VIVA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

NOTE A. DESCRIPTION OF PLAN

The following description of the Viva USA, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1) General

The Plan is a defined contribution plan covering all eligible employees of Viva USA, Inc. 401(k) Plan (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2) Contributions

Participants may elect to contribute pre-tax earnings up to current Internal Revenue Service (“IRS”) regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. All employees, except members of a collective bargaining unit or non-resident aliens, are eligible to participate in the Plan upon completion of 1,000 hours of service with the Company within a twelve month period. Eligible employees can enter the Plan on the earlier of January 1st or the first day of the next successive three month periods, coincident with or next following satisfaction of the eligibility requirements. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may elect to contribute a discretionary matching contribution to the Plan. The discretionary matching contribution is allocated to participants’ accounts that have completed 1,000 hours of service with the Company or were actively employed on the last day of the Plan year. The Company did not elect to make a discretionary matching contribution for the year ended December 31, 2009. The Company may also contribute a discretionary profit sharing contribution. This amount is allocated to participants’ accounts that have completed 1,000 hours of service with the Company or were actively employed on the last day of the Plan year. The Company did not elect to make a discretionary profit sharing contribution for the year ended December 31, 2009. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Effective January 1, 2009, the Plan was amended to changing the eligibility requirements to 1,000 hours of service within a twelve month period. The Plan was amended and restated effective January 1, 2010 to provide for the provisions of the Economic Growth and Tax Relief Reconciliation Act.

3) Participant Accounts

Each participant’s account is credited with the participant’s elective contribution and allocations of: a) the Company’s discretionary matching contribution (if applicable), b) the Company’s discretionary profit sharing contribution (if applicable), c) investment earnings, and d) administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is what can be provided from the participant’s vested account.

NOTE A. DESCRIPTION OF PLAN (Continued)

4) Vesting

Participants are vested immediately in their deferral contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portions of their account are based on years of service. A year of service is attained after completion of 1,000 hours of service during a twelve month period.

Upon termination of employment for reasons other than by death, disability, or retirement, participants will receive the amount of their participant account valued at its fair market value and shall vest according to the following schedule based upon years of service:

Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

Upon termination of employment by reason of death, disability, or retirement, the balance in the participant's account will become fully vested.

5) Payment of Benefits

On termination of service due to death, disability, or retirement a participant or his beneficiary may elect to receive a single lump-sum payment equal to the value of the participant's vested interest.

6) Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $6,364 and $3,984, respectively. These accounts may be used to reduce administrative expenses and then to reduce employer contributions. Also, in 2009, no administrative expenses or employer contributions were reduced from forfeited nonvested accounts.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1) Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with generally accepted accounting principles.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the Plan's investments as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

2) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

3) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4) Payment of Benefits

Benefit obligations are recorded when paid.

5) Administration of Plan

The Company absorbs significant costs of the Plan administration by paying expenses directly.

NOTE C. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and all assets will be liquidated and paid to participants.

NOTE D. TAX STATUS

The Plan is a non-standardized prototype plan sponsored by Datair Employee Benefit Systems Inc that has been adopted by the Company. The prototype plan obtained its latest opinion letter on September 18, 2001, by which the Internal Revenue Service has determined and informed the Company that the Plan and related trust, as then designed, were designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE E. INVESTMENTS

At December 31, 2009 and 2008, the assets of the Plan were held by ING Life Insurance and Annuity Company, the custodian. All investment information, including investment assets, transactions, and income and the schedules of investments and reportable transactions, has been certified by the Plan custodian.

NOTE E. INVESTMENTS:(Continued)

	December 31, 2009

Unallocated insurance contracts – adjustment contract	11,542
	$ 102,655

NOTE F. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Unallocated insurance contract: Valued at fair value by discounting the related cash flows on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

NOTE F. FAIR VALUE MEASUREMENTS:(Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Assets, at Fair Value, as of December 31, 2009

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 0	$ 422,852	$ 0	$ 422,852
Unallocated insurance contracts	0	0	160,890	160,890
Total assets, at fair value	$ 0	$ 422,852	$ 160,890	$ 583,742

Assets, at Fair Value, as of December 31, 2008

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 0	$ 278,398	$ 0	$ 278,398
Unallocated insurance contracts	0	0	176,307	176,307
Total assets, at fair value	$ 0	$ 278,398	$ 176,307	$ 454,705

Level 3 Gains and Losses: the following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

Level 3 Assets: Gains and Losses for the year ended December 31, 2009

	Unallocated insurance contracts
Balance, beginning of year	$ 176,307
Realized gains/(losses)	0
Unrealized gains/(losses)	(11,542)
Purchases and sales - net	(3,875)
Balance, end of year	$ 160,890

NOTE G. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a benefit-responsive investment contract with ING Life Insurance and Annuity Company Contract Fixed Account Investment Fund. The investment maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the investment custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 3% for 2009 and 2008. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), 2) change's to the Plan's prohibition on competing investment options or delegation of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administer does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
