Global Gaming LSP, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2012 and 2011

Note 1: Description of the Plan

The following description of Global Gaming LSP, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan, which commenced operations on May 16, 2011, as a spin-off from the 401(k) Plan for U.S. EEs of Magna Entertainment, is a defined contribution plan sponsored by Global Gaming LSP, LLC (the Company) for the benefit of its employees, except for bargaining, nonresident alien, leased or independent contractor, who have at least one year or 1,000 hours of service and are age 18 or older. Effective January 1, 2012, the one year or 1,000 hours of service requirement has been amended to six months of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Principal Trust Company is the trustee of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make monthly contributions of up to 50% of eligible compensation. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). All employees who have attained age 50 before the end of the plan year shall be eligible to make catch-up contributions.

During the period ended December 31, 2011, the Company made contributions of 50% of participant's contributions on the first 6% of the participant's eligible compensation and profit-sharing contributions. Effective January 1, 2012, the Company made contributions of 100% of participant's contributions on the first 4% of the participant's eligible compensation and profit-sharing contributions.

Company nonelective contributions are discretionary as determined by the Company. All contributions are subject to certain limitations. No nonelective contributions were made by the Company during the year ended December 31, 2012 or for the period from May 16, 2011 to December 31, 2011.

Participant Investment Account Options

Investment account options available include various mutual funds, pooled separate accounts and an insurance contract. Each participant has the options of directing their contributions into any of the separate investment accounts and may change the allocation daily.

The plan document also includes an automatic deferral feature whereby a participant is treated as electing to defer a certain percentage of eligible compensation unless the participant made an affirmative election otherwise. The automatic deferral feature also provides for an annual increase in the percentage deferred and is ultimately capped at 10%.

Global Gaming LSP, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2012 and 2011

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's contributions plus earnings thereon. The contributions are allocated to the various investment options designated by the participant. The participant's accounts also reflect the respective earnings or losses of each of the designated investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and their qualified matching and qualified nonelective contributions plus earnings thereon.

Payment of Benefits

Generally, upon attainment of age 59 ½ or termination of service, and at any point in time thereafter, a participant may elect to receive a lump-sum distribution equal to their vested account balance. However, if the employee's vested account balance is less than $1,000, they must receive a lump-sum distribution. In certain hardship situations, as described in the plan document, participants may withdraw all or part of their account balances, including any vested matching contributions or nonelective contributions.

Notes Receivable from Participants

The plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. However, the $50,000 amount in the preceding sentence must be reduced by the participant's highest outstanding loan balance during the one-year period ending on the day before a new loan is made. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on the prime rate at the date the loan is initiated plus 2%.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Notes to Financial Statements

December 31, 2012 and 2011

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The accompanying statements of net assets available for benefits presents the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value relating to the investment contract. The accompanying statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. The Plan's investments in individual mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Pooled separate accounts are valued at estimated fair value as provided by Principal Life Insurance Company. There were no pooled separate accounts at December 31, 2012 and 2011.

The fair value of the fixed income guaranteed option (guaranteed investment contract) is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes Receivable from Participants

Notes receivable from participants are reported at amortized principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Plan Tax Status

The Plan operates under a nonstandard adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Principle Life Insurance Company. This prototype plan document has obtained an opinion letter from the Internal Revenue Service dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and that the related trust was tax-exempt. The Plan was created subsequent to the date of the opinion letter and the Plan and has not requested its own determination letter. However, the Company believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, we believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan at the Company's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Note 3: Investments

The Plan's investments are held by Principal Trust Company. The fair value of the Plan's investments at the end of the year is as follows:

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Expenses paid to parties-in-interest aggregated $9,606 and $12,073 for the year ended December 31, 2012 and for the period ended December 31, 2011, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 5: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2012 and 2011:

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2012. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. Level 1 investments include mutual funds. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. Level 2 investments include pooled separate accounts. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy and include the guaranteed investment contract. See the table below for inputs and valuation techniques used for the Level 3 investment.

Fair value determinations for Level 3 measurements of investments are the responsibility of the plan administrator. The plan administrator challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States of America.

Transfers Between Levels

Transfers in and out of Level 3 investments are the result of participant election changes during 2012 and 2011.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Fixed Income Guaranteed Option
Balance, May 16, 2011	$ -
Net realized gains on sales of investments	2,351
Purchases	22,120
Sales	(40,921)
Transfers in and/or out of Level 3	256,689
Adjustment from fair value to contract value relating to a fully benefit-responsive investment contract	(12,012)
Balance, December 31, 2011	228,227
Net realized gains on sales of investments	3,068
Purchases	37,279
Sales	(85,515)
Transfers in and/or out of Level 3	41,834
Adjustment from fair value to contract value relating to a fully benefit-responsive investment contract	(11,245)
Balance, December 31, 2012	$ 213,648

Realized and unrealized gains and losses for items reflected in the table above are included in net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets available for benefits.

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value measurements.

	Fair Value at December 31, 2012	Valuation Technique	Unobservable Inputs	Weighted-Average
Investment contract with Principal Life Insurance Company	$ 213,648	Discontinuation value	Composite crediting rate	5%

Note 6: Investment Contract with Principal Life Insurance Company

In 2011, the Plan entered into a fully benefit-responsive investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

As described in the basis of accounting disclosure, because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011, was $213,648 and $228,227, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 2%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 7: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011, to Form 5500:

	2012	2011
Net assets available for benefits per the financial statements	$ 3,432,510	$ 3,413,077
Adjustment to record the corrective distribution due to failed ADP testing	-	8,839
Net assets available for benefits per Form 5500	$ 3,432,510	$ 3,421,916

The statements of changes in net assets available for benefits included in the Plan's Form 5500 filing also excludes the impact of adjustment for corrective distributions.

The following is a reconciliation of the net increase (decrease) in net assets available for benefits per the financial statements for the year ended December 31, 2012 and period ended December 31, 2011, to Form 5500:

	2012	2011
Net increase (decrease) per the financial statements	$ 19,433	$ (181,331)
Adjustment to record the corrective distribution due to failed ADP testing	(8,839)	8,839
Net increase (decrease) per Form 5500	$ 10,594	$ (172,492)

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Change in Trustee

Effective June 18, 2013, the Plan changed their trustee to Great-West Life & Annuity Insurance Company.
