1. DESCRIPTION OF PLAN

The following description of The Royal Group 401(k) Plan (the "Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the Plan document.

General
The Plan is a 401(k) profit-sharing plan covering eligible employees of r-pac International Corp. and its affiliates: The Royal Promotion Group, Inc.; Royal Woven Label, Inc.; and The Royal My-Jo Group, Inc. d/b/a Royal Graphics (collectively, the "Companies"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility
Employees of the Companies are eligible to participate in the Plan upon meeting all of the following requirements:

- Attaining 21 years of age; and
- Completing three months of service.

Contributions
Participants may direct the Companies to deposit a percentage, ranging from 1% to 25%, of their annual compensation directly into their Plan accounts on a before-tax basis. The amount deferred in any calendar year may not exceed the limits under Internal Revenue Code ("IRC") Sections 401(k), 404 and 415. The Companies may contribute a discretionary match as its board of directors deems appropriate. There were no employer contributions in 2012.

Participants' Accounts
Each participant's account is credited with the participant's contribution, Plan earnings, the Companies' discretionary contribution, if any, and forfeitures of terminated participants' non-vested accounts.

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants elect from several investment vehicles offered by the Plan to which contributions on their behalf are directed.

Notes Receivable from Participants
Participants may obtain loans against the value of their accounts. The maximum amount of the loan cannot exceed the lesser of a) $50,000 or b) 50% of the participant's vested account balance. The funds required to satisfy a loan request are withdrawn on a pro-rata basis from the participant's account in the various investment funds.

The loans generally must be fully repaid within five years. Loans for a primary residence must be repaid within 30 years. Interest and principal repayments are credited directly to the borrower's respective account and are repaid in monthly installments by payroll deductions. Interest applicable to loans is 2% above the prime rate at the date the loan is approved.

If a participant fails to make a payment when the loans are due under the terms of the loan, that participant will be in default. In the event of a default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be

considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

Vesting
Participants are immediately vested in their voluntary contributions and the Companies contributions plus actual earnings thereon.

Participant Distributions
On termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the vested interest in his or her account.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recently Adopted Accounting Pronouncements
In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS") ("ASU 2011-04").* ASU 2011-04 amends FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, providing a consistent definition and measurement of fair value, as well as similar disclosure requirements between GAAP and IFRS. ASU 2011-04 changes certain fair value measurement principles, clarifies the application of existing fair value measurement and expands the FASB ASC 820 disclosure requirements, particularly for Level 3 fair value measurements. The Plan adopted ASU 2011-04 as of January 1, 2012. The adoption of ASU 2011-04 did not have a material effect on the Plan's financial statements.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the exdividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Other

Substantially all administrative expenses are paid by the Companies.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Companies have evaluated subsequent events through October 3, 2013, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan provides for various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. PLAN TERMINATION

Although they have not expressed any intention to do so, the Companies reserve the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their account.

5. TAX STATUS

The Plan uses a prototype plan document sponsored by Automatic Data Processing Retirement Services, Inc. ("ADP"). ADP received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which states that the prototype document satisfied the applicable provisions of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. Although the Plan has been amended since the third party administrator received the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes that the Plan is no longer subject to income tax examinations by taxing authorities for years prior to 2009.

The Plan administrator has obtained certifications from the custodian that such information is complete and accurate.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investment options consist of units of common/collective trusts managed by the custodian. Accordingly, these transactions qualify as party-in-interest transactions.

9. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2012 and 2011:

During the years ended December 31, 2012 and 2011, there were no transfers between levels of the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

Common/Collective Trusts: are valued using a net asset value ("NAV"). The NAV of a common/collective trust is based on the market values of the underlying securities in an active market. The beneficial interest of each participant is represented in units. Units are issued and redeemed daily at the fund's closing NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net Asset Value per Share

The following tables set forth a summary of the Plan's investments with a reported NAV per share at December 31, 2012 and 2011:

Total	$ 1,270,028	$ -			

* Total risk-based funds - $246,839

The fair values of the investments have been estimated using the NAV of the investments:

(a) The SSGA Cash Series U.S. Government Fund seeks to maximize current income, to the extent consistent with the preservation of capital and liquidity and the maintenance of a stable $1.00 per share, NAV, by investing in U.S. government securities and in repurchase agreements collateralized by U.S. government securities. The fund is not a "money market fund" registered with the Securities and Exchange Commission, and is not subject to the various rules and limitations that apply to such funds.

(b) The SSGA S&P Mid Cap Index Fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P Mid Cap 400 Index over the long term. The fund is managed using a "passive" or "indexing" investment approach, by which SSGA attempts to match to the performance of the index.

(c) The SSGA Conservative Strategic Balanced Fund seeks to approximate as closely as practicable, before expenses, the return of the Conservative Strategic Balanced Custom Index, over the long term. The fund seeks to offer a broad diversification and a disciplined rebalancing process by investing approximately 75% in the Barclays U.S. Aggregate Bond Index, 15% in the S&P 500, 5% in the Russell Small Cap Completeness Index and 5% in the MSCI EAFE Index.

9. FAIR VALUE MEASUREMENTS (CONTINUED)

(d) The SSGA Moderate Strategic Balanced Fund seeks to approximate as closely as practicable, before expenses, the return of the Moderate Strategic Balanced Custom Index over the long term. The fund seeks to offer a broad diversification and a disciplined rebalancing process by investing approximately 45% in the Barclays U.S. Aggregate Bond Index, 35% in the S&P 500, 10% in the Russell Small Cap Completeness Index and 10% in the MSCI EAFE Index.

(e) The SSGA Russell Small Cap Index Fund seeks to match, before fees and expenses, the performance of the Russell 2000 Index, which seeks to remain an accurate measure of small-cap U.S. companies. The fund invests primarily in common stocks of companies that make up the Russell 2000 Index, in approximately the same weightings as the Index.

(f) The SSGA S&P 500 Index Fund seeks to match, before fees and expenses, the performance of the S&P 500 Index, which emphasizes stocks of large U.S. companies. The fund invests primarily in common stocks of companies that make up the S&P 500 Index, in approximately the same weightings as the Index.

(g) The SSGA Aggressive Strategic Balanced Fund seeks to approximate as closely as practicable, before expenses, the return of the Aggressive Strategic Balanced Custom Index over the long term. SSGA allocates the fund's assets among the asset classes represented in the fund's benchmark, rebalancing the Fund's exposures monthly. SSGA implements the fund's asset allocations through investments in passive investment vehicles, which typically attempt to replicate the returns of a specific index or group of indices.

(h) The SSGA Life Solutions Balanced Growth Fund seeks to provide capital appreciation and some income for stability. The funds will seek to closely match a composite benchmark and maintain a level of volatility which approximates that of the benchmark returns.

(i) The SSGA Life Solutions Growth Fund seeks long-term growth of capital. The fund typically invests the majority of its assets in underlying funds that invest principally in equity securities, including international equities.

(j) The SSGA Life Solutions Income & Growth Fund seeks income, and secondarily, long-term growth of capital. The fund typically invests in underlying equity funds, bond funds, and money market assets.

(k) The SSGA S&P 400 Midcap Index Fund seeks to match, before fees and expenses, the performance of the S&P MidCap 400 Index, which seeks to remain an accurate measure of mid-sized companies. The fund invests primarily in common stocks of companies that make up the S&P Mid Cap 400 Index, in approximately the same weightings as the index.

10. EXCESS CONTRIBUTIONS PAYABLE

At December 31, 2012 and 2011, liabilities of $57,991 and $41,033, respectively, are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the IRS.
