NOTE 1 - DESCRIPTION OF PLAN

The following description of the S.O.P., Inc. 401(k) Plan and Trust (the "Plan") provides only general information. Effective January 1, 2009, the Plan was amended and restated back to a discretionary matching 401(k) plan. The footnotes below describe the most recent amendments. Participants should refer to the Plan agreement for a more complete description.

General - The Plan is a 401(k) defined contribution plan covering all employees of Southwest Offset Printing Co., Inc. ("the Company") who have completed 1,000 hours of service for a period of twelve consecutive months and are 21 years of age or older. Eligible employees may become participants in the Plan each January 1 and July 1. Information about the Plan is contained in the Plan agreement and the Summary Plan Description. Copies are available from the Plan Administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Plan participants may contribute any amount of their eligible annual compensation, as defined in the Plan Document, subject to limits established by Internal Revenue Service regulations. Effective as of the September 2011, the Company made the decision to discontinue matching contributions.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (if any) and, (b) Plan earnings (losses), and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Vesting – Participants are immediately vested in their contributions, plus actual earnings thereon. The Company's discretionary contribution, plus actual earnings thereon will vest according to the following schedule:

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A year of service is defined by the Plan as an applicable computation period during which an employee has completed at least 1,000 hours of service.

Concentration of credit risk – The funds held in insurance company general account consists of a series of guaranteed interest contracts negotiated with an issuer. The ultimate performance of the contracts is dependent upon the ability of the issuer to honor them (Note 3).

NOTE 1 - DESCRIPTION OF PLAN *(continued)*

Payment of benefits - Upon termination of service, a participant may elect to receive either a lump-sum distribution or convert the value of his or her account balance into an annuity. Other withdrawals and loans from the Plan can be made under certain circumstances, as defined in the Plan agreement. There is $15,611 of benefit claims allocated to withdrawing participants that have been processed and approved for payment prior to year end but not yet paid that is included in Net Assets Available for Benefit as of December 31, 2012.

Participant loans - Participants may borrow from their accounts the lesser of $50,000 or 50% of their vested account balance and will bear interest at rates determined by the Plan administrator to be competitive at the inception of the loan. Loans to participants are collateralized by the participant's vested interest in the Plan. Principal and interest is paid ratably through regular payroll deductions.

Participant-directed investments – Participants may direct all contributions into their account into any or all of the investment accounts with the custodian (Note 4).

Forfeitures – Non-vested Company contributions forfeited by participants upon termination are available to either reduce future payments of the Company's matching contributions or administrative expenses of the plan. During the year ended December 31, 2012, $206 of non-vested forfeited funds was used to pay administrative expenses of the plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of management's review – Subsequent events were evaluated through October 2, 2013, which is the date the financial statements were available to be issued.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Significant estimates in the financial statements include the valuation of investments and related unrealized appreciation and depreciation.

Basis of presentation - The accompanying financial statements have been prepared on the accrual basis of accounting.

Notes receivable from participants – Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. No allowance for uncollectible accounts has been considered as delinquent participant loans on terminated employees are reclassified as distributions based on the terms of the Plan document.

Payments of benefits - Benefits paid to participants are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investment valuation and income recognition - Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gain and losses on investments bought and sold as well as held during the year.

Plan expenses - Non-investment costs and administrative expenses of the Plan are paid by the Company, which is a party-in-interest. These expenses are not reflected in the accompanying financial statements and constitute exempt transactions under ERISA. Investment advisory fees are paid by the Plan.

NOTE 3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ASC 820, Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments.

Level 1 Fair Value Measurements

The fair values of common stock, most corporate bonds and debentures, and U.S. Government securities are based on quoted market value.

Level 2 Fair Value Measurements

The fair value of certain corporate bonds and debentures, pooled separate accounts and common/collective trust funds for which quoted market prices are not available are valued based on observable inputs other than the quoted market prices included in Level 1; for example, quoted market-based prices of similar assets.

Level 3 Fair Value Measurements

The fair value of certain investments which have no quoted market price or similar assets with quoted market-based prices are considered to have no observable inputs. Unobservable inputs shall be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations

NOTE 3 – FAIR VALUE MEASUREMENTS *(continued)*

Level 3 Fair Value Measurements (continued)

in which there is little, if any, market activity for the asset at the measurement date. Therefore, unobservable inputs shall reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset. Participant loans are not actively traded and other significant observable inputs are not available. The fair value of the participant loans is equal to the amortized cost of the loans because the loans are secured by each participant's account balance.

Fair value measurement at December 31, 2012 is as follows:

	Fair Value	Significant Other Observable Inputs (Level 1)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$5,420,579	$5,420,579	-
Investment contracts with insurance company	127,791	-	$127,791
	$5,548,370	$5,420,579	$127,791

The following table reconciles the beginning and ending balances at fair value measurements using significant unobservable input (Level 3) of the investment contract with insurance company for the years ended December 31, 2012 and 2011:

	2012	2011
Balance at beginning of year	$ 118,702	$ 109,999
Contributions received during the year	3,907	4,554
Interest credited during the year	1,344	1,673
Loans repaid	12,867	12,442
Disbursements for benefits	-	(9,032)
Administrative charges	(207)	(487)
Transfers to separate accounts	-	(283)
Participant loans made	(8,822)	-
Negative Market Adjustment	-	(164)
Balance at end of year	$ 127,791	$ 118,702

NOTE 4 - INVESTMENTS

The Plan invests in funds offered and administered by John Hancock Life Insurance Company. Investment accounts at John Hancock Life Insurance Company are allocated among several mutual fund investments.

In the Statement of Changes in Net Assets Available for Benefits, the Plan presents the net appreciation or depreciation in the fair value of investments, which consists of realized gains or losses and unrealized market value appreciation or depreciation of investments.

Investments in excess of 5% of Net Assets Available for Benefits as of December 31 are:
