CROWNE PLAZA FOSTER CITY 401(K) PLAN
PLAN 001
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

1. DESCRIPTION OF PLAN

The following description of the Crowne Plaza Foster City 401(K) Plan, Plan 001 provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan Sponsor is Crowne Plaza Foster City.

General:

The Plan is a voluntary defined contribution plan qualifying under Section 401(K) of the Internal Revenue Code of 1986. It covers substantially all U.S. employees of the company. Employees may enter the Plan upon completion of one year of service and attainment of age 21. Entry dates are the first day of the Plan year, the first day of the fourth month of the Plan year, the first day of the seventh month of the Plan year, and the first day of the tenth month of the Plan year following the date the employee meets the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a single employer plan. The Plan was amended January 1, 2011 as a result of changing service providers. The provisions remain essentially the same.

Contributions:

Participant contributions are made through payroll deduction. Participants may contribute up to the maximum allowed according to §402(g) of the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Discretionary matching contributions are provided for in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers investment in a pooled separate account as well as a fixed income account.

Participant Accounts:

Each participant's account is credited with the participant and the Company's contributions and an allocation of Plan earnings. Investment income (loss) is allocated to each participant's account according to the number of units held. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately 100% vested in their elective deferrals, plus actual earnings thereon. Vesting in the Company's contribution plus actual earnings thereon is based on years of service. An employee must complete 1,000 hours of service during a plan year to receive credit for a year of service. Employees who die or are disabled are 100% vested. A participant is 100% vested after six years of credited service. The vesting schedule is determined as follows:

Years Of Service	Vesting Percentage
Less than 1 year	0%
1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits and Disposition of Forfeitures:

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the vested value of the participant's account, may transfer the vested value of their account to another retirement investment vehicle, or may choose to leave vested benefits exceeding $5,000 in the Plan until April 1 of the year succeeding the year in which age 70-1/2 is attained. Premature payments may also be obtained, subject to the limitations imposed by the Internal Revenue Code. Terminated participants with vested account balances less than $1,000 fall under the automatic cash out provisions which allow the Plan sponsor to distribute the account balance within a certain period of time. Participants with account balances exceeding $1,000, but less than $5,000 will have their distributions rolled to an IRA in their name absent an election to take a lump sum distribution or roll to another plan or IRA.

Account balances forfeited under the vesting schedule are used to pay Plan expenses and reduce the employer contribution in the subsequent Plan year. At December 31, 2012 and 2011, forfeited non-vested accounts totaled $4,283 and $2,914, respectively.

Investment Options:

Upon enrollment in the Plan, a participant may direct both their employee and employer contributions, in any of the investment options selected by the Plan. Participants may change their investment options at any time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The accompanying financial statements have been prepared on an accrual basis and present the net assets available for benefits and changes in those assets.

Estimates:

The preparation of the financial statements in conformity with generally accepted accounting principles of the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are held in a pooled separate account with Hartford Life Insurance Company (HLIC) and are stated at fair value. HLIC issues to Plan Sponsors or Trustees groups annuity contracts or funding agreements that include variable investment offerings, through Pooled Separate Accounts. These unregistered Pooled Separate Accounts are divided into investments divisions called ‘Sub-Accounts’. Each Sub-Account invests in shares of an underlying mutual fund which are valued on a trade date basis. HLIC certifies, pursuant to Department of Labor Regulation 29 CFR 2520.103-5(c) that the information provided to the Trustees is complete and accurate, to the best of their knowledge.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition:

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the contract value of the investment. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The investments are self-directed by Plan participants.

Income Tax Status:

The Plan may rely on the opinion letter issued by the Internal Revenue Service to the volume submitter sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. However, Plan management has become aware of a Plan operation error and is taking the appropriate steps to correct the error.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Department of Labor. The Plan administrator has analyzed the tax positions taken or expected to be taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no such tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan's income tax returns are subject to examination by the appropriate regulatory authorities. The Plan's federal tax returns generally remain open for the last three years.

