Report of Independent Auditors

The Advisory Committee
FirstBank Holding Company
Savings & Employee Stock Ownership Plan

We have audited the accompanying statements of net assets available for benefits of the FirstBank Holding Company Savings & Employee Stock Ownership Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in its net assets available for benefits for the year ended December 31, 2009, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2009, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

FirstBank Holding Company
Savings & Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2009
(In Thousands, Except Share Amounts)

1. Description of the Plan

The following description of the FirstBank Holding Company Savings & Employee Stock Ownership Plan (the Plan) provides general information only. Participants should refer to the plan document and the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan (ESOP) created on January 1, 1976. Effective December 31, 2003, the Plan was amended to consist of two portions: a profit-sharing plan portion with an Internal Revenue Code (the Code) Section 401(k) savings arrangement and an ESOP portion. The Plan is for the exclusive benefit of the employees of FirstBank Holding Company and its subsidiaries (collectively, the Company) and their beneficiaries. The provisions of the Plan meet the requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participation

Participation in the Plan is available to eligible employees of the Company who have completed one year of service during which the employee completes not less than 1,000 hours of service.

Contributions

The ESOP component of the Plan is noncontributory for participating employees. Company contributions are at the discretion of the Company's Board of Directors. Contributions to the ESOP component of the Plan are made in the Company's Class A and Class B common stock or cash. Class A common stock and Class B common stock are identical in all respects, share for share, except that the voting power for the election of directors and for all other purposes is vested in the holders of the Class B common stock. For the 2009 plan year, the Company made a $3,661 cash ESOP contribution.

Contributions to the 401(k) savings component of the Plan are made in cash. The investments in the 401(k) savings component of the Plan are participant-directed. Participants may contribute from 1% up to 80% of their pretax annual compensation, as defined in the Plan and trust agreement for the 401(k) savings component, not to exceed the maximum amount permissible by law ($16.5 in 2009). The Company also provides for a Safe Harbor employer contribution that is

1. Description of the Plan (continued)

made to the Plan each year. For the 2009 Plan year, the Safe Harbor contribution was 3% of eligible compensation. The Safe Harbor rate may be changed by the Company upon sufficient notice to the participants.

Participant Accounts

Each year, participant accounts are credited with: (1) participant contributions; (2) employer contributions, if eligible to receive a contribution for the plan year based on the employees' compensation for the year in relation to the total compensation of eligible employees; (3) forfeitures, which are allocated in the same manner as contributions, except for a last day of the year employment requirement; and (4) earnings or losses thereon.

Administration of the Plan

The operations and administration of the Plan are managed and controlled by an advisory committee, trustees, and a custodian appointed by the Board of Directors of the Company. The advisory committee and trustees are members of the Company's Board of Directors or management. The Company maintains a separate account for each participant. The investments of the ESOP component of the Plan are directed by the trustees. The investments in the 401(k) savings component of the Plan are participant-directed and are intended to comply with ERISA Section 404(c).

Participants become fully vested with three or more years of service. The participant's account may also become fully vested when the participant reaches the age of 65 or in the event of death or permanent disability.

Payment of Benefits

On termination of service, a participant may elect to receive either a lump sum amount in Company stock and/or cash equal to the value of the participant's vested interest, or elect to postpone the distribution to some future distribution date. During 2002, the Plan was amended so that should a total distribution be equal to or exceed $800, the Company may elect to make installments over a period not to exceed five years. If the participant elects to receive their ESOP distribution in Company stock, and later desires to dispose of the stock for any reason, they must first offer the stock for sale back to the Company.

1. Description of the Plan (continued)

Forfeitures

If a participating employee terminates their employment, or receives a lump sum distribution of the vested portion of their account balance because of termination as a plan participant, the non-vested portion of their interest, if any, is forfeited and reallocated among the remaining participants in proportion to their compensation in the year the forfeiture occurs. Forfeitures for participants who were not fully vested amounted to $74 for the year ended December 31, 2009, and were reallocated to the remaining participants.

Plan Termination

In the event of termination of the Plan, the accounts of all participants will become fully vested and the advisory committee will direct the trustees to distribute all assets remaining in the trust to participants and beneficiaries in proportion to their respective interests.

2. Summary of Significant Accounting Policies

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and conform to accounting principles generally accepted in the United States (GAAP). A summary of significant accounting and reporting policies is as follows:

The common stock of the Company is stated at estimated fair value, as determined by an independent third-party appraisal performed annually on December 31. The money market funds and short-term investment fund are stated at amortized cost, which approximates fair value. Mutual funds are valued using quoted market prices which represent the net asset value of shares held by the Plan at year-end. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust fund (MCM Stable Value). The statements of net assets available for benefits present the fair value of the underlying investment contracts. The fair value of the Plan's interest in MCM Stable Value is valued at net asset value, which represents the fair value of the underlying investment contracts

2. Summary of Significant Accounting Policies (continued)

as reported by the issuer of the common collective trust at year-end. The contract value of MCM Stable Value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Securities transactions are accounted for on the trade date.

Benefits are recorded when paid.

