The financial statements of the Plan as of and for the year ended December 31, 2011, were audited by other auditors whose report, dated October 2, 2012, did not express an opinion on the 2011 financial statements for the same reasons described in the Basis for Disclaimer of Opinion paragraph. Their report also indicated the form and content of the information included in the 2011 financial statements, other than that derived from the information certified by the custodian was presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter – Supplemental Schedules

The supplemental schedules of assets held for investment purposes and delinquent participant contributions as of December 31, 2012 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. The supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following brief description of the V. Sangiacomo & Sons 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A) General

The Plan is a defined contribution plan that was established in 1987 by V. Sangiacomo & Sons, LP, dba Sangiacomo Family Vineyards, LLP (the Company) to provide benefits to eligible employees, as defined in the Plan document. Effective July 6, 2011, the Plan is also maintained by Sonoma Valley Vineyards, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). During 2011, the Plan was amended to allow employees of Sonoma Valley Vineyards, Inc. to become eligible to enter the Plan.

B) Contributions

Each year participants may contribute a portion of their eligible pre-tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to non-discrimination rules as set forth in IRS code section 401(k). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

During the 2011 plan year, the Company made matching contributions of 100% of each eligible participant's contributions up to a maximum of 3% of the participant's compensation. Effective January 1, 2012 the Plan changed its match to a safe harbor match whereby the Company makes matching contributions of 100% of each eligible participant's contribution up to the first 3% of Plan compensation, plus 50% of the participant's contribution between 3% and 5% of Plan compensation. The Plan also allows for a discretionary profit sharing contribution for those participants employed by the Company on the last day of the Plan year and having 1000 hours of service in that Plan year. There was no discretionary profit sharing contribution for the years ended December 31, 2012 and 2011.

C) Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching and profit sharing contributions, as applicable and, (b) Plan earnings, and is charged with an allocation of administrative expenses. Administrative expenses not paid by the Company are generally allocated based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of credited service. A participant is 100% vested in employer profit sharing contributions after four years of credited service. Participants are always 100% vested in safe harbor contributions.

Note 1 - Description of Plan (Continued)

E) Withdrawals and Payment of Benefits

The Plan includes several sets of provisions for withdrawal or payment of benefits relative to a participant's age and circumstances, in compliance with provisions of the Internal Revenue Code. There are provisions for disability, death, hardship withdrawal, direct rollovers, lump sum benefit payments and delay of payments to retirement date.

F) Forfeited Accounts

Forfeited non-vested accounts may be used to pay Plan expenses, and then to reduce future employer contributions. For the years ended December 31, 2012 and 2011, forfeited non-vested accounts totaled $1,365 and $676, respectively.

Note 2 - Summary of Significant Accounting Policies

A) Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for the collective trust is based on the net asset value of the funds as reported by the plan trustee. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

B) Administration

The Company acts as the Plan Administrator and is responsible for the day to day administration and operation of the Plan. The Company has contracted with State Street Bank and Trust Company (State Street) to act as the custodian and trustee of the Plan, and wit Massachusetts Mutual Life Insurance Company (Mass Mutual) to process and maintain the records of participant data.

C) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

D) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investment bought or sold as well as held during the year.

E) Payment of Benefits

Benefits are recorded when paid.

F) Administrative Expenses

Other than certain recordkeeping fees and Plan audit expenses, substantially all expenses incurred for administering the Plan are paid by the Company.

G) Effects of New Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04).* ASU 2011-04 amended ASC 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 6 for impact of adoption.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Note 3 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note 4 - Information Certified by State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the years then ended, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by State Street Bank and Trust Company, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

	December 31, 2012	December 31, 2011
Investments held by State Street, at fair value:		
Mutual funds	$ 5,485,640	$ 5,067,742
Investments held by State Street, at contract value:		
Common/collective trusts	381,168	303,618
Total assets certified by State Street	$ 5,866,808	$ 5,371,360

State Street Bank and Trust Company also certified to the completeness and accuracy of $631,312 of net appreciation in fair value of investments and $7,068 of interest and dividends for the year ended December 31, 2012, and $303,967 of net depreciation in fair value of investments and $109,991 of interest and dividends for the year ended December 31, 2011.

Note 5 - Investments

The following table presents single investments representing more than 5% of the Plan's net assets as of December 31, 2012 or 2011.

	December 31, 2012	December 31, 2011
Vanguard Target Retirement 2030 Fund	$ 758,785	$ 687,783
Vanguard Target Retirement 2040 Fund	$ 4,009,514	$ 3,659,064
Wells Fargo Stable Value Fund R at contract value (fair value $392,239 and $311,393, respectively)	$ 381,168	$ 303,618

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $631,312 as follows:

Mutual funds	$ 626,577
Common/collective trusts	4,735
	$ 631,312

Note 6 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 6 - Fair Value Measurements (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Shares of registered investment companies are valued at quoted market prices which represent the net asset value ('NAV") of shares held by the Plan at year end.

Common/collective trust - Wells Fargo Stable Value Fund R (the Fund): The Fund invests solely in the Wells Fargo Stable Return Fund G. Units of the Fund are valued at NAV at year end. The NAV is estimated using the fair value of the underlying investment as based on information reported in the audited financial statements of the Wells Fargo Stable Return Fund G.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	December 31, 2012			
	Total Fair Value	**Level 1**	**Level 2**	**Level 3**

Stable value fund	311,393	-	311,393	-
	$ 5,379,135	$ 5,067,742	$ 311,393	$ -

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2012 and 2011.

	December 31, 2012			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trusts:				
Wells Fargo Stable Value Fund R (a)	$ 392,239	$ -	Immediate	None
Total	$ 392,239	$ -		

	December 31, 2011			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trusts:				
Wells Fargo Stable Value Fund R (a)	$ 311,393	$ -	Immediate	None
Total	$ 311,393	$ -		

(a) The Plan invests in the Wells Fargo Stable Value Fund R (the Fund), which invests solely in the Wells Fargo Stable Return Fund G (Fund G), which is a fully benefit-responsive common/collective trust. Fund G's principal objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, Fund G primarily invests in investment contracts, including traditional guaranteed investment contracts (GICs) and security backed contracts issued by insurance companies and other financial institutions. Fund G also invests in the Synthetic Stable Value Fund, which has the same investment objective as the Fund, and Short-Term Investment Fund G, which invests in highly liquid assets.

Note 7 - Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 - Tax Status

The Plan has adopted a prototype plan that has received an opinion letter from the Internal Revenue Service (IRS.) The Company believes that the Plan is operated in accordance with, and qualified under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2009.
