A. J. KIRKWOOD & ASSOCIATES, INC.
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 and DECEMBER 31, 2011

NOTE 1 – Description of Plan

The following description of the A. J. Kirkwood & Associates, Inc. (Employer) 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan was adopted on January 24, 1997 with an effective date of January 1, 1997, as a defined contribution plan covering all full-time employees of the Employer who have completed one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). Effective as of August 1, 2003, the Plan was amended to include receipt of Employer provided contributions for prevailing wage employees. Employees eligible to share in the employer provided benefits (based on prevailing wage rates) are eligible to participate on the beginning date of employment with the Employer. Prevailing wage employees are any employee whose service is subject to coverage under the Davis-Bacon Act, Service Contract Act, and any other federal or state law mandating the payment of compensation pursuant to certain minimum prevailing wage determinations.

Contributions:

Non-elective employer contributions are made by the employer based on hours worked and job classification of each employee performing work on prevailing wage contracts. There is no discrimination allowed under the plan. Generally, discrimination is considered to occur when non-highly compensated participants receive proportionately lesser benefits than highly compensated participants. ERISA allows employers to make a Qualified Non-Elective Contribution (QNEC) on behalf of certain participants to ensure the plan is in compliance with non-discrimination tests. The Company elected to make a QNEC in the amount of $1,287 and $0 for the years ending December 31, 2012 and December 31, 2011, respectively.

Profit sharing contributions are determined annually by the Employer up to maximum of 25% of all Participants' compensation. The annual compensation of each Participant taken into account in determining allocation for any plan year will not exceed $250,000 adjusted for cost-of-living increases in accordance with Section 401(a)(17)(B) of the Code. Contributions are limited to $50,000 per Participant adjusted for cost-of-living under Code Section 415(d). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

NOTE 1 – Description of Plan (Cont.)

Participant Accounts:

Each Participant's account is credited with the Participant's contribution and allocation of (a) the Employer's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on Participant earnings or account balances, as defined. Due to immediate vesting, there are no forfeitures of non-elective employer contributions. Forfeited profit sharing balances are used to reduce non-elective employer contributions.

Vesting:

Participants are immediately vested in elective contributions and non-elective employer contributions plus applicable earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. A Participant is 100 percent vested after six years of credited service.

Participant Loans:

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, or the present balance of the Participant's accrued benefit, whichever is less. The loans are secured by the balance in the Participant's account. Loan repayment is made not less frequently than quarterly and must be repaid within five years unless the loan is used to buy a primary residence.

Payment of Benefits:

On termination of service due to death, disability, or retirement, a Participant may elect to receive a lump-sum amount equal to the value of the Participant's vested interest in his or her account.

Investment Options:

Contributions on behalf of the Participants are invested in accordance with the Participants' investment allocation. The Participants' investment choice is limited to in-house investments with John Hancock Life Insurance Company (USA), chosen by trustees. The Plan's investments are pooled. However, each Participant receives allocations of Plan earnings based on the Participant's investment allocation. Participants may change their investment options at any time.

Subsequent Events:

Management has evaluated subsequent events through September 25, 2013, the date on which the financial statements were available to be issued. There were no subsequent events requiring disclosure, accruals, or adjustments to the carrying value of assets at the balance sheet dates.

NOTE 2 – Summary of Accounting Policies

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting. The financial statements and notes are the representation of the Plan's trustees, who are responsible for the integrity and objectivity of the financial statements.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value except for its benefit-responsive investment contract, which is valued at contract value (Note 4). Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant's loans are valued at their outstanding balances, which approximate fair value. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest and dividend income is earned individually according to each participants' investment allocation and are reinvested in each account.

Payment of Benefits:

Benefits are recorded when paid.

NOTE 3 – Investment Contract With Insurance Company

In 2004, the Plan entered into a fully benefit-responsive variable investment contract with John Hancock Life Insurance Company (USA) (John Hancock). John Hancock maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by John Hancock. The contract is included in the financial statements at contract value measured by quoted market prices in an active market, which represents contributions made under the contract, plus earnings less Plan withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 was $5,147,367. The average gain was approximately eleven percent (11%) for 2012. The fair value of the investment contract at December 31, 2011 was $3,911,677. The average loss was approximately four percent (4%) for 2011.

NOTE 4 – Investments (Cont.)

During 2012 and 2011, the Plan's investment funds appreciated (depreciated) in value by $533,999 and $(82,448), respectively. The Plan's Guaranteed Accounts earned interest of $398 and $644, respectively.

As of December 31, 2012, the investment at cost of $490,982 in the JH Lifestyle Conservative Fund, $1,940,547 in the JH Lifestyle Balanced Fund, and $501,645 in the JH Lifestyle Growth Fund each represent a greater than 5% interest of net assets available for benefits.

As of December 31, 2011, the investment of $429,979 in the JH Lifestyle Conservative Fund, $1,460,450 in the JH Lifestyle Balanced Fund, $432,243 in the JH Lifestyle Growth Fund, $210,483 in the JH Lifestyle Aggressive Fund and $266,807 in the Money Market Fund each represent a greater than 5% interest of net assets available for benefits.

NOTE 5 – Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements:

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Fair Value Measurements:

Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements:

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5 – Fair Value Measurements (Cont.)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

- ***Common Stocks, Corporate Bonds and U.S. Government Securities***: Valued at the closing price reported on the active market on which the individual securities are traded.

- ***Mutual Funds***: Valued at the quoted net asset value of shares held by the plan at year end.

- ***Guaranteed Investment Contract***: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. (See Note 6)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's fair value measurements at December 31, 2012 and 2011:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

NOTE 6 – Guaranteed Investment Contract with John Hancock Life Insurance Company

In 2004, the Plan entered into a benefit-responsive guaranteed investment contract with John Hancock Life Insurance Company (John Hancock). John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value. Fair value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the guaranteed investment contract at December 31, 2012 and 2011 was $56,822 and $61,912, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Interest rates are established on the first day of each calendar month. All money contributed during that month earns that interest rate. At the end of each year, a composite rate of interest is determined for each participant account depending on the amounts contributed and the rate in effect on the day it is allocated under the participant account. The composite rate is the effective annual rate earned by all contributions to that guaranteed account during the year for that participant. Contributions continue to earn that calculated composite interest rate for the duration of the guarantee term.

NOTE 6 – Guaranteed Investment Contract with John Hancock Life Insurance Company (Cont.)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2012	2011
Based on Actual Earnings	(0.20%)	0.70%
Based on Composite Interest Rate Credited to Participants	1.50%	1.70%

NOTE 7 – Party-In-Interest Transactions

John Hancock Life Insurance Company provides substantially all of the brokerage services for the Plan investments and, as such, is a party-in-interest. The plan administrator, Actuaries Unlimited, is also a party-in-interest. Fees paid by the Plan for administrative services amounted to $54,570 and $39,674 for the years ended December 31, 2012, and December 31, 2011, respectively.

NOTE 8 – Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will receive a lump-sum amount equal to the value of their account.

NOTE 9 – Federal Income Taxes

On November 8, 2004, the Trustee received from the Internal Revenue Service a letter of determination stating that A.J. Kirkwood & Associates, Inc. 401(k) Profit Sharing Plan is exempt from federal income taxes under Section 401(a) of the Internal Revenue Code for the Plan and its latest amendment dated October 11, 2003. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations in progress for any tax period. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the statement of net assets available for benefits.
