NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the PayFlex Systems USA, Inc. (Company) 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Summary Plan Description (SPD) for a more complete description of the Plan's provisions.

General -
The PayFlex Systems USA, Inc. 401(k) Profit Sharing Plan is a defined contribution plan covering all eligible employees who are age 20 or older. During the year, the Plan was amended to exclude certain temporary and seasonal employees from eligibility.

Participation is automatic for eligible employees with a 3% employee deferral into a default investment unless the participant elects a differing deferral (including 0%) or investment allocation.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions -
Each year, participants may contribute up to 100% of their compensation or a certain dollar limit set by law, whichever is less. For the year ended December 31, 2009, the limit for employee deferrals was $16,500. In addition, for those employees reaching the age of 50 on or before the beginning of each plan year, additional amounts (catch-up contributions) may be deferred. For the year ended December 31, 2009, the maximum 'catch-up contribution' was $5,500. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The participants direct the investment of their contributions into various investment options offered by the Plan.

The Company, at its discretion, will match a part of the participants' contributions made to the Plan for those participants who are employed on the last calendar day of the plan year and have 1,000 hours of service in the plan year. For the year ended December 31, 2009, the Company matching contribution was 50% of a participant's elective deferral that did not exceed 8% of the participant's eligible compensation.

The Company, at its discretion, may make additional profit sharing contributions to the Plan. For the year ended December 31, 2009, there were no additional profit sharing contributions made by the Company.

The Company match and discretionary profit sharing contributions are invested into the investment options selected by the participants.

Participant Accounts -
Each participant's account is credited with the participant's elective contributions, the Company matching contribution (if any), the Company profit sharing contribution (if any), and the Plan's earnings and losses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested portion of their account.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Vesting -
Participants are immediately vested 100% in their elective contributions plus the actual earnings thereon. Vesting in the Company's contribution portion of their account plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. Forfeitures are used to reduce employer matching contributions.

Payment of Benefits -
On termination of service due to death, disability, or retirement, a participant with a vested benefit under the Plan of $1,000 or less will receive a single lump-sum payment of benefits. If the participant's vested balance is over $1,000 and under $5,000, the vested balance is subject to automatic rollover to an individual retirement account if the participant does not request a distribution. If the participant's vested balance under the Plan exceeds $5,000, the participant may elect to receive the value of the participant's vested interest in his or her account in a lump-sum payment or defer receipt of benefits to a later date. The deferral of benefits will be allowed up to the time a distribution is required to be made under law which is currently the year following the year in which the participant reaches age 70 ½ years.

Forfeitures -
At December 31, 2009, forfeited nonvested accounts totaled $10,036. These accounts will be used to reduce employer contributions in the next plan year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting -
The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates -
The preparation of financial statements in accordance with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition -
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments are valued at quoted market prices with the exception of the stable value mutual fund as noted in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits -
Benefits are recorded when paid.

Operating Expenses -
All expenses of maintaining the Plan are paid by the Company. Certain trustee and recordkeeping fees were also paid by the Company and no reimbursement to the Company by the Plan is expected.

NOTE 3 - INVESTMENTS

As of December 31, 2009, all investments were held in mutual funds or stable value funds. The Plan's investments are held in a bank administered trust fund. Gains and losses on investments that were bought, sold, and held during the year are included in net appreciation in fair value.

The following table presents investments representing five percent or more of the Plan's net assets:

NOTE 4 - FAIR VALUE

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820,* formerly Statement of Financial Accounting Standards No. 157 (SFAS 157), *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB 820 are described as follows:

Level 1 - unadjusted quoted prices in active markets the plan has the ability to access for identical securities.

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Inputs may include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 - FAIR VALUE (Continued)

The following is a description of the methodology used to value assets at December 31, 2009. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds are valued at quoted closing prices in active markets for the identical mutual fund and as certified by the plan trustee.

Stable value mutual funds are valued at net asset value as reported in the audited financial statements of the stable value fund and as certified by the plan trustee.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan classifies its investment in the ABN AMRO Income Plus Class C, a stable value fund, as a Level 3 asset. The Fund is a common or collective trust which invests in a variety of instruments including guaranteed investment contracts and instruments with contracts guaranteeing return, commonly referred to as "wrappers". As such, this investment has non-observable inputs and is not actively traded.

The following is a summary of the inputs used to value the Plan's investments as of December 31, 2009 and 2008:

NOTE 5 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain administrative fees of the funds in which the Plan assets are invested are deducted from those investments. The amount of these fees is not available, but is included in the Net Appreciation in Plan Assets on the Statement of Changes in Net Assets Available for Benefits. A portion of these fees may be shared with the trustee of the Plan assets in a revenue-sharing agreement. For the year ended December 31, 2009, these fees were $8,100.

These transactions qualify as transactions with a party-in-interest and are considered exempt transactions permissible under laws and regulations applicable to the Plan.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

NOTE 7 - TAX STATUS

The Plan is a prototype non-standardized profit sharing plan with a cash or deferred arrangement designed by First National Bank of Omaha, who serves as third-party administrator (TPA) for the Plan Sponsor and trustee of the plan assets. The Internal Revenue Service has determined and informed the TPA by a letter dated March 31, 2008, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and TPA believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 8 - INFORMATION PREPARED AND CERTIFIED

The following information included in the accompanying financial statements was obtained from the data that has been prepared and certified to as complete and accurate by the custodian:

Investments in Mutual Funds (at Fair Value)	$ 2,128,232
Net Appreciation (Depreciation) in Fair Value of Mutual Funds	444,648
Investment Income	23,838

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through July 1, 2010, the date the financial statements were available to be issued.
