CITIZENS NATIONAL BANK OF TEXAS
EMPLOYEE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of Citizens National Bank of Texas (the "Company") Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

A. General
The Plan is a defined contribution plan covering all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan became effective January 1, 1991. The Company absorbs the significant costs of the Plan.

B. Eligibility
Any employee who has completed six consecutive months of service and has attained the age of twenty and one-half (20½) shall be eligible to participate in the Plan effective on the first day of the month coinciding with or following the date such employee satisfies these requirements.

.

C. Contributions
There are two types of contributions to the Plan: (a) employee salary deferral contributions and (b) discretionary employer matching contributions. These contributions are subject to certain limitations and are allocated directly to the participants' accounts.

D. Participant Accounts
Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and plan earnings. Allocations are based on participant earnings and account balances, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants are allowed to direct the allocation of their salary deferral contributions and employer matching contribution amounts among multiple investment funds managed by the trustee.

E. Vesting
Participants are immediately vested in their salary deferral contributions plus earnings thereon. Participants become 20% vested in employer matching contributions after two years of service and vest an additional 20% for each additional year of service. A participant becomes 100% vested in employer matching contributions after six years of service or upon the participant's retirement, death, or total and permanent disability.

F. Payment of Benefits
Participants who withdraw from the Plan will receive their voluntary contributions and any vested benefits as soon as practical, subject to the participant's consent if required.

G. Forfeited Accounts
During the year ended December 31, 2012, forfeited nonvested accounts totaled $7,787. Of this amount, $7,787 was used to reduce employer matching contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation
The financial statements of the Plan are prepared on the accrual basis of accounting.

B. Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

C. Payment of Benefits
Benefits are recorded when paid.

D. Significant Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

E. Operating Expenses
All significant expenses of maintaining the Plan are paid by the Company.

F. Subsequent Events
Subsequent events have been evaluated through September 20, 2013, which is the date the financial statements were available to be issued.

	2012	2011
First Citizens Bancshares, Inc. Common Stock	$ 36,256	$ 79,503

Mutual funds	431,003	(146,227)
	$ 739,168	$ (103,483)

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS – continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Company stock – valued at the appraised value determined semi-annually by an independent third-party appraiser.

Mutual funds – valued at the net asset value (NAV) of shares held by the Plan at year-end.

Common/collective trusts – valued at the net asset value (NAV) of shares held by the Plan at year-end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Assets at Fair Value as of December 31, 2012

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,652,850	$ -	$ -	$ 3,652,850
Common/collective trusts	-	3,327,814	-	3,327,814

Assets at Fair Value as of December 31, 2011

	Level 1	Level 2	Level 3	Total

4. FAIR VALUE MEASUREMENTS – continued

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2012 and 2011:

	Company Stock	
	2012	2011
Balance, beginning of year	$ 195,000	$ 106,500

Balance, end of year	$ 285,856	$ 195,000

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan is a party to a benefit-responsive investment contract with Marshall & Ilsley Trust Company, N.A. (M&I) known as the BMO Employee Benefit Stable Principal Fund (the Fund). M&I maintains the contributions in a collective trust. The Fund is credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Fund is included in the financial statements at net asset value, as reported to the Plan by M&I, which approximates contract value as of December 31, 2012 and 2011. Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for the portion of net assets available for benefits attributable to the Fund. Contract value, as reported to the Plan by M&I, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yields were 2.41% and 2.81% for the years ended December 31, 2012 and 2011, respectively. The portfolio gross crediting interest rates were 2.46% and 2.65% as of December 31, 2012 and 2011, respectively. The crediting interest rates are reviewed on a daily basis for resetting.

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT – continued

The Fund owns traditional and synthetic GIC contracts with various crediting rate formulas. Fixed rate traditional GIC contracts have no reset and are deemed to remain at par. Monthly reset traditional GIC contracts are credited off of one-month LIBOR rate and a rolling twelve-month Consumer Price Index (CPI). These contracts are reset monthly at a spread to their index. Contracts are deemed to be par. Monthly reset synthetic GIC contracts are credited off the internal rate of return, dollar duration, and dollar-weighted duration of an underlying portfolio. The monthly reset contracts are maintained at contract value. The underlying portfolios are priced at market value. As rates rise, the market value falls versus contract value, and crediting rates will rise with a lag due to reinvestment. As rates fall, the market value will rise versus contract value, and crediting rates will fall with a lag due to reinvestment.

The Fund could be limited in its ability to transact with issuers at contract value if the Fund raises its risk profile or is subjected to an extended period of significant cash outflow. M&I maintains strong risk parameters and works with issuers before any risk parameter changes are contemplated. The Fund maintains cash, internal cash flow and a maturity ladder of investments to offset cash withdrawals. Further, the Fund manager may limit withdrawals in order to maintain sufficient liquidity. Therefore, the probability of the Fund losing its access to contract value transactions is remote.

All issuer transactions are guaranteed at contract value unless the Fund is found to have acted negligently, fraudulently, or with intent to mislead the issuer.

6. INCOME TAX STATUS

The Plan has obtained a determination letter dated April 4, 2012, from the Internal Revenue Service stating that the Plan is a qualified plan under Section 401(a) of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are 100% vested in their accounts.
