TH Foods, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the TH Foods, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees, except for union employees, leased employees, non-resident aliens, and employees considered to be temporary management, trainee, advisors or consultants of the Company who have completed 30 days of service. The Plan is subject to the provisions of ERISA.

Contributions: Eligible employees of the Company may make voluntary tax-deferred contributions, subject to Internal Revenue Code limitations, as defined in the Plan. Eligible employees hired after November 1, 2010, are subject to automatic enrollment whereby the employer will withhold 3% of the participant's compensation unless the eligible employee elects a different percentage. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company will make safe harbor matching contributions in addition to annually determining a discretionary matching contribution percentage, if any. The Company made a safe harbor matching contribution equal to 100% of deferrals based on 3% of the participant's compensation, plus 50% of deferrals based on the next 2% of the participant's compensation. Participants are eligible to receive matching contributions after completing six months of service. The Company did not make a discretionary matching contribution in 2012. The Company may also make discretionary profit sharing contributions to the Plan as determined by the Company's Board of Directors. Contribution amounts are allocated based on compensation as defined in the plan agreement. The Company did not make a discretionary profit sharing contribution in 2012.

Participant accounts: Each participant's account is credited with the participant's voluntary tax deferred contributions and allocations of (a) the Company's safe harbor matching contribution, (b) plan earnings, and (c) the Company's discretionary contributions. Allocations are based on account balances or compensation as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions, rollover contributions, and employer matching contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested in employer discretionary profit sharing contributions after five years.

Investment options: Participants must direct contributions into selected investments as made available and determined by the plan administrator. Participants have the option to transfer monies between funds and change the allocation of their investment options daily.

Payment of benefits: On termination of service for any reason, participants may receive a lump-sum amount equal to the value of their vested account. Absent an election by the participant, terminated participants with a vested account balance of $5,000 or less will receive an automatic lump-sum distribution.

Note 1. Description of Plan (Continued)

Notes receivable from participants: The Plan allows active participants to obtain notes secured by their respective vested account balance. The minimum note amount is $1,000 and the maximum is the lesser of $50,000 or one-half of the participant's vested account balance. Note terms are not to exceed five years unless the note is for the purchase of a primary residence and then may be repaid over a reasonable period of time exceeding five years. Participants may only have one note outstanding at a time. The interest rates on the notes range from 4.75% to 9.75%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Forfeited accounts: At December 31, 2012 and 2011, forfeited nonvested accounts totaled approximately $410 and $180, respectively. These accounts are used to reduce future employer contributions. There was no amount of forfeited nonvested accounts used to reduce employer contributions in 2012.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodians. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and which such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are recorded as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: The Company pays all significant administrative expenses.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 11, 2013 the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by DWS Trust Company, the Plan Trustee

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate to the best of their knowledge and belief. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and the supplemental schedule related to the following assets:

	December 31,	
	2012	2011
Investments at fair value:		
Shares of registered investment companies	$ 6,810,118	$ 5,232,744
Notes receivable from participants	109,740	72,721

DWS Trust Company also certified to the completeness and accuracy of $429,903 of net appreciation in fair value of investments and $187,615 of interest and dividends related to the aforementioned plan assets for the year ended December 31, 2012.

The following table presents investments that represent five percent or more of the Plan's net assets at December 31:

	2012	2011
Investments at fair value as determined by quoted market price:		
Shares of Registered Investment Companies:		
DWS Investments US Treasury Money Fund	$ 1,414,215	$ 1,044,408

DWS Investments S&P 500 Index Fund - S	1,135,840	958,438

Managers Cadence Mid Cap Fund - Inv	579,364	-
Managers Cadence Mid Cap Fund - R	*	500,343

*Did not represent greater than five percent or more of Plan's net assets.

Note 4. Related-Party Transactions

Certain plan investments are shares of registered investment companies managed by an affiliated company of DWS Trust Company. DWS Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee were approximately $1,000 for the year ended December 31, 2012.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.

Note 5. Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 6. Income Tax Status

The Plan adopted a volume submitter 401(k) profit sharing plan sponsored by RSM McGladrey, Inc. During 2011, the retirement administration services of RSM McGladrey, Inc. were sold to Verisight, Inc. and the volume submitter plan became supported by Verisight, Inc. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan has been amended since the volume submitter plan received the opinion letter. However, the plan administrator believes the Plan is designed and currently being operated in compliance with applicable provisions of the Internal Revenue Code.

Management evaluated the Plan’s tax positions in accordance with the Financial Accounting Standards Board (FASB) guidance on accounting for uncertainty in income taxes and concluded that the Plan had maintained its exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal, state or local tax authorities for years before 2009.

Note 7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under the FASB Accounting Standards Codification are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Shares of registered investment companies: Shares of registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no transfers in or out of Level 3.
