Lancaster-Burns Construction, Inc. 401(k) Profit Sharing Plan
Roseville, California

Report on the Financial Statements
We have audited the accompanying financial statements of Lancaster-Burns Construction, Inc. 401(k) Profit Sharing Plan, which comprise the statement of net assets available for benefits as of December 31, 2012, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Lancaster-Burns Construction, Inc. 401(k) Profit Sharing Plan as of December 31, 2012, and the change in its net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 1: DESCRIPTION OF PLAN

The following description of Lancaster-Burns Construction, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only summarized general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2012 to provide benefits for eligible employees and their beneficiaries of Lancaster-Burns Construction, Inc. (the "Plan Sponsor"). The Plan is a defined contribution plan covering all employees as there are no age or service requirements for eligibility. The Plan is designed to comply with Section 401(k) of the Internal Revenue Code (the "Code") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Two employees of the Plan Sponsor serve as the trustees to the Plan.

Plan Year

The Plan year begins January 1 and ends December 31.

Contributions

The Plan allows for the following types of contributions:

Elective Salary Deferrals

The Plan includes an elective salary deferral arrangement pursuant to Section 401(k) of the Internal Revenue Code. Employees may voluntarily contribute a percentage of their regular wages subject to various nondiscrimination tests and limitations prescribed by the Code. Employee salary deferrals include pre-tax elective deferrals, catch up contributions, and Roth after-tax elective deferrals.

Employee Rollover Contributions

Participants may make rollover contributions from another qualified plan.

Employer Matching Contributions

The Plan Sponsor may make a matching contribution based on a discretionary percentage allocated to participants as determined by the Plan Sponsor. The Plan Sponsor elected not to make matching contributions to the Plan in 2012.

Employer Non-Elective Contributions

The Plan Sponsor may make discretionary non-elective contributions to the Plan. Non-elective contributions are allocated to eligible participants based on an integrated formula which is equal to 80% of the social security wage base in effect as of the first day of the Plan year plus $1.00. Participants must be credited with 1,000 hours of service during the Plan year and be employed with the Plan Sponsor on the last day of the Plan year in order to receive an allocation of non-elective contributions. The Plan Sponsor elected not to make a non-elective contribution in 2012.

Employer Qualified Non-Elective Contributions – Prevailing Wage

The Plan Sponsor will make a prevailing wage contribution pursuant to the Davis Bacon Act and the California Labor Code. Prevailing wage contributions are allocated to participants according to the applicable prevailing wage schedule determined by the Department of Industrial Relations. The Plan Sponsor made qualified non-elective contributions of $422,073 in 2012.

NOTE 1: **DESCRIPTION OF PLAN (Continued)**

Allocations
The Plan provides various investment fund options and allows participants to direct their investments. Investment earnings and losses are allocated to participants' accounts based on the actual earnings or losses of the investments selected.

Vesting
Participants are 100% vested in their elective salary deferral, rollover contributions, and qualified non-elective prevailing wage contributions. Participants vest in their employer discretionary matching and non-elective contributions at a rate of 20% per year, beginning at the end of the second year, and are 100% vested after six years of credit.

Forfeitures
Any forfeitures occurring during a Plan year will be first used to reduce administrative expenses and then to reduce employer matching and non-elective contributions. At December 31, 2012, the forfeiture balance was $4,921 and no forfeitures were used to reduce administrative expenses or employer contributions.

Retirement
Normal retirement under the Plan is age sixty-five (65).

Payment of Benefits
Payment of benefits may be made at the following times under the Plan: 1) normal retirement; 2) termination of employment of the participant; 3) upon demonstration of financial hardship; 4) death or disability of the participant. In-service distributions are permitted in the Plan after attaining age 59 1/2.

Benefit payments are made in a single-lump sum.

Administrative Expenses
Administrative expenses are paid by the Plan and the Plan Sponsor at the discretion of the Plan Sponsor. Expenses related to specific participant transactions are charged to the respective participant's account.

