WASSERMAN MEDIA GROUP, LLC
401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

1. Description of the Plan

The following description of the Wasserman Media Group, LLC ("Company") 401(k) Plan ("Plan") is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the Plan document.

General
The Company was formed in 2001 to manage sports athletes, and provide for consultation services in the field of marketing.

The Plan, established in March 2003, is a defined contribution plan covering all eligible full-time employees of the Company as described below. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility
All full time employees of the VGO division are eligible for participation in the Plan, after they have completed 30 days of service and are 21 years of age or older.

Contributions
Participants may, but are not required to, make voluntary contributions to the Plan up to the IRS maximum for the applicable calendar year. Rollover contributions are also permitted under the Plan. There are no provisions for employer matching contributions as of December 31, 2009.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of Plan earnings, and is charged with transaction fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon.

Participant Loans
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest commensurate with the local prevailing rate. Principal and interest is paid ratably through semi-monthly payroll deductions.

1. Description of the Plan (continued)

Payment of Benefits
In-service distributions are permitted after a participant attains age 59 ½, attains age 65 (or normal retirement age, if earlier), or becomes disabled. Upon a participant's termination, distributions will be made as soon as administratively feasible. Optional forms of payment available upon termination of employment are lump sum distributions of the entire vested account balance, or a single sum distribution of a portion of the vested account balance. Vested account balances of $5,000 or less will be made in a lump sum.

2. Significant accounting policies

Basis of accounting
The financial statements for the Plan are prepared using the accrual method of accounting.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Expenses
Plan administrative expenses for 2009 have been borne by the Company.

Investment valuation and income recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and net appreciation includes gains and losses on investments bought and sold as well as held during the year. See note 5 for a discussion of fair value measurements.

Payment of Benefits
Benefits are recorded when paid.

Operating Expenses
All expenses of maintaining the Plan are paid by the Company.

2. Significant accounting policies (continued)

Subsequent Events
The date to which events occurring after December 31, 2009, the date of the most recent balance sheet, have been evaluated for possible adjustment to the financial statements or disclosure is July 20, 2010, which is the date on which the financial statements were available to be issued. No subsequent events requiring adjustment or disclosure were identified.

3. Information certified by the plan's Custodian

Information relating to the separate investment funds, interest and dividend income, and change in unrealized appreciation on investments included in the Plan's financial statements, and the information contained in the supplemental schedule of assets held for investment was prepared by the Custodian, John Hancock Retirement Services for 2009 and 2008, and furnished to the Plan sponsor. Such information is unaudited. The Plan sponsor has obtained certifications from the Custodian that all information provided is complete and accurate to the best of their knowledge.

4. Plan Termination, priorities and guarantees

Although it has not expressed any intent to do so, the Company reserves the right to modify, amend or terminate the Plan at any time subject to the provisions of ERISA.

5. Investments

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures,* provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

5. Investments (continued)

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments, which consist of interests in various mutual funds, are all classified within level 1 of the fair value hierarchy because they are valued using quoted market prices that represent the net asset value of shares held by the Plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments in excess of five percent of net assets include the following:

	Current Value	% of Net Assets
LF Balanced Portfolio	$ 610,180	18.91%
LF Growth Portfolio	$ 615,729	19.08%
LF Aggressive Portfolio	$ 462,616	14.34%
JH Stable Value Fund	$ 293,364	9.09%

6. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

7. Inactive participants

Net assets for plan benefits at December 31, 2009 include approximately $1,107,000 allocated to the accounts of persons who, as of or prior to that date, had terminated. These inactive participants continue to earn interest, dividends and unrealized appreciation/depreciation on their account balances. No withdrawal requests had been made as of the financial statement date.

8. Tax status of the Plan

The Company has not filed for a determination letter with the Internal Revenue Service regarding the Plan's qualifications under Section 401(a) and the related trust's tax-exempt status under provisions of Section 501(a) of the Code. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.