Dividends

Dividends on fully vested Company Class B shares held by the Plan are paid directly to the participants in the Plan. For the year ended December 31, 2009, dividends totaling $2,731 were paid directly to plan participants and, therefore, have not been included in the accompanying financial statements.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended FASB Statement No. 157, *Fair Value Measurements* (codified as Accounting Standards Codification (ASC) 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

2. Summary of Significant Accounting Policies (continued)

In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance, based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 4 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

Concentration and Risks and Uncertainties

Approximately 75% of the Plan's assets are invested in the Company's common stock. A significant change in the fair value of the Company's common stock would cause the value of the Plan's net assets to change significantly due to this concentration.

2. Summary of Significant Accounting Policies (continued)

Administrative Costs

During the year ended December 31, 2009, all administrative costs of the Plan were paid by the Company, with the exception of $58 of fees paid to White Horse Investment Advisors for their services as investment advisor to the 401(k) savings component of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedule. Actual results could differ from these estimates.

3. Investments

During 2009, the Plan's investments (including investments purchased and sold, as well as held during the year) appreciated in fair value as follows:

Common stock	$ 16,623
Mutual funds	10,482
Common collective trust fund	218
	$ 27,323

The common stock in FirstBank Holding Company is the only investment that represents 5% or more of the fair value of the Plan's net assets available for benefits at December 31, 2009 and 2008. This investment is non-participant-directed.

3. Investments (continued)

The net assets related to non-participant-directed investments at December 31 are presented in the following table:

	2009	2008
FirstBank money market accounts	**$ 4,328**	$ 6,137
Short-term investment fund	**12**	12
FirstBank Holding Company Class B shares	**99,879**	96,338
FirstBank Holding Company Class A shares	**93,542**	88,546
Total fair value	**$ 197,761**	$ 191,033

The following table presents information about the significant components of changes in net assets related to non-participant-directed investments for the year ended December 31, 2009:

Change in net assets:	
Employer cash contributions	$ 3,661
Dividends, interest, and capital gain distribution	3,009
Net appreciation in fair value	16,623
Distributions to terminated participants	(11,573)
Diversification of participant accounts	(4,992)
	$ 6,728

4. Estimated Fair Values of Financial Instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). GAAP includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

4. Estimated Fair Values of Financial Instruments (continued)

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data, by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. Level 1 inputs are used for money market funds and short-term investment funds where the carrying amount is a reasonable estimate of fair value, and mutual fund investments where quoted market prices are available. Level 2 inputs are used for the Company's stock and the common collective trust funds. Company stock is valued based on an independent third-party appraisal. The appraiser relies on quoted prices for similar equity securities and observable inputs relative to Company performance, both past and projected. The common collective trust funds are valued based on contract values reported by the fund, as adjusted for the underlying fair values of the underlying investments. No assets were valued using Level 3 inputs.

4. Estimated Fair Values of Financial Instruments (continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009		
	Level 1	**Level 2**	**Total**
Money market and short-term investment funds	$ 5,448	$ –	$ 5,448
Company stock	–	193,421	193,421
Common collective trust fund [(a)]	–	9,976	9,976
Mutual funds:			
Foreign equities	9,013	–	9,013
Bond funds	6,113	–	6,113
Domestic equities	29,204	–	29,204
Balanced	4,406	–	4,406
Total assets at fair value	$ 54,184	$ 203,397	$ 257,581

[(a)] This common/collective trust fund is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one year redemption notice to liquidate its entire share in the fund. The fair value of this fund is based on net asset value, which represents the fair value of the underlying investment contracts in the fund as reported by the issuer of the fund. The fair value differs from the contract value. As previously discussed in Note 2, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

4. Estimated Fair Values of Financial Instruments (continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2008:

	Assets at Fair Value as of December 31, 2008		
	Level 1	**Level 2**	**Total**
Money market and short-term investment funds	$ 6,487	$ –	$ 6,487
Company stock	–	184,884	184,884
Common collective trust fund	–	8,411	8,411
Mutual funds	31,422	–	31,422
Total assets at fair value	$ 37,909	$ 193,295	$ 231,204

5. Reconciliation of Net Assets per Form 5500 to Financial Statement

Below is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2009	**2008**
Net assets available for benefits per the financial statements	**$ 259,147**	$ 233,142
Adjustment from fair value to contract value for fully benefit-responsive contracts	**47**	(460)
Net assets available for benefits per the Form 5500	**$ 259,194**	$ 232,682

5. Reconciliation of Net Assets per Form 5500 to Financial Statement (continued)

Below is a reconciliation of the increase in net assets per the financial statements to the Form 5500:

	Year Ended December 31 2009
Net increase in net assets available for benefits per the financial statements	$ 26,005
Plus: Prior-year adjustment from fair value to contract value	460
Plus: Current-year adjustment from fair value to contract value	47
Net income per the Form 5500	$ 26,512

The Plan invests in investment contracts through a common collective trust (MCM Stable Value). The statements of net assets available for benefits present the fair value of the underlying investment contracts of the MCM Stable Value investment; however, the adjustment from fair value to contract value for fully benefit-responsive investment contracts results in the net assets per the financial statements reflecting contract value for the MCM Stable Value investment. The Form 5500 records the MCM Stable Value investment and its related income at fair value.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated January 31, 2005, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification status. The Plan sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

7. Subsequent Events

Plan management has evaluated events subsequent to December 31, 2009 through August 31, 2010, which is the date these financial statements were available to be issued. There have been no material events noted during this period that would either impact the information reflected herein or the Plan going forward.
