Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Firkins 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform any auditing procedures with respect to the information summarized in Note C, which was certified by Great-West Life & Annuity Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A- DESCRIPTION OF PLAN

The following brief description of Firkins 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a 401(k) feature and a profit sharing feature, covering all eligible employees of Firkins Acquisitions, Inc. (the Company). The Plan started July 1, 1998 and was restated on January 1, 2002. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees who are at least 21 years of age and have completed one year of service are eligible to participate in the Plan. Employees may elect to begin making contributions into the Plan immediately upon meeting the eligibility requirements.

Contributions

Each active participant in the Plan may enter into a written salary deferral agreement with the Company in which compensation is reduced by a minimum amount of 2% of his or her compensation for the plan year (subject to IRS limitations).

The Company may make a discretionary matching contribution during the year. There were no Company discretionary matching contributions in 2012. In addition, each year the Company may make a discretionary non-elective contribution. An employee must be employed with the Company on the last day of the Plan year to receive the contribution. No discretionary non-elective contributions were made during 2012.

Participants direct the investment of their contributions into various investment options offered by the Plan. The participants may change their investment elections at any time.

Vesting

Participants are immediately 100% vested in their voluntary pre-tax 401(k) contributions plus earnings thereon. The Company's contribution becomes 100% vested after six years of service. Additionally, participants become fully vested in all of their accounts in the event of death or disability resulting in termination of employment or by attaining the normal retirement age while employed with the Company.

NOTE A- DESCRIPTION OF PLAN - CONTINUED

Forfeitures

Forfeitures for the non-vested portion of the 401(k) feature can be used to pay Plan expenses, reduce the Company's matching and non-elective contributions, and be reallocated to participants. At December 31, 2012 and 2011, forfeited non-vested accounts totaled $7,704 and $9,577, respectively. $4,785 of forfeitures were used to pay Plan expenses in 2012.

Notes Receivable from Participants

Participants are able to obtain loans from the assets of the Plan, using their individual account balances as collateral. Loan amounts cannot exceed the lesser of $50,000 or 50% of the participant's vested account balance and must have a minimum amount of $1,000. Each loan shall bear interest at a rate determined by the Plan in accordance with current appropriate standards. Principal and interest is paid ratably through payroll deductions.

Distribution of Benefits

The Plan provides for benefit distributions to be paid by a lump-sum payment, a partial payment or installment payments.

Upon termination of service (due to severance of employment, retirement, death or disability) a participant or beneficiary may elect to receive a distribution equal to the value of his or her vested account balance.

A participant may elect to receive an in-service distribution from accounts that are 100% vested upon reaching the age of 59-1/2 or due to disability. All other active participants may only receive a distribution in the event of financial hardship as defined by the Internal Revenue Service and as set forth in the Plan from their voluntary pre-tax 401(k) account. The Plan requires that certain minimum distributions be made from the Plan. The Plan follows IRS guidance for minimum distributions for participants reaching the age of 70 ½.

Terminated participants, having a vested account balance of less than $5,000, will automatically receive a lump sum distribution payment.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated by the employer, each participant's benefits become fully vested.

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the investment contract at contract value, which approximates fair value of the contract. The statement of changes in net assets available for benefits is also prepared on a contract value basis, which also approximates fair value (See Note E).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results could differ from those estimates.

NOTE C - INVESTMENTS

The December 31, 2012 and 2011 Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012 and the accompanying notes to the financial statements were prepared from information certified by Great-West Life & Annuity Insurance Company (Great-West), the custodian of the plan, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $3,010,010 and $3,188,248 at December 31, 2012 and 2011, respectively and related investment income of $210,717 for the year ended December 31, 2012.

The following presents investments that represent 5% or more of the Plan's net assets at:

	December 31,	
	2012	2011
Invesco Energy Inv	$ 208,625	$ 172,331
Great-West Loomis Sayles Bond Fund I	$ 161,817	N/A
Great-West Guaranteed Portfolio	$ 1,323,091	$ 1,891,146

During the year, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $132,614.

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS - CONTINUED

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There was no change in the methodologies used to value the fixed annuity offering at December 31, 2012 and 2011. The method for valuing the mutual fund offering during 2012 is described below.

The Plan's investments are held in a group fixed annuity and mutual funds (group annuity contract) with Great-West.

The contract includes a fixed annuity offering in the Great-West Guaranteed Portfolio Fund. The fixed account value is calculated as all contributions made by or on behalf of the participant that are allocated to a fixed account option, plus all interest credited on an annual effective basis, less any amounts transferred or distributed and any applicable fees. The reported values for the fixed annuity option are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

In 2011, the contract included variable annuities through the Future Funds Series Account II of Great-West. The prices and unit values for the variable annuity investment options are calculated daily by the annuity provider according to the methods described in the contract. The initial pricing input is the quoted price obtained for the underlying mutual fund, which is then adjusted to apply the expense factor disclosed in the annuity contract. The unit value is determined in a manner similar to a mutual fund net asset value calculation.

NOTE D - FAIR VALUE MEASUREMENTS - CONTINUED

During 2012, the Plan made a change from the group annuity (GAC) platform to a net asset value (NAV) platform for the mutual funds. As a result, at December 31, 2012, mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The mutual funds may also be valued as determined by an independent pricing service, based on methods which include consideration of: yields or prices of securities of comparable quality, coupon, maturity and type: indications as to values from dealers; and general market conditions.

As a result of the change from a GAC to a NAV platform for the Plan's mutual funds described above, the mutual funds are now considered to be classified under level 1 at December 31, 2012 under the NAV platform and were classified as level 2 for the year ended December 31, 2011 under the GAC platform, respectively. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth the level, within the fair value hierarchy, of the Plan's asset values as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

NOTE E - GROUP FIXED ANNUITY CONTRACT

The Plan holds a benefit responsive fixed annuity with Great-West. Great-West maintains the contributions in a general account and is subject to the claims of Great-West's general creditors. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the fixed annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The group fixed annuity contract is presented on the Statements of Net Assets Available for Benefits at contract value.

Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the fixed annuity at December 31, 2012 and 2011 approximates fair value, prior to any contract terminations. The rate of credited interest for any period of time will be determined by Great-West and is guaranteed for three-month periods, as it is reset quarterly.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The fixed annuity contract has a provision that prevents the immediate and full payout of the contract value when a contract termination occurs for any reason excluding termination of the Plan. The existence of this condition can limit the Plan's ability to transact at contract value with the issuer of its investment contracts. As of December 31, 2012, the occurrence of an event outside the normal operation of the Plan which would cause a withdrawal from the investment contract is not considered to be probable.

Average yields:

	2012	2011
Based on actual earnings	1.45%	2.03 %
Based on interest rate credited to participants	1.45%	2.03 %

NOTE F - TAX STATUS

The Plan has adopted a prototype Plan, which received a determination letter from the Internal Revenue Service (IRS), dated March 31, 2008, which indicates that the Prototype Plan is acceptable under Section 401 of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter.

NOTE F - TAX STATUS - CONTINUED

However, the Plan administrator and Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's 2009 and subsequent years remain open to inspection by the Internal Revenue Service.

NOTE G - PARTIES-IN-INTEREST

The Plan maintains its investments through a Group Annuity Contract with Great-West. Great-West is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Company provides accounting and administrative services to the Plan at no charge. The Company also absorbs significant Plan expenses.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 10, 2013, which is the date the financial statements were available to be issued.
