INDEPENDENT AUDITORS' REPORT

To the Participants and Plan Committee of the
Hazard Construction Company Retirement Plan
San Diego, California

We were engaged to audit the financial statements and supplemental schedule of Hazard Construction Company Retirement Plan (the "Plan") as of December 31, 2009, and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2008 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by The Standard Insurance Company, the custodian of the Plan. Their report, dated October 12, 2009, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by The Standard Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the accompanying financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2009 that the information provided to the Plan administrator by the custodian is complete and accurate.

As described in Note 2, these financial statements and supplemental schedule were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information in the Plan's 2009 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2009 financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1. DESCRIPTION OF THE PLAN

The following is a description of the Hazard Construction Company Retirement Plan (the "Plan"), which is a defined contribution plan established on July 1, 1998. The Plan is sponsored by Hazard Construction Company (the “Company”) to allow eligible employees of the Company to adopt a regular program of savings for retirement.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan’s provisions.

Eligibility and Participant Contributions

The Plan covers all full-time non-union employees of the Company who are eighteen years of age or older and have completed one month of employment. Participants may contribute up to 100% of pretax annual compensation, as defined, limited to the maximum amount permitted under federal law. In addition, employees who are age 50 or older can elect to defer additional amounts (called “catch-up contributions”) to the Plan. Participants may further contribute amounts from other qualified sources.

Employer Contributions

The Company may make discretionary matching contributions. Through October 2009, the Company made discretionary matching contributions up to 30% of contributions by participants. Effective November 1, 2009, the Company discontinued its discretionary matching contributions indefinitely. In addition to the discretionary matching contribution, the Company makes profit sharing contributions to comply with prevailing wage requirements under the Davis-Bacon Act or state prevailing wage statutes.

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer’s contributions and allocations of Plan earnings and losses, and is charged with loan and distribution fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions and the employer profit sharing contributions, plus actual earnings thereon. Vesting in the employer discretionary matching contributions is equal to 20% for each Plan year that an employee is credited with at least 1,000 hours of service, as defined by the Plan. Participants are 100% vested in employer discretionary matching contributions after five years of credited service. Any amount not vested upon a participant's separation from service is forfeited, and may be used to reduce employer matching contributions or pay Plan expenses.

Investment Options

Upon enrollment in the Plan, participants may direct their contributions in any of the available investment options. Subsequently, participants may change their allocations and transfer account balances between the investment options in accordance with Plan provisions.

NOTE 1. DESCRIPTION OF PLAN (Continued)

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest at rates that range from 3.25% to 8.25% (as of December 31, 2009), which are commensurate with market rates as determined by the Plan administrator. The repayment terms provide for loan payments to be made through payroll deductions and for loans to be amortized over a reasonable period of time not to exceed five years, with the exception of loans for a principal residence, which can be repaid over a maximum of ten years. In accordance with Plan provisions, participants may have only one loan outstanding at any time, except for a second loan used for a principal residence.

Payment of Benefits

Upon termination of service due to retirement, death or disability, attaining age 59½ and/or hardship, participants may elect to receive a distribution of their account in a lump sum, or defer distribution if the account exceeds $5,000. Distributions may not be deferred later than the year in which the participant attains the age of 70½. The Plan sponsor rolls over a participant's vested account balance greater than $1,000 and less than $5,000 into an individual retirement account ("IRA") selected by the Plan sponsor if the participant has not elected to receive a cash distribution or have the balance rolled over into an IRA of his/her choosing. Also, at its discretion, the Plan sponsor may elect to distribute vested account balances of less than $1,000.

Forfeitures

In the event of termination of employment, the portion of the participant's account that is not vested is forfeited. Amounts forfeited are generally used to reduce administrative expenses or employer contributions. During 2009, $4,775 was added to the forfeiture account, including $148 of investment earnings, and $5,892 was used to reduce employer matching contributions. As of December 31, 2009 and 2008, the forfeiture account balance was $3,554 and $4,671, respectively.

