MEASUREMENTS (continued)

The following table presents changes in Plan's Level 3 investment assets measured at fair value on a recurring basis for the year ending December 31, 2009:

	Participant Loans
Balance, beginning of year	$ 5,873