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the balance of any preexisting outstanding loan and the highest loan balance during the past 12 month period or 50% of the vested account balance reduced by any preexisting outstanding loan. The loans are secured by the vested balance in the participant's account and bear interest at prime plus 1%.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting
The financial statements of the Plan are maintained on the accrual basis of accounting and generally accepted accounting principles in the United States (US GAAP).

Investment Valuation and Income Recognition
Investments in mutual funds and the collective investment trust are stated at fair market value using quoted market prices when available. The money market account is valued at stated carrying values which approximates market value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Increases in the unit values of investments are reflected in each participant's self directed account. Investments are valued daily.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012. If a participant ceases to make loan payments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits to participants are recorded when paid.

Income Taxes

The plan is in the process of applying for a determination letter. Although the Plan has not received the determination letter, Plan management believes that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the Code and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has determined that as of December 31, 2012 there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine examinations by taxing authorities; however there are currently no examinations in progress.

Estimates and Assumptions

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3: **PLAN TERMINATION**

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 4: **INVESTMENTS**

At December 31, 2012, investments which represented 5% or more of net assets available for benefits are as follows:

	2012
Morley Stable Value Fund II - Collective Investment Trust	$ 1,922,760

NOTE 4: **INVESTMENTS (Continued)**

The Plans investments, including gains and losses on investments bought and sold as well as held during the Plan year, appreciated in value as follows.

	2012
Mutual funds	$ 26,059
Collective investment trust	14,291
	$ 40,350

NOTE 5: **FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board (FASB) ASC 820 provides a framework for measuring fair value. That framework provides a three-tier hierarchy that prioritizes the inputs to valuation techniques used for measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs are unadjusted quoted prices for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, model-based valuation techniques for which all significant assumptions are observable in the market, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs that are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Account: Underlying short term investments with quoted prices in active markets to preserve the value of the investment at $1.00 per share.

Collective Investment Trust: Individual assets of the synthetic investment contracts are generally valued as follows: fixed income securities, and futures and options are valued at fair value based on market values obtained from independent pricing services, quotes by dealers who are market makers in these securities, or by a methodology approved by the Trustees. Commercial paper and other investments with less than 60 days to maturity when purchased are valued at amortized cost, which approximates fair value. Investments in regulated investment companies or collective investment trusts are valued at the net asset value per share on valuation date. Accrued interest on underlying investments is added to the fair value of the investment for presentation purposes. The fair value of wrap contracts is determined using the market approach discounting methodology which incorporates the difference between current market level rates for contract level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated yield curve as of yearend. These investments are not exchanged traded.

NOTE 5: **FAIR VALUE MEASUREMENTS (Continued)**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total

NOTE 6: **INVESTMENT CONTRACTS - COLLECTIVE INVESTMENT TRUST**

The Plan's collective investment trust is a separately managed account within the Plan's trust managed by Union Bond and Trust Company. The Plan's investment policy allows the trust to invest in global wraps. Global wrap contracts operate similarly to guaranteed investment contracts (GICs), except that the Plan purchases government-backed, asset-backed, mortgage-backed, or corporate bonds, which are held in the Plan's trust. To enable the Plan to realize a specific known value for the assets, of it needs to liquidate them to make benefit payments, global wrap contracts utilize a benefit-responsive "wrapper" contract with a third-party insurance carrier that provides market and cash flow risk protection to the Plan. The "wrapper" contract enables the Plan to execute participant transactions without regard to the appreciation or depreciation in the day-to-day value of the underlying assets.

