NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Alton Steel, Inc. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility

As noted below, the Plan merged with the Rex Encore LLC 401(k) Plan ("Rex Encore Plan"); the following is a description of the Alton Steel Inc. 401(k) Retirement Savings Plan as it existed prior to the merger.

The Plan was a defined contribution plan covering all employees of Alton Steel, Inc. (the "Company") and was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covered all employees who were eighteen years of age or older. The Plan did not have a minimum service requirement.

Plan Merger

Effective November 1, 2012, the Board of Directors of Alton Steel, Inc. voted to merge the Alton Steel, Inc. 401(k) Retirement Savings Plan into the Rex Encore LLC 401(k) Plan, a multiple employer plan sponsored by several affiliated entities. All participant accounts were transferred to the Rex Encore Plan on November 1, 2012. Therefore, the Company has determined that November 1, 2012 is the final reporting date for the Plan, since there were no participant assets remaining in the Plan as of this date.

Contributions

For each Plan year, participants could contribute from 1% to 100% of pre-tax or after-tax annual compensation, as defined in the Plan. For the period from January 1, 2012 through November 1, 2012, for each non-union participant, the Company contributed $1.13 per service hour through August 31, 2012 and $1.23 per service hour from that date through October 31, 2012.

For the twelve months ended December 31, 2011, for each non-union participant, the Company contributed $1.03 per service hour through August 31, 2011 and $1.13 per service hour from that date through the end of the year.

In addition, profit sharing amounts could have been contributed at the option of the Company's Board of Directors and invested in a portfolio of investments as directed by the participant. Contributions were subject to certain limitations as determined by applicable law.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Participant Accounts

Each participant's account was credited with the participant's contribution, the Company's service contribution, any profit sharing contributions made by the Company, and allocations of any earnings or expenses thereon. Allocations were based on participant's account balances. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account. Participants directed the investment of all contributions to their accounts into various investment options offered by the Plan.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. In addition, participants were immediately vested in the Company's contributions to their accounts plus actual earnings.

Participants' Loans

The Plan did not allow participants to borrow from their accounts.

Payment of Benefits

On termination of service due to health, disability or retirement, a participant or beneficiary could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or apply the vested portion of their account toward the purchase of an annuity contract. For termination of service due to other reasons, a participant received the value of the vested interest in his or her account as a lump-sum distribution.

Plan Administration

The Officers of the Company served as the Plan's trustees. John Hancock Life Insurance Company served as record keeper and, as Custodian, also held the assets of the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual method of accounting.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Effective November 1, 2012, the Plan transferred all participant accounts to the Rex Encore Plan. Therefore, as of November 1, 2012, the fair value of assets in the Plan was zero.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments included the Plan's gains and losses on investments bought and sold as well as held during the period.

Administrative Expenses

The Company paid certain expenses of the Plan and those expenses are excluded from these financial statements. Any expenses not paid by the Company were paid by the Plan and are included in administrative expenses.

Payment of Benefits

Benefits were recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The Plan sponsor has evaluated subsequent events through August 30, 2013, the date the financial statements were available to be issued.

NOTE 3 – TAX STATUS

The Plan received its latest determination letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code. The Plan's administrator and the Plan's tax counsel believe that the Plan was operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The Plan Sponsor analyzed the tax position taken by the Plan and concluded that as of November 1, 2012 and December 31, 2011, there were no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 4 –RISKS AND UNCERTANTIES

The Plan invested in various investment securities that are exposed to certain risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 5 – INVESTMENTS

The Plan merged with and transferred its assets to the Rex Encore Plan as of November 1, 2012. Therefore, as of November 1, 2012, the fair value of assets in the Plan was zero.

The Plan invested all monies as directed by the participants. The Plan Investments at December 31, 2011 consisted of the following:

	2012	2011
Guaranteed interest accounts	$ 2,949	$ 4,897
Pooled separate accounts	930,846	(251,491)
	$ 933,795	$ (246,594)

NOTE 6 –FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation method to include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs. The inputs or methodology used for valuing securities are not necessarily an indication of the risks associated with investing in those securities.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2011.

Pooled separate accounts: Valued at the quoted market prices of shares held by the Plan at period end.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 9).

NOTE 6 –FAIR VALUE MEASUREMENTS (CONTINUED)

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Level 2	Level 3	Total
Pooled separate accounts	$ 7,989,788		$ 7,989,788
Guaranteed interest accounts		$ 406,138	406,138

NOTE 7 – INFORMATION PROVIDED BY THE CUSTODIAN

John Hancock Life Insurance Company (the "Custodian") has certified the completeness and accuracy of certain information which management used in preparing the financial statements, supplemental schedule, and accompanying notes. Accordingly, this information was not audited. The following is a summary of information furnished by the Custodians:

- Investments as reported in the statements of net assets available for benefits at November 1, 2012 and December 31, 2011.

- Net appreciation (depreciation) of investments as reported in the statements of changes in net assets available for benefits for the period from January 1, 2012 through November 1, 2012 and the twelve months ended December 31, 2011.

NOTE 7 – INFORMATION PROVIDED BY THE CUSTODIAN (CONTINUED)

- Investments as reported in the supplemental schedule of assets (held at end of year) as of November 1, 2012.

NOTE 8 – PARTY-IN-INTEREST INFORMATION

Certain Plan investments were units of pooled separate accounts managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company was the Custodian as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. Fees paid to John Hancock Life Insurance Company, by the Plan, for contract administration were $50,997 and $52,576 for the period from January 1, 2012 through November 1, 2012 and the twelve months ended December 31, 2012, respectively.

NOTE 9 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive investment contract with John Hancock Life Insurance Company (USA) ("John Hancock"). John Hancock maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participants' withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by John Hancock. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participants' withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but it could not be less than 3 percent. Such interest rates were reviewed on a monthly basis for adjustment.

The guaranteed investment contract did not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
