1. DESCRIPTION OF THE PLAN

The following description of the Crystal Window & Door 401(K) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established for the purpose of providing retirement, death and disability benefits for the employees of the Crystal Window & Door Systems, Ltd. (the "Company"). The Plan is a defined contribution plan covering all full-time employees of the Company who have reached the age of 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (the "ERISA").

Contributions

The amount of the Company's contributions to the Plan is subject to the limitations imposed by law on the maximum amount which can be contributed. The Company's matching contribution is equal to the lesser of 100% of participant's elective deferrals or 1% of participant's eligible earnings. The Company's nonelective contribution, if any, is allocated among plan participants based upon the ratio of the participant's gross compensation for the year and the aggregate compensation paid to all participants for the year. The Company's gross contributions for 2012 and 2011 totaled $44,958 and $46,596, respectively.

Each year, a participant may make voluntary pre-tax contributions to the Plan provided that such contributions are limited from 1% to 89% of the participant's gross compensation for the year, subject to certain limitations imposed by the Internal Revenue Code (the "IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions with the amount limited to $5,500 for 2012 and 2011. A participant may also contribute amounts representing distributions for other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds as investment options for participants.

During the years ended December 31, 2012 and 2011, the Plan returned excess contributions to participants totaling $15,188 and 2,480, respectively, which were included in certain corrective distributions in the accompanying statements of changes in net assets available for benefits.

1. DESCRIPTION OF THE PLAN (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and the Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant's earnings or account balances, as defined. Participants direct investment of all account balances. Forfeited balances of terminated participants' nonvested accounts may be used to reduce future company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans must be repaid within five years unless the proceeds are used to purchase a principal residence. Loans used to acquire primary residence may be repaid within 30 years. The loans are secured by the balance in the participant's account and interest at 3% to 10.25%, which is commensurate with prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions. During 2012 and 2011, loans totaling $1,995 and $4,566, respectively, were deemed distributed to a participant, who missed loan payments and failed to make up the payments within the required period of time.

Payment of Benefits

Participants may withdraw all or part of the vested amount in their account upon reaching their early retirement age of 59 ½ and are entitle to the total amount in their account upon completing six years of service, or upon normal retirement at age 65.

1. DESCRIPTION OF THE PLAN (continued)

Payment of Benefits (continued)

When active participating employees become disabled, such employees are entitled to the total amount in their respective accounts upon certification of disability. Disability benefits are distributed in the same manner as normal retirement benefits.

Upon the death of an active participating employee, such employee's beneficiary is entitled to the total amount of the employee's account plus an allocation of any Company's contribution relating to the year in which the death occurred.

For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account to be paid at the discretion of the Plan administrator and with the participant's consent, in either lump sum or periodic installments.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants would become fully vested with all rights to any amounts in their respective accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States.

Use of Estimates

The preparation of the Plan's financial statements requires the Plan administrator to make estimates that affect the amount reported in the financial statements and accompanying notes. Accordingly, actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on the quoted market closing price at the end of the last business day of the Plan year.

Purchase and sales of investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of $1,425 and $1,400, representing administrative fees for loans and distributions for the years ended December 31, 2012 and 2011, respectively, were paid by the participants. Accounting and auditing fees are paid by the Company.

Risks and Uncertainties

The Plan provides for various investment options in a number of combinations of mutual funds. Such investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of investment securities, it is at least reasonably possible that changes in the values of the Plan's investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

3. INVESTMENTS

Information Prepared and Certified by Plan Trustee

The accompanying financial statements and supplemental schedule include information that has been prepared and certified by the trustee in accordance with 29 CFR 2520.103-5 of the Certificate of Trustee under the Employee Retirement Income Security Act of 1974. 4. INCOME TAX STATUS

The Internal Revenue Service (the "IRS") has determined and informed the Company by a letter dated November 6, 2001, that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. The Plan adopted the Automatic Data Processing Prototype 401 (k) and Profit Sharing Plan in 2007 and obtained a letter dated March 31, 2008 from the IRS, which informed the Company that the Plan is acceptable under section 401 of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore believes that the Plan is qualified and the related trust is tax exempt.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (observable inputs). In accordance with ASC 820, the following summarizes the fair value hierarchy:

Level 1 Inputs – Unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access.

Level 2 Inputs – Inputs other than the quoted prices in active markets that are observable either directly or indirectly.

Level 3 Inputs – Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurements.

ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Mutual funds: Valued at the quoted market prices.

The method described above may produce a fair calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS (continued)

The following table presents the Plan's assets and related valuation inputs within the fair value hierarchy utilized to measure fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 5,035,948**	**$ -**	**$ -**	**$ 5,035,948**

The following table presents the Plan's assets and related valuation inputs within the fair value hierarchy utilized to measure fair value as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,729,695	$ -	$ -	$ 4,729,695

6. SUBSEQUENT EVENTS

The Plan's management has performed subsequent events procedures through July 25, 2013 which is the date the financial statements were available to be issued. There were no subsequent events requiring adjustment to the financial statements or disclosures as stated herein.
