1. DESCRIPTION OF PLAN

The following description of the Searcy, Denney, Scarola, Barnhart & Shipley, P.A. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan covering all employees of Searcy, Denney, Scarola, Barnhart & Shipley, P.A. (the "Employer") who have attained the age of twenty-one and provided 1,000 hours of service and one year of employment with the Employer. The Plan was established on September 1, 1985 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Employer is the designated administrator of the Plan.

Contributions

Contributions to the Plan are made by the participants. Participants may elect to defer their annual compensation, as defined by the Plan and consistent with the Internal Revenue Service guidelines. Additionally, participants may rollover or transfer to the Plan any portion or all of the property received from another qualified employee benefit trust (rollover contribution).

In addition, the Employer may make a matching and/or discretionary contribution, at the option of the Employer's Board of Directors. This contribution is determined each year by the Employer and is based on the amount of each participant's elective deferral for the Plan year. Any participant who makes an elective deferral contribution and is credited with at least 1,000 hours of service during the Plan year will be eligible to receive an employer matching contribution. The employer contributions for the years ended December 31, 2012 and 2011 were $1,720,675 and $1,554,394, respectively.

Participant Accounts

Each participant has a separate account to receive each type of contribution. These accounts include, if applicable, an Employer contribution account, a matching contribution account, a rollover account and a salary reduction account. Each participant's account is credited with the participant's contribution, an allocation of the Employer's contribution and the Plan's earnings. Allocations of earnings are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeitures may be used to reduce future Employer contributions to the Plan. Forfeitures for the years ended December 31, 2012 and 2011 were $22,139 and $13,602, respectively.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of $50,000 or 50% of their vested account balance. The notes receivable are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.75%, which commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through regular payroll deductions. Notes receivable from participants amounted to $210,532 and $143,226 at December 31, 2012 and 2011, respectively.

1. DESCRIPTION OF PLAN (CONTINUED)

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into any of several investment options including registered investment companies. Participants may change their investment options at their discretion.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or receive annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Tax Status

The Plan adopted its latest Prototype Non-standardized Profit Sharing Plan with a cash or deferral arrangement effective March 31, 2008, which obtained a favorable Internal Revenue Service ("IRS") determination letter on March 31, 2008 in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the Internal Revenue Code ("Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan agreement allows for all administrative expenses to be paid by either the Employer or the Plan. For the years ended December 31, 2012 and 2011 administrative expenses of $1,743 and $1,476, respectively, were paid by the Plan. Audit fees are paid directly by the Employer.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Adoption of Accounting Pronouncements

Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs

In May 2011, the Financial Accounting Standards Board ("FASB") issued an accounting standard update which works to achieve common fair value measurement and disclosure requirements in US GAAP and International Financial Reporting Standards. The update both clarifies the FASB's intent about the application of existing fair value guidance, and also changes certain principles regarding measurement and disclosure. The update is effective prospectively and is effective for annual periods beginning after December 15, 2011. Early application is permitted for interim periods beginning after December 15, 2011. The adoption of the update did not have a material effect on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2013, which is the date the financial statements were available to be issued.

3. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a group annuity investment contract with John Hancock, which receives the contributions and deposits them into either guaranteed interest accounts or into pooled separate investment accounts according to the participant's election.

John Hancock pooled separate investment accounts are reported at fair value. John Hancock guaranteed interest accounts are reported at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Contributions allocated to the guaranteed interest accounts are held in the John Hancock general account. Guaranteed interest accounts guarantee the return of principal plus interest earned over a defined 3, 5, or 10 year term – provided all contributions remain in the account until the end of the guarantee period. The Plan's group annuity contract with John Hancock is not "fully benefit-responsive." Therefore, for financial statement purposes, this contract must be carried at fair value. The contract is included in the financial statements at contract value, which approximates fair value, as reported by John Hancock.

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian, John Hancock, as of December 31, 2012 and 2011 has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

5. INVESTMENTS

The values of investments that represent 5% or more of the Plan's net assets as of December 31, 2012 and 2011 are as follows:

6. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification ("ASC") , *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

6. FAIR VALUE MEASUREMENTS (CONTINUED)

Pooled separate investment accounts: Valued at fair value. Fair value of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund and held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by John Hancock from which it earns management fees. John Hancock is the custodian as defined in the Plan and therefore, these transactions qualify as party-in-interest.
