CHICAGO DRYER COMPANY
RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN

The following description of the Chicago Dryer Company Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have attained age eighteen (18) and shall become a participant on the first of January and the first of July on or after the ninety (90) day anniversary of his or her employment. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). As of July 1, 2004 the Plan includes a qualified cash or deferred arrangement as described in Code Section 401(k).

Contributions. Each year, participants may contribute up to 12 percent of pretax annual compensation, as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan. The Company contributes 3.5 percent of employee compensation to the plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors.

Participant Accounts. Each participant's account is credited with the participant's contribution and an allocation of the (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are fully vested in their account balances.

Participant loans. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50% of their account balance whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate of prime published by the Wall Street Journal determined in the month the loan is made. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. SUMMARY OF SIGNIFICANT ACOCUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation And Income Recognition

The Plan's collective investment fund is stated at fair value and the Plan's mutual funds are valued at the net asset value of shares held by the Plan at year end. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation included the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

	Fair value 12/31/09 (Level 1)	Fair value 12/31/08 (Level 1)
Mutual funds	$3,288,369	$2,376,363
Collective investments	1,345,822	1,222,583
	$4,634,191	$3,598,946

FASB Statement No. 157, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The plan measures fair value using Level 1 inputs.

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

4. INVESTMENTS
