Schedule H, Line 4i - Schedule of Assets (Held at End of Year)

**REPORT OF INDEPENDENT AUDITORS****To the Participants and
Plan Administrator of the
Independent Electric Supply, Inc.
Employee Stock Ownership
Plan and Trust**

We have audited the financial statements of the Independent Electric Supply, Inc. Employee Stock Ownership Plan and Trust (the Plan) as of and for the years ended December 31, 2009 and 2008, as listed in the accompanying table of contents. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Plan's management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, as listed in the accompanying table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

INDEPENDENT ELECTRIC SUPPLY, INC. EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

NOTE 1 - THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General - The following description of the Independent Electric Supply, Inc. Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is an employee stock ownership plan that was established in 1984 by Independent Electric Supply, Inc. (the Company) to provide benefits to eligible employees, as defined in the Plan document. The Plan was amended and restated effective January 1, 2010 and is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

During 2009 and 2008, the Company funded noninterest-bearing loans of \$8,000,000 and \$3,500,000, respectively, to the Plan in order to fund distributions taken during the respective years. As of December 31, 2009 and 2008, \$11,500,000 and \$3,500,000, respectively, was outstanding and will be applied against future employer contributions.

Administration - Under the terms of the Plan, a designated individual acts as the trustee (the Trustee). The Company has appointed an employee to manage the operation and administration of the Plan. The Company has contracted with a third-party administrator who processes and maintains the records of participant data. Substantially all expenses incurred for administering the Plan are paid by the Company.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The Plan relies significantly on the use of estimates in determining the valuation of the Company's common stock, which is the primary Plan investment.

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008**

Forfeited accounts - Forfeited nonvested accounts of approximately \$553,000 and \$572,000 were allocated to eligible participants employed by the Company at December 31, 2009 and 2008, respectively.

Investment valuation and income recognition - Plan assets, which consist principally of Company common stock (Company stock), are nonparticipant-directed. The value of Company stock at December 31, 2009 and 2008 was determined by an independent appraisal (Note 4).

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Net depreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Income taxes - The Plan has been amended since receiving a favorable determination letter dated September 17, 2001. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Risks and uncertainties - The value of Company stock is directly related to the annual operating results and financial position of the Company. It is at least reasonably possible that changes in the value of Company stock in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

The appraised value of Company stock is based primarily on the estimated future operating results of the Company. It is possible that such results may not be achieved thus affecting the value of its stock. It is also reasonably possible that the appraised value of Company stock is not reflective of the actual value that could be obtained in an arms length sale transaction of all or a portion of Company stock. Should such a sale take place, the actual amount realized and the resultant value of a participant's account could be materially different than the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

INDEPENDENT ELECTRIC SUPPLY, INC. EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

Recent accounting pronouncements - In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update 2010-06 which expanded the required disclosures about fair value measurements. In particular, this guidance requires: 1) separate disclosure of the amounts of significant transfers in and out of level 1 and level 2 fair value measurements along with the reasons for such transfers, 2) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for level 3 fair value measurements, 3) fair value measurement disclosures for each class of assets and liabilities and 4) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either level 2 or level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for 2) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Subsequent events - The Plan has evaluated subsequent events through September 2, 2010, which is the date the financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

**INDEPENDENT ELECTRIC SUPPLY, INC.
EMPLOYEE STOCK OWNERSHIP
PLAN AND TRUST**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008**

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market account: Valued at the net asset value (NAV) of shares held by the Plan at year end. It is not probable that the money market fund will be sold at an amount that differs materially from the NAV of shares held.

Company stock: Valued by an independent appraiser who considered a number of methodologies and concluded the income and market approaches were most appropriate.

NOTE 3 - PARTICIPATION AND BENEFITS

Employer contributions - The Company is allowed to make discretionary contributions to all eligible participants. Employer contributions may be made in cash, Company stock or other property, as determined by the Company's Board of Directors. During 2008, the Company made a discretionary cash contribution of \$3,000,000; none was made in 2009.

Vesting - Allocated shares become 100% vested after six years of service.

Participant accounts - Each participant's share of Plan assets is recorded in two accounts: the Company Stock Account, which generally represents the participant's allocable portion of the Company's shares included in the Plan assets; and the Other Investment Account, which generally represents the participant's share of Company contributions and forfeitures in investments other than Company stock.

Each participant's account is credited (or debited) with an allocation of: a) the Company's contribution, b) forfeitures of terminated participants' nonvested accounts, c) net income (or loss) of the Plan and d) unrealized appreciation (depreciation) in the value of the Plan's investment in Company stock. Employer contributions and forfeitures are allocated to eligible participants in the ratio that the eligible compensation of each participant bears to the total compensation of all eligible participants. A participant will share in the current year allocation of Company contributions only if the participant is still employed on the last day of the Plan year.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008**

Cash contributions on allocated shares are allocated to participants' Other Investment Accounts. Stock contributions received in Company stock are credited to the account to which such stock was allocated.

Participants who have reached the age of 55 and have at least ten years of service with the Company may diversify a portion of their account balances, as defined in the Plan document. Participants who elect to diversify can receive a cash distribution from the Plan.

Payment of benefits - Distribution of a participant's vested account balance in the event of normal retirement, disability or death will begin not later than one year following the Plan year in which such event occurs. Distributions are made in cash and may be made in a lump sum or in installments over a period generally not exceeding five years. Effective January 1, 2010, if the vested account balance is \$1,000,000 or less, the account will be distributed in a lump sum. If the vested account balance is \$1,000,000 or more, the account will be distributed in two substantially equal annual installment payments.

If a participant terminates for any other reason, distribution of the participant's vested account balance will commence no later than the sixth Plan year after his or her termination. Effective January 1, 2010, if the vested account is \$50,000 or less, the account will be distributed in a single lump sum. If the vested account balance is \$50,000 or more, the account will be distributed in five substantially equal annual installment payments. Distributions are made in cash and may be made in a lump sum or in installments over a period generally not exceeding five years. The Plan allows for the automatic lump sum distribution of participant vested account balances that do not exceed \$1,000.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008**

Participants who are age 65 and have at least five years of service with the Company may withdraw their vested account balance.

Voting rights - Participants can direct the Trustee as to the voting of shares of Company stock allocated to their accounts relative to any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution or other similar transactions.

In all other matters, Company stock held by the Plan will be voted by the Trustee.

NOTE 4 - INVESTMENTS

The Plan's investment in Company stock as determined by independent appraisal is as follows at December 31:

	<u>2009</u>	<u>2008</u>
Total number of shares	<u>103,076</u>	<u>103,076</u>
Cost	<u>\$27,348,337</u>	<u>\$27,348,337</u>
Fair value	<u>\$64,731,853</u>	<u>\$77,307,149</u>

NOTE 5 - PLAN TERMINATION OR MODIFICATION

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time by resolution of its Board of Directors, subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.
