401(k) PROFIT SHARING PLAN

Notes to Financial Statements
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the FFF Enterprises 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more detailed information of the Plan's provisions.

General - The Plan is a defined contribution plan. The Plan was established effective January 1, 1994. The Plan covers all employees of FFF Enterprises (the Company) who are at least 18 years of age and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Automatic Enrollment - The Plan as amended on January 1, 2009 allows automatic enrollment of eligible participants. Automatic Enrollment provides that, in the absence of an employee election to the contrary, the employer automatically withholds a 2.0% 401(k) deferral from employee's paycheck. This amendment applies to all employees meeting the eligibility requirement including those employees who were eligible prior to the amendment.

Contributions - Participants' contributions are made to the Plan by means of a salary deferral agreement under which the participant is entitled to defer the lesser of 100 percent of their compensation or a fixed amount determined annually by the Internal Revenue Service. The Company, at its option, may make discretionary matching contributions. For the years ended December 31, 2009 and 2008, the Company matched voluntary participant contributions at a rate of 25 percent of the participants' compensation that is deferred up to a maximum of 5 percent of the participant's compensation. For the years ended December 31, 2009 and 2008, discretionary matching contributions of $104,334 and $104,403 were allocated to the Plan. In addition, the Company, at its option, may contribute a portion of its current profits. For the years ended December 31, 2009 and 2008, no discretionary profit sharing contributions were allocated to the Plan.

Participant Accounts - Participant accounts are credited with each participant's contribution, as well as any Company contributions and an allocation of the Plan earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

Roth 401(k) Contributions - The Plan was amended August 8, 2008, to include a Roth 401(k) feature that allows participants the option to contribute after tax compensation to the Plan. Roth 401(k) contributions are not taxable when they are distributed from the plan and provided that certain conditions are satisfied, the earnings from contributions are also not taxable when distributed from the Plan.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting - Participants are fully vested and entitled to receive their full account balance upon retirement, disability or death. Normal retirement date is the date at which the participant reaches 65 years of age. Participants who terminate employment other than by retirement, disability or death will be entitled to all of their contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. The employer's contributions vest according to the following schedule:

Years of Service	Vested Percentage
Less than 1 year	0%
1 year	20
2 years	40
3 years	60
4 years	80
5 years	100

Participant Loans - The Plan allows participants to borrow up to 50 percent of their vested account balances, but not less than $1,000 and no more than $50,000. The loan repayment period must be no more than five years with the interest rate determined based on the rate a bank or professional lender would charge. Home loans can be repaid over a reasonable period of time that may exceed five years.

Forfeited Accounts - Participants terminating employment with the Company will forfeit any nonvested employer profit sharing contributions. Forfeitures will be used to reduce employer matching discretionary contributions. At December 31, 2009 and 2008, forfeited nonvested accounts totaled $16,467 and $19,514, respectively. During the years ended December 31, 2009 and 2008, forfeitures used to reduce employer contributions were $6,730 and none, respectively.

Investments - Each participant directs the allocation of his or her contribution, and employer matching and discretionary contributions to one or more of 41 investment options. Purchases and sales of securities are recorded on a trade date basis. Participants may change their investment elections at any time by telephone or internet as allowed by the Plan administrator.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting the disclosure under ERISA.

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses - Expenses incurred in the administration of the Plan are paid by both the Plan and the Company.

Risk and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level or risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FASB Codification - The Financial Accounting Standards Board (FASB) sets generally accepted accounting principles (GAAP) that the Plan follows to ensure consistent reporting of financial condition and results of changes in net assets. In June 2009, the FASB established the FASB Accounting Standards Codification (Codification) as the sole source of authoritative GAAP.

The Codification does not change how the Plan accounts for its transactions or the nature of the related disclosures made. The change was made effective by the FASB for periods ending on or after September 15, 2009. The adoption of the Codification did not impact the Plan's financial position and results of changes in net assets. The Plan trustees have updated these financial statements to reflect the guidance in the Codification.

Subsequent Event - The Plan evaluated subsequent events through August 4, 2010, the date these financial statements were issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 3 - INVESTMENTS

The following participant-directed accounts as of December 31, 2009 and 2008 have been certified by the Plan's custodian. Investments are summarized as follows:

	$ 6,973,423	$ 5,056,545

◆ - Value is less than five percent of the Plan's net assets.

During 2009 and 2008, the Plan's investments (including, gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2009	2008
Registered investment companies	$ 1,369,379	$ (2,423,168)

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability;

Notes to Financial Statements
(Continued)
December 31, 2009 and 2008

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Level 2 (Continued)	• inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (Mutual funds): Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2009.

Purchases, sales, issuances, and settlements (net)	15,434
Balance, end of year	$ 271,140

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant receives 100 percent of his or her account balance as of the date of termination.

NOTE 6 - TAX STATUS

The Plan obtained its latest determination letter on December 2, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

The Company, which qualifies as a party-in-interest, absorbs certain administrative expenses of the Plan. Such transactions qualify for a statutory exemption.

Certain Plan investments are managed by Hartford. Hartford is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions for which a statutory exemption exists.
