Note A: Description of the Plan

The following description of the Food Concepts International, LP (Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The plan is a defined contribution plan covering all employees of the Company who have completed three months of service and attained the age of 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year participants may contribute from 1 percent up to 100 percent, limited to $17,000 for 2012, of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions and the Company's contributions into various investment options offered by the Plan. The Plan currently offers an array of John Hancock funds for participants. The Employer, at its discretion, may make matching contributions to the Plan to the extent and in the manner required by the Safe Harbor CODA provisions of the plan agreement. A participant shall be 100% vested in the value of Safe Harbor match. For the 2012 plan year, the Company satisfied the Safe Harbor CODA requirements and has provided a matching contribution equal to 100% of each participant's contribution, up to a maximum of 3% of the participant's compensation, plus 50% of each participant's contributions that exceeds 3%, but not more than 5%, of the participant's compensation. Additional profit sharing amounts may be contributed at the option of the Company. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is credited with the participants' contributions and an allocation of (a) the Company's contribution, if applicable, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their contributions and employer matching contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions is based on years of continuous service. A participant is 100% vested after six years of credited service.

Forfeitures – At December 31, 2012 and 2011 there were no forfeited accounts. Any forfeited amounts would first be used to reduced administrative expenses.

Participant loans – Participant loans are not permitted under the Plan.

Payment of Benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In addition, hardship distributions are permitted if certain criteria are met.

Note B: Summary of Accounting Policies

The following summary of significant accounting policies is presented to assist in the understanding of the Company's financial statements. The financial statements and notes are the representation of the Company's management who is responsible for their integrity and objectivity. The financial statements of the Organization have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Financial Accounting Standards Board (FASB) is the accepted standard-setting body for establishing accounting and financial reporting principles. The more significant of the Company's accounting policies are described below.

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investments – The Plan's investments are stated at fair market value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Operating Expenses – Significant administrative expenses are absorbed by the plan as provided by the plan document. The plan sponsor also pays a portion of expenses related to maintaining the plan.

Note C: Investments

The following presents investments that represent 5 percent or more of the Plan's net assets:

Lifestyle Moderate	$ 888,640	$ 754,209
Lifestyle Balanced	827,280	909,322

Lifestyle Aggressive	355,673	402,289

* Did not make up more than 5% during the current year

During 2012, the Plan's investments in guaranteed and sub-accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $738,771.

Note D: Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market dates by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used at December 31, 2012 and 2011.

Guaranteed accounts: Recorded at contract value, which approximates fair value.

Sub-accounts: Valued at the net asset value ("NAV"), which represent the values at which each sub-account can redeem its investments.

The valuation methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D: Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Note E: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note F: Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Note F: Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note G: Information Certified by the Custodian

The Plan investments are held by John Hancock Financial Services, the Custodian, and are invested in various funds as directed by the participants. The following information included in the financial statements and supplemental schedule was provided and certified by the Plan's Custodian as complete and accurate as it relates to the Plan's investments it holds:

- Investments at fair value
- Net appreciation in fair value of investments
- Interest and dividends

Note H: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note I: Related-Party Transactions and Party in Interest Transactions

Certain Plan investments are held in guaranteed accounts and contract sub-accounts managed by John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. John Hancock charges asset management fees, which are paid from plan assets. The Plan Sponsor pays directly any other fees related to the plan's operations.

Note J: Plan Amendments

Effective September 27, 2012, Amendment Number Three to the Food Concepts International, LP 401(k) Plan was executed to include Abuelo's Urban Taqueria, LLC as a new member of the controlled group and adopter of the plan.

Note K: Subsequent Events

The Plan has evaluated events subsequent to December 31, 2012 that would require adjustment or disclosure under FASB ASC 855-10-50-1 in these financial statements, through October 7, 2013, the date that these statements were available to be issued. There were no events identified that require adjustment or disclosure as of December 31, 2012.

Note L: Reconciliation to Form 5500
