The Redwoods Group, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Years ended December 31, 2009 and 2008

Note A - Description of Plan

The following description of The Redwoods Group, Inc. 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of The Redwoods Group, Inc. ("the Sponsor"). The Sponsor is a managing underwriter of property, casualty, liability and workers' compensation insurance coverage provided by insurance carriers for the Company's programs for Young Men's Christian Associations, Jewish Community Centers and not-for-profit camps throughout the United States. Employees of the Sponsor, who have attained age 21, are eligible to begin participating in the Plan on the first day of the month following their employment date. The Plan permits eligible employees to make pre-tax deferrals to the Plan. The Plan was established on January 1, 2002, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Sponsor also performs administrative functions for the Plan. Great-West Life & Annuity Insurance Company ("Great-West") is the Plan's custodian and record-keeper. Great-West has provided certification as to the accuracy and completeness of investment assets, transactions and income, and supplemental schedules. Pursuant to an agreement, Qualified Retirement Plan Services, Inc. provides specified regulatory compliance and administrative services to the Plan.

Contributions

Plan participants may contribute a portion of their compensation each Plan year, subject to certain limitations established by law. Additionally, Plan participants reaching age 50 before the calendar year ends may make additional 'catch up' contributions to the Plan of up to $5,500 and $5,000 for the 2009 and 2008 Plan years, respectively. The Plan provides for matching contributions equal to 100% of employee salary deferrals that do not exceed 6% of compensation. In addition to the employees' salary deferrals and rollovers, the Sponsor may make the following discretionary contributions to the Plan: 1) matching contributions, 2) profit sharing contributions, 3) qualified non-elective contributions ("QNEC"). Generally, profit sharing and QNEC contributions would be allocated to each participant in proportion to the participant's compensation as compared to the total compensation of all participants eligible to share.

Investment of Assets

Participants direct their contributions and the Sponsor's contributions to one or more investment options provided by the Plan. Participant accounts are segregated for the purpose of determining gains and losses on the investments.

Note A - Description of Plan (continued)

Vesting
Participants are 100% vested in their own salary deferrals, rollovers and QNEC's. A participant becomes fully vested in the Sponsor's matching and other discretionary profit sharing contributions after 3 years of service. The cumulative vesting schedule is 33.3% after one year, 66.7% after two years and 100% after three years of service. Forfeitures of non-vested participant accounts are used to reduce the Sponsor's contributions. During the years ended December 31, 2009 and 2008, $1,609 and $23,666, respectively, of forfeited non-vested accounts were used to reduce the Sponsor's contributions. At December 31, 2009 and 2008 there were no previously forfeited amounts available to offset future contributions.

Payment of benefits
Vested balances are available for distribution to participants upon death, disability, termination of employment or attainment of age 59½. Additionally, hardship withdrawals are permitted by the Plan, provided certain conditions are met. At December 31, 2009 and 2008, no benefit distributions had been requested by Plan participants that were not yet paid.

Participant loans
Plan participants are allowed to borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loan repayment terms for general purpose loans may not exceed five years and loan repayment terms for principal residence loans may not exceed fifteen years. A participant can have no more than two loans outstanding from the Plan at any time. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest charged for similar types of loans by other lenders. Principal and interest payments are withheld from participant wages through semi-monthly after-tax payroll deductions.

Plan termination
Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, all amounts credited to participant accounts become 100% vested.

Note B - Significant Accounting Principles

Basis of accounting and use of estimates
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions which affect the reported amounts of net assets available for benefits at the date of the financial statements, disclosures of contingent assets and liabilities and the reported changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Note B - Significant Accounting Principles (continued)

Investment valuation and income recognition

In accordance with U.S. GAAP, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. U.S. GAAP requires the statement of net assets available for benefits to present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is to be prepared on a contract value basis. The Great-West guaranteed portfolio fund is a fully benefit-responsive contract and as of December 31, 2009 and 2008, fair value approximates contract value. Fair value equals contract value since the investment contract does not have a fair value adjustment upon discontinuance. Therefore, no adjustment to contract value is necessary.

Current U.S. GAAP guidance establishes a three-level hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets (Level 1), the next priority to quoted prices for identical assets in inactive markets or similar assets in active markets (Level 2) and the lowest priority to unobservable inputs (Level 3).

The Plan's investments are stated at fair value. Investments in pooled separate accounts ("PSAs") are stated at estimated fair value, which have been determined based on the unit values of each PSA. Unit values are determined by Great-West by dividing the PSA net assets at fair value on the valuation date by the units outstanding at each valuation date. These are deemed to be Level 2 investments under U.S. GAAP. The Great-West guaranteed portfolio fund is similar in concept to a bank certificate of deposit with a guaranteed interest rate determined quarterly by Great-West. Participant loans are stated at their outstanding balances, which approximate fair value. Investments in the guaranteed portfolio fund and participant loans are deemed to be Level 3 investments under U.S. GAAP. Interest income is recorded on the accrual basis.

Subsequent Events

The Plan evaluates subsequent events for matters that require recognition or disclosure in the Plan's financial statements. Subsequent events have been evaluated through August 25, 2010.

Note C - Income Tax Status

The Plan is a prototype plan for which the IRS has issued a determination letter as to the acceptability of the form of the prototype plan under the Internal Revenue Code ("IRC"). The Plan is relying on that determination and has not applied for a separate determination letter. Accordingly, no provision for income taxes has been included in the Plan's financial statements. Although the Plan has been amended since its formation, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note D - Investments

All investment information disclosed in the accompanying financial statements, notes to the financial statements and supplemental schedule including investments held at December 31, 2009 and 2008, net realized and unrealized change in fair value of plan investments and interest income for the year ended December 31, 2009, were obtained or derived from information supplied to the Plan Sponsor and certified as complete and accurate by Great-West.

As mentioned in Note B, the Plan investments are in the form of PSAs maintained by Great-West. The PSAs are held separate and apart from the general assets of Great-West and are exclusively for the benefit of Plan participants and beneficiaries. With the exception of the guaranteed portfolio fund, a PSA is established for each investment option available to the Plan comprised only of publically traded shares of the underlying mutual fund. The value of each PSA is directly related to the quoted share price of each mutual fund. There are no liquidity or redemption restrictions on participant balances invested in PSAs.

The Great-West guaranteed portfolio fund is a fully benefit-responsive investment contract. Funds are invested in a commingled fashion with investments in Great-West's general account. The average yield earned for the Great-West guaranteed portfolio fund for the years ended December 31, 2009 and 2008 were 2.96% and 3.33%, respectively. The average yield earned with any applicable adjustment to reflect the actual interest rate credited to plan participants was 2.96% and 3.33% for the years ended December 31, 2009 and 2008, respectively. Crediting interest rates are determined by Great-West on a quarterly basis. Key factors that could influence future crediting rates are changes to market interest rates, changes in the market value of securities, changes in the duration of weighted average life of securities and deposits or withdrawals of investment contracts.

Note D - Investments (continued)

Note E - Transactions with Parties - In - Interest

Plan investments include units of participation in pooled separate accounts and a guaranteed portfolio fund managed by Great-West. As discussed in Note A, Great-West is the custodian and record-keeper for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Certain administrative functions related to the Plan are performed by employees of the Sponsor. Neither the Sponsor nor the employees receive compensation from the Plan for these services. Additionally, certain expenses of the Plan, primarily audit, record-keeping, administrative and regulatory compliance fees, are paid directly by the Sponsor.

Note F - Risks and Uncertainties

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
