Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Raymours Furniture Company, Inc. 401(k) and Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by J.P. Morgan Retirement Plan Services LLC's (the custodian of the plan from August 12, 2012 through December 31, 2012) and Reliance Trust Company (the trustee of the plan for the period from January 1, 2012 through August 12, 2012 and the year ended December 31, 2011) except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian/trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian/trustee as of December 31, 2012 and 2011 and covering the year ended December 31, 2012, that the information provided to the plan administrator by the custodian/trustee is complete and accurate.

1. Description of Plan

The following description of the Raymours Furniture Company, Inc. 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan has adopted and operates under a Prototype Non-Standardized Cash or Deferred Profit-Sharing Plan.

The Plan is a defined contribution plan covering all employees of the Raymours Furniture Co., Inc. (the Company and Plan Administrator) who have 1,000 hours of service per year and are age nineteen or older at the end of the Plan year. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees who have attained age nineteen and completed 3 months of service are eligible for elective deferrals and matching contributions and those who have completed 6 months of service are eligible for employer discretionary contributions.

Plan Administration

The Plan is administered by Raymours Furniture Company, Inc. which acts as the Plan Sponsor. Reliance Trust Company, EPIC Advisors, and Fidelity served as the record keeper, custodian, and broker, respectively, for the Plan through August 2012, at which time the Company elected to transfer the Plan and utilize J.P. Morgan Retirement Plan Services LLC's as the Plan's sole custodian and record keeper. All participant balances were distributed or transferred to J.P. Morgan Retirement Plan Services LLC's as of August 12, 2012.

Contributions

Each year, participants may contribute up to 60% of their annual wages on a pretax basis, subject to the maximum allowed by the Internal Revenue Service and as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Company will match 50% of an employee's contribution, up to 4% of the employee's annual wages. In addition, the Company may make discretionary profit sharing contributions as determined by the Company's Board of Directors. Discretionary contributions made by the Company amounted to $2,219,372 in 2012.

1. **Description of Plan** (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of (a) the Company's discretionary contribution, (b) plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service and 1,000 hours worked per calendar year. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with the prevailing interest rate of prime, plus 1%, as determined by the Plan Administrator. Principal and interest are paid ratably through weekly payroll deductions.

Investment Options

Participants may direct contributions to selected investments as made available and determined by the Plan Administrator. All contributions are invested in assets as determined by the participant. Participants may change their investment options at their discretion.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive the value of his or her account either as a lump-sum amount or in installments. In service withdrawals are also permitted for certain financial hardships or when a participant attains age 59 ½. Benefits are recorded when paid.

Operating Expenses

As provided by the plan agreement, administrative expenses related to plan investments and recordkeeping are paid by the Plan.

1. **Description of Plan** (continued)

Forfeitures

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $233,070 and $182,430, respectively. These accounts are used to reduce future employer matching and discretionary contributions or the Plan's administrative expense. During 2012, forfeitures of $202,909 were used to reduce employer contributions.

2. **Summary of Significant Accounting Policies**

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

2. **Summary of Accounting Policies** (continued)

Investment Valuation and Income Recognition (continued)

At December 31, 2012 and 2011 the Plan holds a benefit-responsive guaranteed investment contract with J.P. Morgan Retirement Plan Services LLC's ("J.P. Morgan") and Federated Investors Trust Company (Federated), respectively. J.P. Morgan maintains the contributions in a pooled account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract (GIC) is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

Contract value, as reported to the Plan at December 31, 2012 and 2011 by J.P. Morgan and Federated, respectively, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the JCMCB Stable Asset Income Fund investment contract at December 31, 2012 was $10,638,958. The fair value of the Federated Investors Trust Company contract at December 31, 2011 was $9,996,956. The crediting interest rate is based on an agreed-upon formula with the issuer, but it must not be less than zero percent. Such interest rates are reviewed on a monthly or quarterly basis for resetting. Certain events limit the Plan's ability to transact at contract value with the JCMCB Stable Asset Income Fund and Federated. Such events may include, but are not limited to, the following: (1) mergers, mass layoffs, plan termination, (2) implementation of early retirement incentive programs or (3) other events within the control of the Fund or the Plan Sponsor resulting in a material and adverse financial impact on the issuer's obligations under the GIC. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

2. **Summary of Accounting Policies** (continued)