Payments of Benefits:

Benefits are recorded when paid.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. All investment information disclosed in the accompanying financial statements and schedule including investments held at December 31, 2012 and 2011, and net appreciation (depreciation) in fair value of investments, gain on sales of assets, investment expenses and administrative fees for the years ended December 31, 2012 and 2011 were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodians.

3. INFORMATION CERTIFIED BY THE TRUSTEE (Continued)

Accordingly, as permitted under such election, the following information was not subjected to any auditing procedures performed by the independent public accountants, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule:

	2012	2011
Market value of investment assets	$ 1,400,053	$ 1,104,834
Plan investment income (loss)	$ 144,242	$ (39,126)

4. INVESTMENT CONTRACT

In 2011, the Plan entered into a benefit responsive group funding arrangement with HLIC. HLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the group funding arrangement is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group funding arrangement. The group funding arrangement is presented on the face of the Statement of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by HLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $150,136 and $98,185. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with HLIC. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) surrender from the account in any 12 month period which exceeds 1/6th of the fixed account value, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

	2012 and 2011
Average yields:	
Based on actual earnings	3%
Based on interest rated credited to participants	3%

5. INVESTMENTS

The Plan's investments are held by the Plan trustees in a trust account in the name of and on behalf of the Plan and Trust. The following table presents the fair value of investments as determined by quoted market prices at December 31, 2012 and 2011 that represent 5% or more of the Plan's net assets.

6. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) developed the Accounting Standard Codification (ASC) 820, Fair Value Measurements, to establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the Fair Value Measurements guidance are described as follows:

Level 1 - observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.

Level 2 - observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.

Level 3 - inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Pooled Separate Accounts: Valued based on market value of underlying mutual fund investment multiplied by a net investment factor.

Fixed Account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Assets itemized below were measured at fair value during the year ended using the market approach for Level 2 and the cost approach for Level 3. There have been no changes in the methodologies used at December 31, 2012.

6. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value and security type as of December 31, 2012 and 2011:

Balance as of January 1, 2012	$	98,185

Purchases		49,777
Sales		(4,367)
Issuances		-

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, partially terminated, or if there is a complete discontinuance of contributions by the employer, all amounts credited to the accounts of participants shall vest and become non-forfeitable.

8. ADMINISTRATIVE EXPENSES

The Plan sponsor pays for some of the administrative expenses for operating the Plan. Generally, those expenses include the cost of audit and administration fees. The Plan permits the payment of Plan-related expenses to be made from Plan assets. These expenses will be allocated proportionately based on the value of the account balances or as an equal dollar amount based on the number of Plan participants. The Plan permits the payment of expenses which are incurred by or attributable to a particular individual based on the use of a particular plan feature to be assessed against an individual participant's account. Examples of these are loan fees, expenses related to qualified domestic relations orders (QDROs) and hardship distributions.

9. INVESTMENT RISK

The Plan invests in various investment securities that are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balance and the amounts reported in the Statement of Net Assets Available for Benefits.

10. PARTY IN INTEREST TRANSACTIONS

Various direct and indirect fees are paid to Plan administrators and service providers for Plan record keeping and investment management. These transactions qualify as party in interest transactions. Fees paid by the Plan for investment management services as well as the majority of administrative services are included in net depreciation in fair value of investments.

11. NET ASSETS ATTRIBUTABLE TO TERMINATED PARTICIPANTS

As of December 31, 2012 and 2011, the Plan holds vested allocations of participants' accounts who are no longer employed by the Plan sponsor. These amounts are $272,837 and $203,609, respectively.

12. SUBSEQUENT EVENTS

On January 1, 2013, MassMutal acquired RPG, a limited liability corporation, which is a wholly owned subsidiary of the Hartford Financial Service Group, Inc. As a result of the acquisition, RPG services, including the processing of participant transactions for defined contribution plan customers is now owned by MassMutual.

Date of Management Evaluation

Management has evaluated subsequent events through October 8, 2013, the date on which the financial statements were available to be issued.
