THE BAY 101 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2009

(1) DESCRIPTION OF PLAN

The following description of The Bay 101 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1995 to provide retirement benefits for the employees of Sutter's Place, Inc. dba Bay 101 ("the Company"). It is a defined contribution plan covering all employees who have completed six months of service and attained the age of 21 except those covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute up to 75% of pretax annual compensation as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make matching contributions equal to a discretionary percentage of the participant's salary at the option of the Company's board of directors.

The Company may also make a profit-sharing contribution, which is allocated to participant accounts based on the ratio of an individual participant's compensation to compensation paid to all participants. The Company did not make a contribution to the Plan during the year ended December 31, 2009.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and allocation of Plan earnings. Allocations are based on participant account balances. Forfeited balances of terminated participants' nonvested accounts are added to employer matching contributions and allocated therewith. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 9.25%, which are commensurate with prevailing local rates.

(1) DESCRIPTION OF PLAN, CONTINUED

Payment of Benefits

On termination of service, normal retirement (age 65), early retirement (age 55 with 5 years of service), disability or death, a participant may elect to receive a lump-sum payment equal to the value of the participant's vested interest in his or her account or he or she may elect to have the benefit distributed in the form of an annuity or installment payments. A participant may also elect to receive distributions prior to termination upon reaching age 59½.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through August 9, 2010, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits are prepared on a contract value basis, which is the same as the fair value at December 31, 2009 and December 31, 2008.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Payment of Benefits

Benefits are recorded when paid.

Contributions Payable

Contributions payable represent amounts paid to the carrier in excess of the amount withheld from participants' wages.

Operating Expenses

The Company pays substantially all expenses of the Plan.

(3) TAX STATUS

Although the Plan has not requested determination from the Internal Revenue Service as to the Plan's tax-exempt status, the master prototype Plan from which the Plan was drafted has received a favorable determination from the Internal Revenue Service. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with all applicable requirements of the Internal Revenue Code.

(4) FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

		Fair Value Measurements Using:	
	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
December 31, 2009			
Mutual funds	$ 3,380,703	3,380,703	-
Investment contract with insurance company	780,960	-	780,960
Participant loans	33,563	-	33,563
Total	$ 4,195,226	3,380,703	814,523

(4) FAIR VALUE MEASUREMENTS, CONTINUED

	Fair Value	Fair Value Measurements Using: Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
December 31, 2008			
Mutual funds	$ 2,462,169	2,462,169	-
Investment contract with insurance company	673,458	-	673,458
Participant loans	27,673	-	27,673
Total	$ 3,163,300	2,462,169	701,131

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of the investment contract with insurance company is based on reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

The fair values of the participant loans are based on the present value of the cash flow stream of payments at an agreed upon interest rate stated in the agreement.

The Plan did not have any Level 3 investments as of December 31, 2009 and December 31, 2008.

(5) INVESTMENTS

(6) INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a fully benefit-responsive guaranteed investment contract with Great-West Life and Annuity Insurance Company (Great-West). Great-West maintains the contributions in a general account. The contract is included in the financial statements at contract value (see Note 2) as reported by Great-West. Contract value represents contributions made under the contract, plus interest, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The interest crediting rate is based on the underlying assets of the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract and prevailing market conditions. The effective annual interest rate will never be less than 0%. The interest crediting rate is reset quarterly.

The average yield earned by the Plan was 3.16% and 3.55% for 2009 and 2008, respectively.

The average yield earned by the Plan adjusted to reflect the actual interest rate credited to Plan participants was 3.13% and 3.2% for 2009 and 2008, respectively.

(7) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(8) UNAUDITED INFORMATION

Certain information included in the financial statements and supplemental schedule is based on information supplied by the Plan's trustee and was not audited. This unaudited information is as follows:

- Investments at fair value at December 31, 2009 and December 31, 2008.
- Net appreciation in fair value of investments for the year ended December 31, 2009.

The Plan administrator has obtained certification from the trustee that the information provided is complete and accurate.

(10) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