Investment Valuation and Income Recognition (continued)

The guaranteed investment contract does not permit J.P. Morgan to terminate the agreement prior to the scheduled maturity date, unless certain circumstances exist. These circumstances may include, but are not limited to, the following: (1) the guaranteed investment contract loses its qualified status under the Internal Revenue Code or is otherwise terminated; (2) J.P. Morgan fails to meet its material obligations under the GIC, attempts to assign the GIC or engages in fraud or misrepresentation that materially affects the risk profile of the GIC; or (3) if the fixed-income securities underlying the separate account or synthetic GIC fail to meet certain criteria as specified in each GIC. If one of these events were to occur, the issuer could terminate the separate account or synthetic GIC at the market value of the underlying fixed-income securities.

The average yields at December 31, 2012 and 2011 of the JCMCB Stable Asset Income Fund and Federated Capital Preservation Fund, respectively, are as follows:

	2012	2011
Averge yields:		
Based on actual earnings	1.24%	3.17%
Based on interest credited to participants	1.82%	3.03%

Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

Accounting Pronouncements Adopted

In May 2011, the FASB released ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosures Requirements in the U.S. GAAP and IFRS,* (ASU 2011-04 amended ASC 820, *Fair Value Measurement*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 3 for the effect of the adoption.

Accounting Pronouncements not yet effective

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of topics in the Accounting Standards Codification, included plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related for fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material effect on the subsequent periods.

3. **Fair Value Measurements**

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 3 inputs were available to the Plan.

3. **Fair Value Measurements** (continued)

Level 1 Fair Value Measurements

The fair values of mutual funds are based on the closing price reported in the active market where the individual securities are traded, when available.

Level 2 Fair Value Measurements

The fair value of the guaranteed investment contract is determined using an income approach based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like-quality investments, and based upon audited financial statements.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

		Fair Value Measurements at the End of the Reporting Period Using:		
December 31, 2012	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds:

Total assets at fair value	$ 51,350,192	$ 41,353,236	$ 9,996,956	$ -

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2012, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2012, there were no significant transfers into or out of Level 3.

The following table sets forth additional disclosures of the Plan's Level 2 investments whose fair value is estimated using the net asset value per share (or its equivalent) as of December 31, 2012 and 2011.

	Fair Value Estimated Using Net Asset Value Per Share December 31, 2012				
Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period

5. Information Certified by Trustee

The following is a summary of the Plan's asset information as of December 31, 2012 and for the period from August 12, 2012 through December 31, 2012 has been provided by J.P. Morgan, the custodian of the Plan, and as of December 31, 2011 and for the period from January 1, 2012 through August 12, 2012 from Reliance Trust Company, the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the custodian/trustee that information provided to the Plan Administrator by the custodian and trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31, 2012	December 31, 2011
Investments (at fair falue):		
Mutual funds	$ 52,048,822	$ 41,353,236
Guaranteed investment contract	10,832,836	9,996,956
	$ 62,881,658	$ 51,350,192

The custodian/trustee also certified to the completeness and accuracy of interest and dividends and net appreciation in fair value of investments for the year ended December 31, 2012 of approximately $1,163,000 and $4,795,000, respectively, as well as all items and amounts included within the supplemental schedule and Notes 3, 4, and 5.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

7. Related Party Transactions

J.P. Morgan and Reliance Trust Company are the custodian and the trustee as defined by the Plan, respectively, and therefore, administrative fees paid by the Plan qualify as party-in-interest transactions. Administrative fees paid by the Plan were approximately $81,000 for the year ended December 31, 2012.

8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

9. Reconciliation to Form 5500

The statement of changes in net assets in the financial statements is prepared on the contract value basis, as discussed in Note 2. The income and expense statement on the Form 5500 was prepared on the current or fair value basis for the year ended December 31, 2012 and on the contract basis for the year ended December 31, 2011. The following is a reconciliation of the net income per the Form 5500 to the change in net assets per the statement of changes in net assets:

Net income per Form 5500	$ 12,187,246
Adjustment from fair value to contract value for fully benefit - responive investment contract	(193,879)
Net increase in net assets available for benefits per financial statements	$ 11,993,367

10. Date of Management's Review

Subsequent events were evaluated through October 8, 2013, which is the date the financial statements were available to be issued.
