TRANS-PHOS, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

NOTE A - DESCRIPTION OF PLAN

The following description of the Trans-Phos, Inc. ("Company") Retirement Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan and was established on August 1, 1998, for the benefit of the employees of Trans-Phos, Inc. The Plan was restated on January 1, 2010. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code 401(k). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility - Employees are eligible to make elective deferrals after completing three months of service and attaining a minimum age of 21. Entry date for employees is the first day of the Plan year quarter following the date the employee satisfied these eligibility requirements. The employee is eligible for employer matching contributions on this same date. Elective deferrals must be a minimum of 3% of the employee's compensation, with catch-up contributions permitted. Employees must have at least 1,000 hours of service annually in order to avoid a break in eligibility service.

Contributions - Each year, the Company may contribute a matching contribution equal to a uniform percentage or dollar amount of employee elective deferrals, the formula to be determined annually. The Company may also contribute a non-elective contribution distributed pro-rata to employees based on salary. For the year ending December 31, 2012, the employer matching contribution was 50% of the employee deferral on up to the first 6% of deferred compensation, and there was no employer non-elective contribution.

Employer matching and discretionary contributions will vest in accordance with the Plan's vesting schedule described below.

Vesting - Vested percentages in the employer matching and discretionary contributions are as follows:

Total Years of Service	Vested
Less than 1 year of service	0%
1 year of service	0%
2 years of service	25%
3 years of service	50%
4 years of service	75%
5 years of service	100%

NOTE A - DESCRIPTION OF PLAN - CONTINUED

Participant Accounts - Each participant's account is credited with the Company's non-elective contribution and allocations of Plan earnings, and each is charged with an allocation of administrative expenses. Plan earnings are allocated to participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant's Investment Options - Participants must direct the employer contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time throughout the year.

Forfeitures - At December 31, 2012, there was $709 in forfeited non-vested accounts. Forfeitures attributed to non-elective contributions will be used to reduce any employer non-elective contribution to the Plan. Forfeitures attributable to matching contributions will be used to reduce any employer matching contributions to the Plan.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid within five years or be treated as a taxable distribution. A plan loan will provide a fixed rate of interest of 1% above the prime interest rate. The loans bear interest rates ranging from 4.25% to 9.25%. Loans are repaid either through an ACH agreement or monthly payroll deductions. At December 31, 2012, the amount of principal on outstanding participant loans was $63,964.

Payments of Benefits – On termination of service due to death, disability or retirement, a participant becomes fully vested in employer matching and non-elective amounts, and may receive a lump-sum distribution. For termination of service due to other reasons, a participant may receive a lump-sum distribution of the participant's vested account balance.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Administration Costs - The employer is paying all Plan expenses that it is legally permitted to pay. Any remaining expenses are paid by the Plan and are allocated to employees based on their account balances.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. See Note G for discussion of fair value measurements. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE C - INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2012 and 2011, and net appreciation in fair value of investments for the year ended December 31, 2012, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by The Guardian Insurance & Annuity Company, Inc. ("Guardian").

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Guardian, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedules.

Single investments representing 5 percent or more of the Plan's net assets as of December 31, 2012 and 2011, are separately identified. Plan assets reported at fair value consist of the following:

	2012	2011
Mutual Funds:		
American Century Ultra Investor Fund	$ 184,817	$ 202,257
American Century International Growth Fund	88,546	117,093
American Century Value Fund	116,649	97,193
American Century Real Estate Fund	127,828	107,125
RS Large Cap Alpha Fund	281,606	334,095
Fidelity Advisor High Income Advantage Fund	101,052	-
Other mutual funds	770,662	675,829
Total Mutual Funds	$1,671,160	$1,533,592

NOTE C – INVESTMENTS - CONTINUED

Guardian certified the completeness and accuracy of $220,496 of net appreciation in fair value of investments for the year ended December 31, 2012.

NOTE D - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE E - TAX STATUS

The IRS has determined and informed the company by letter dated August 1, 1998, that the Plan and related trust are designated in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE F - SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 30, 2013, the date which the financial statements were available for issue and has determined that there are no additional adjustments and/or disclosures required.

NOTE G - FAIR VALUE MEASUREMENT

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

> *Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE I - PARTY-IN-INTEREST TRANSACTIONS

The plan permits loans to be made to payees, provided that the borrower qualifies as a party-in-interest as defined by ERISA Section 3(14). All current employees of the Company and certain former employees qualify as parties-in-interest. Fees paid during the year by the parties-in-interest are based on customary and reasonable rates. See Note A for discussion of participant loans.
