The Benefits Committee
Bis Frucon Engineering Inc. Retirement Thrift Plan:

We were engaged to audit the accompanying financial statements and supplemental schedule of the Bis Frucon Engineering Inc. Retirement Thrift Plan as of and for the year ended December 31, 2009, as listed in the table of contents. These financial statements and supplemental schedule are the responsibility of the plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Notes C and D, as of and for the year ended December 31, 2009, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on the plan's financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

BIS FRUCON ENGINEERING INC. RETIREMENT THRIFT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2009

A. DESCRIPTION OF THE PLAN

The following description of the BIS Frucon Engineering Inc. Retirement Thrift Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of BIS Frucon Engineering Inc. (the "Company"), except for certain employees covered under collective bargaining agreements. Employees are eligible to participate in the Plan as well as the employer match, on the date on which they begin employment. The Plan is subject to the provisions of the Employee Retirement Income Security act of 1974 (ERISA).

Effective January 1, 2009, BIS Frucon Engineering, Inc. spun off from Fru-Con Companies Thrift Retirement Plan. BIS Frucon Engineering Inc. Retirement Thrift Plan was created with 222 participants, and transferred net assets of \$13,964,777.

The Plan includes 401(k) pre-tax and thrift after-tax account options with maximum annual contributions of \$16,500 on the pre-tax basis for the year ended December 31, 2009. All contributions are directed by the participants and allocated to the investments that the participants have selected.

The Plan also has an employer discretionary profit sharing provision applicable to employees who have completed at least 1,000 hours of service during the Plan year and are employed by the Plan Sponsor on the last day of the Plan year.

Contributions

Each year, participants may contribute pretax deferrals from annual compensation, up to certain levels, as defined in the Plan. Participants may also contribute after-tax dollars and contribute amounts representing rollovers from other qualified plans. The Company matches 50% of participant contributions up to a maximum of 6% of a participant employee's base compensation. Employer matching contributions were suspended as of September 1, 2009. Additional profit sharing amounts may be contributed at the option of the Company.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings on account balances, as defined by the Plan agreement. A participant is entitled to the amount of benefit that can be provided from the participant's vested account.

Vesting

All participant's contributions are 100 percent vested. The Plan provides that a participant's share of the sponsor's contributions becomes 33 1/3 percent vested after the participant has completed one year of service, 66 2/3 percent vested after two years of service and 100 percent vested after three years of service. Years of service are determined based on elapsed time. Additionally, if participation in the Plan ends by reason of normal retirement, disability or death, then their individual account becomes 100 percent vested.

Participant Loans

According to the Plan agreement, participant loans are not permitted.

Payment of Benefits

At the end of the year in which a participant terminates his or her employment, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, if the value is less than \$1,000. If the value of the participant's vested interest is \$1,000 or greater, he or she is permitted to hold it in his or her account before rolling it over into a new plan.

Forfeited Accounts

Forfeitures of nonvested Sponsor contributions, resulting from terminated participants, may be used to reduce the amount of the employer match. For the year ended December 31, 2009 forfeitures were \$9,869.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial Statements are prepared using the accrual method of accounting, except that benefits are recorded when paid.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

The Plan provides for various investment options in a combination of fixed income securities and stock mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit fluctuations. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term would materially affect the fair value reported in the Statements of Net Assets Available for Plan Benefits.

In accordance with the policy of stating investments at fair value, the Plan presents in the Statements of Changes in Net Assets Available for Plan Benefits the net appreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Subsequent Events

The Plan has evaluated subsequent events through July 9, 2010 the date the financial statements were available to be issued.

C. INVESTMENTS

Investments that represent 5 percent or more of the Plan's net assets at December 31, 2009 are as follows:

	December 31, 2009
Fidelity Management Trust Company:	
Retirement Money Market	\$ 2,015,229
Contrafund	1,459,623
Intermed Bond	1,190,036
Canada	943,886
Magellan	930,551
Sel Natural Resources	901,414
Diversified International	881,668
Low Price Stock	850,517

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$3,316,342 during 2009. The appreciation is attributable to changes in the fair values of the Plan's mutual fund investments.

Interest and dividends realized on the Plan's investments for the year ended 2009 was \$218,591.

D. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 – inputs to the valuation methodology include other observable inputs, including quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trust / stable funds: Valued at contract value, which an adjustment of fair value is calculated and disclosed.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents assets measured at fair value on a recurring basis at December 31, 2009:

Description	December 31, 2009	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Common Collective Trust/Stable Fund	\$ 416,645	-	\$ 416,645	-
Investments with Registered Investment Company	14,457,818	\$ 14,457,818	-	-
Interest-bearing cash	2,015,229	2,015,229	-	-
Total	\$ 16,889,692	\$ 16,473,047	\$ 416,645	-

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

E. INVESTMENT CONTRACT WITH INSURANCE COMPANY

Certain plan assets are invested in a benefit-responsive investment contract with Fidelity Management Trust Company ("Fidelity"), consisting of an insurance company general account and pooled separate accounts of Fidelity (the "Fund"). Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Fidelity. The guaranteed investment contract

issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the investment contract. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be below zero. Such interest rates are reviewed on a daily basis for resetting.

The plan's investment in the Fund is presented at fair value in the Statements of Net Assets Available for Plan Benefits with an adjustment from fair value to contract value of \$7,748 as of December 31, 2009. The fair value of the Fund as of December 31, 2009 was \$416,645. The fair value of the wrap contract, which is calculated using the discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate, and the duration of the underlying portfolio securities.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures, or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the plan's ability to transact at contract value with participants, is probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

<u>Average Yields:</u>	<u>2009</u>
Based on actual earnings	3.16%
Based on interest rate credited to participants	1.20%

F. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Sponsor has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and schedule is complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Plan Benefits as of December 31, 2009.
- Interest and dividends earned and net appreciation in the fair value of investments as shown in the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2009.
- Assets held for investment purposes as show in the Schedule of Assets (Held at End of Year) as of December 31, 2009.

G. INCOME TAX STATUS

The Plan operates a prototype plan administered by the asset custodian. The Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, the Plan's results or performance are exempt from income taxes.

H. RELATED PARTY TRANSACTIONS

Plan investments consist of shares of mutual funds managed by the trustee. Fidelity Investments is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amount to \$680 for the year ended December 31, 2009.

I. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Participants should refer to the Plan Agreement for a description of the priorities or distribution of Plan benefits in the event of termination. Generally, any distribution would be made in proportion to the participant's interest, after deduction of allowable expense.

J. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, credit, and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the statement of net assets available for benefits.

K. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