Third-Party Service Providers

All investments are maintained by The Standard Insurance Company ("Standard") which serves as custodian of the Plan's assets. Upon enrollment in the Plan, a participant may direct contributions to a guaranteed interest account and/or pooled separate accounts offered by non-Standard funds. Participants may change their investment options at any time.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounts of the Plan are maintained, and the accompanying financial statements have been prepared on the modified cash basis, which is a comprehensive basis of accounting other than generally accepted accounting principles in the United States of America. Under this method, contributions and investment income are recognized when received, rather than when earned, and disbursements and expenses are recorded when paid, not when incurred.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements under the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Therefore, the statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded when received. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold during the year as well as held at the end of the year.

Administrative Expenses

Administrative expenses are generally paid by the Company. Upon termination, employees may elect to keep their vested balance in the Plan. Administrative fees resulting from these accounts may be charged to the accounts of the terminated employees.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated events through the date of the independent auditors' report, which is the date these financial statements were available to be issued. There were no material subsequent events that require recognition or additional disclosure in the financial statements.

NOTE 3. INVESTMENTS

The Plan's investments were held by the custodian of the Plan, Standard, and consisted of the following as of December 31,

	2009	2008
Investments representing 5% or more of Plan net assets:		
Guaranteed Interest Account	$ 4,500,686	$ 4,399,096
Vanguard 500 Index Admiral	1,079,369	792,118
Vanguard Lifestrategy	861,251	*
T. Rowe Price Growth Stock	608,450	*
Participant Loans	541,931	545,826
T. Rowe Mid-Cap Growth	520,620	*
Dodge & Cox Income	520,055	*
Fidelity Balanced	*	639,506
	8,632,362	6,376,546
All other investments representing less than 5% of Plan assets	1,537,742	2,118,597
Total investments at fair value	$ 10,170,104	$ 8,495,143

*Investment is less than 5% of Plan net assets as of date indicated.

NOTE 4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

Since 1998, the Plan has entered into a benefit-responsive guaranteed interest investment contract with Standard. The contract has been included in the net assets available for benefits at contract value, which includes an adjustment from fair value to contract value as the contract has been determined to be fully benefit-responsive. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants are allowed to direct the withdrawal and/or transfer of all or a portion of their investment at contract value.

As of December 31, 2009, the investment contract had no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates for the guaranteed interest account were approximately 3.51% and 3.56%, respectively, for the year ended December 31, 2009. There is no guaranteed rate of return on investments upon future resets; however, the retirement plan committee reviews the investments on a quarterly basis for the fund's performance.

Certain events may limit the ability of the Plan to transact at contract value with Standard. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply.

NOTE 5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs are unadjusted, quoted market prices in active markets for identical assets or liabilities at the measurement date.

Level 2 – Inputs are either directly or indirectly observable for the asset or liability through correlation with related market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 – Inputs are both unobservable and significant to the overall fair value measurement for the asset or liability at the measurement date. These inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for investments measured at fair value at December 31, 2009 and 2008:

Pooled separate accounts: Valued at the separate accounts unit value of shares held by the Plan.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008:

	December 31, 2009			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 5,127,487	$ -	$ 5,127,487

Purchases, sales, issuances and settlements (net)	30,894	(25,477)	5,417
Balance at December 31, 2009	$ 4,500,686	$ 541,931	$ 5,042,617

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants would become 100% vested in their accounts.

NOTE 7. INFORMATION CERTIFIED BY THE CUSTODIAN

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held at December 31, 2009 and 2008, and net realized and unrealized appreciation in fair value of investments and investment income for the year ended December 31, 2009, was obtained from information provided to the Plan sponsor and certified as complete and accurate by Standard, the custodian of the Plan.

NOTE 8. TAX STATUS

The Company has adopted a volume submitter plan and relies upon the volume submitter plan's opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, in which the IRS stated that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The volume submitter plan has been amended since receiving the opinion letter; however, the Plan sponsor believes that the Plan is still designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

NOTE 9. RELATED PARTY TRANSACTIONS

The Company provides administrative services for the Plan at no cost to the Plan. Substantially all of the Plan's operating expenses are paid by the Company. Certain investments are managed by Standard, the custodian of the Plan. These transactions qualify as party-in-interest transactions.

NOTE 10. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.