The effective yield on these contracts represents the crediting rate, less the "wrapper" fee paid to the insurance carrier. Global wraps do not expire as assets are sold or mature, instead the wrap remains intact and the maturity of the contract is open-ended. The underlying investments are valued at quoted redemption values on the last business day of the Plan's year-end. The fair value of the collective investment trust equals the total of the fair value of the underlying assets plus the total wrap rebid value. Net assets are adjusted to contract value, which represents the contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Wrap contracts accrue interest using a formula called the "crediting rate." Wrap contracts use the crediting rate formula to convert market value changes in the covered assets into income distributions in order to minimize the difference between the market and contract value of the covered assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the fund's current market value at the fund's current yield to maturity for a period equal to the fund's duration. The crediting rate is the discount rate that equates the estimated future market value with the fund's current contract value. Crediting rates are reset quarterly. The wrap contracts provide a guarantee that the crediting rate will not fall below 0%.

NOTE 6: **INVESTMENT CONTRACTS- COLLECTIVE INVESTMENT TRUST (Continued)**

The crediting rate, and hence the fund's return, may be affected by many factors, including purchases and redemptions by participants. The precise impact on the fund depends on whether the market value of the covered assets is higher or lower than the contract value of those assets. If the market value of the covered assets is higher than their contract value, the crediting rate will ordinarily be higher than the yield of the covered assets. Under these circumstances, cash flow from new investors will tend to lower the crediting rate and fund's return, and redemption by participants will tend to increase the crediting rate and the fund's return.

If the fund experiences significant redemptions when the market value is below the contract value, the fund's yield may by reduced significantly, to a level that is not competitive with other investment options. This may result in additional redemptions, which would tend to lower the crediting rate further. If redemptions have insufficient assets to meet redemption requests, at which point the fund would require payments from the wrap issuer to pay further shareholder redemptions.

The average yield on the Plan's global wrap contracts was 1.56% for all contract issuers in 2012.

The stable value fund and the wrap contracts purchased by the fund are designed to pay all participant-initiated transactions at contract value. Participant-initiated transactions are those transactions allowed by the Plan (typically this would include withdrawals for benefits, loans, or transfers to non-competing funds within the Plan). However, the wrap contracts limit the ability of the fund to transact at contract value upon the occurrence of certain events. These events include:

- The Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code.
- The establishment of a defined contribution plan that competes with the plan for employee contributions.
- Any substantive modifications of the Plan or the administration of the Plan that is not consented to by the wrap issuer.
- Complete or partial termination of the Plan.
- Any change in law, regulation, or administrative ruling applicable to the Plan that could have a material adverse effect on the fund's cash flow.
- Merger or consolidation of the Plan with another plan, the transfer of Plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor.
- Any communication given to participants by the Plan sponsor or any other Plan fiduciary that is designed to induce or influence participants not to invest in the fund or to transfer assets out of the fund.
- Exclusion of a group of previously eligible employees from eligibility in the Plan.
- Any early retirement program, group termination, group layoff, facility closing, or similar program.
- Any transfer of assets from the fund directly to competing option.

At this time, management does not consider the occurrence of these events to be probable.

NOTE 7: **RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

The following is a reconciliation of benefits paid to participants, per the financial statements, to Form 5500:

	2012
Benefits paid to participants as reported	$ 179,144
Benefit claims payable per Form 5500	(2,730)
Benefits paid to participants per Form 5500	$ 181,874

	2012
Net assets as reported	$ 2,875,136
Benefit claims payable per Form 5500	(2,730)
Net assets per Form 5500	$ 2,872,406

NOTE 8: **RISK AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9: **RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS**

Certain Plan investments such as mutual funds and the money market account are managed by Fidelity. Fidelity is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are recorded in net appreciation in fair value of investments. Notes receivable from participants are considered party-in-interest transactions. These investments and transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

NOTE 10: **PLAN TRANSFERS**

Investments and participant loans were transferred into the Plan from the Capital Region Financial Group 401(k) and Profit Sharing Plan, a multiemployer plan that the Plan Sponsor previously participated in.

NOTE 11: **SUBSEQUENT EVENTS**

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 2, 2013, the date the financial statements were available to be issued, and management has determined that no subsequent events have occurred that should be disclosed.
