INDEPENDENT AUDITORS' REPORT

July 1, 2010

To the Participants and Administrator of the
Monarch Healthcare Retirement Savings Plan:

We were engaged to audit the financial statements and supplemental schedule of the Monarch Healthcare Retirement Savings Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform any auditing procedures with respect to the information summarized in Note 6, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

MONARCH HEALTHCARE RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN

The following description of the Monarch Healthcare Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Monarch Healthcare. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees are eligible to participate in the Plan on January 1, April 1, July 1, or October 1, following completion of 3 months of service.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute up to 100 percent of eligible compensation, not to exceed the limits of the Internal Revenue Code (the IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Certain investment options are closed to participants, with respect to accepting new funding. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

During 2009, the Company matched 50 percent of the participant's deferral, up to the first five percent of compensation, totaling $464,968. The Company may also make discretionary profit sharing contributions to the Plan. No discretionary profit sharing contribution was made during the 2009 Plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN - (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4	100%

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to reduce future Company contributions or to pay Plan expenses. During 2009 and 2008, employer contributions were reduced by $51,259 and $86,655, respectively, from forfeited nonvested accounts.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, an annuity, or annual installments. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding $1,000 will be immediately distributed in a lump-sum payment. All vested account balances exceeding $1,000, up to $5,000, will be immediately rolled into another tax deferred account. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

1. DESCRIPTION OF PLAN - (Continued)

Participant Loans

Participants may borrow from their fund accounts a maximum amount equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a rate commensurate with the rates that a bank or other professional lender would charge for making a loan in a similar circumstance. Principal and interest is paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

As described in guidance issued by the Financial Accounting Standards Board (the FASB) for reporting of fully benefit-responsive investment contracts held by certain investment companies, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value in accordance with the provisions of accounting guidance issued by the FASB on fair value measurements (see Note 4).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, through forfeitures, unless paid by the Company.

Subsequent Events

In May 2009, the FASB issued new guidance which establishes general standards for accounting for and disclosure of events that occur after the date of the financial statements but before financial statements are available to be issued. More specifically, this new guidance sets forth the period after the date of the financial statements during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition in the financial statements, identifies the circumstances under which an entity should recognize events or transactions occurring after the date of its financial statements and the disclosures that should be made about events or transactions that occur after the date of the financial statements. This new guidance provides largely the same framework for the evaluation of subsequent events which previously existed only in auditing literature. The Company has evaluated subsequent events through the date of the audit report, which is the date the accompanying financial statements were available to be issued.

3. TAX STATUS

The Company adopted a Prototype Non-Standardized Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended and restated most recently to include the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

4. FAIR VALUE MEASUREMENTS

On January 1, 2008, the Plan adopted the required provisions of accounting guidance issued by the FASB on fair value measurements. The provisions of this guidance defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America, and expands disclosures about fair value measurements. The guidance is intended to enable the reader of the financial statements to assess the quality and reliability of the inputs used to develop those measurements by establishing a hierarchy, which maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available.

Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's estimates about the assumptions market participants would use in pricing the asset or liability based on the best information available under the circumstances.

The hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets or inactive markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

4. FAIR VALUE MEASUREMENTS - (Continued)

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level for an asset or liability, within the fair value hierarchy, is based on the lowest level of input that is significant to the fair value measurement at December 31, 2009 and 2008. Valuation methods need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following valuation methodologies were used for the Plan's assets to measure fair value at December 31, 2009 and 2008:

Pooled separate accounts: Valued at the Net Asset Value (NAV) of shares held by the Plan at year end. The NAV of pooled separate accounts is based upon the market value of the underlying investments and observable inputs. The NAV of the pooled separate accounts is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Registered investment companies: These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common/collective trusts: Valued at the NAV based upon the market value of its underlying investments. The investment contains synthetic investment contracts comprised of both underlying investment and contractual components which have observable level 1 or level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on observable inputs.

Participant loans: Loans to plan participants are valued at amortized cost, which approximates fair value and are classified within level 3 of the valuation hierarchy.

Although the methods above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values, the Plan believes its valuation methods are appropriate and consistent with other market participants and that the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS - (Continued)

The following fair value hierarchy table presents information about the Plan's investments measured at fair value on a recurring basis as of:

Description	Total	**Level 1** Quoted prices in active markets for identical assets and liabilities	**Level 2** Significant observable inputs with no active market with identical characteristics	**Level 3** Significant unobservable inputs

Total assets at fair value	$ 5,796,869	$ 2,076,436	$ 3,606,829	$ 113,604

4. FAIR VALUE MEASUREMENTS - (Continued)

The following table presents a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

	Participant loans
Balance, beginning of year	$ 113,604
Loan interest income	10,569
New loans issued	206,207
Loan repayments and loans deemed distributed	(103,769)
Balance, end of year	$ 226,611

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company (Principal) the custodian of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule, as of December 31, 2009 and 2008 and for the year ended December 31, 2009.

	2009	2008
Pooled separate accounts	$ 4,525,997	$ 2,588,838
Registered investment companies	3,442,119	2,076,436
Common/collective trusts	1,250,459	1,067,846
Net appreciation in fair value of investments	1,630,774	n/a
Dividend income	33,839	n/a

7. INVESTMENT CONTRACTS WITH INSURANCE COMPANY

As of December 31, 2009, the Plan holds assets of $1,250,459 in a benefit-responsive investment contract with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date

Average yields for 2009 and 2008:	2009	2008
Based on actual earnings	1.81%	3.58%
Based on interest rate credited to participants	1.79%	3.52%

8. INVESTMENTS

The following table presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2009 and 2008:

	2009
Morley Financial Services, Inc. Stable Value Fund	$1,250,459
Principal Lifetime 2020 Separate Account	1,075,792
Principal Lifetime 2030 Separate Account	1,203,905
Principal Lifetime 2040 Separate Account	669,651

Principal Lifetime 2030 Separate Account	558,184
Principal Lifetime 2040 Separate Account	361,221
UBS U.S. Large Cap Equity Fund	304,450

During 2009, the Plan's investments (including investments bought, sold and held during the year) appreciated in value by $1,630,774.

Pooled separate accounts	$ 910,855
Registered investment companies	697,672
Common collective trusts – stable value fund	22,247
	$ 1,630,774

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their accounts.

10. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are shares of common collective trusts and pooled separate accounts managed by Principal, the custodian and record-keeper of the Plan. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. During 2009, the Plan paid $3,146 in contract administration fees to Principal. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2009 and 2008:

	2009	2008
Net assets available for benefits per the financial statements	$ 9,445,186	$ 5,847,332
Fair value to contract value adjustment for fully benefit responsive investment contracts	8,450	(49,855)
Net assets available for benefits per Form 5500	$ 9,453,636	$ 5,797,477

The following is a reconciliation of the net appreciation in fair value of investments per the financial statements to the Form 5500 for the year ended December 31, 2009:

Net appreciation in fair value of investments per the financial statements	$ 1,630,774
2008 fair value to contract value adjustment for fully benefit-responsive investment contracts	49,855
2009 fair value to contract value adjustment for fully benefit-responsive investment contracts	8,450
Net appreciation in fair value of investments per Form 5500	$ 1,689,079
