Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Jerome's Furniture Warehouse 401(k) Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Charles Schwab Bank, the Custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certification from the Custodian as of and for the years ended December 31, 2012 and 2011, that the information provided to the Plan Administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2012, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. This supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of the Jerome's Furniture Warehouse 401(k) Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement or the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Jerome's Furniture Warehouse, Inc. (the Company), except for employees covered by collective bargaining agreements, nonresident aliens, and leased employees. The Plan is designed to allow participants to accumulate retirement money through pre-tax contributions and employer discretionary match and profit sharing contributions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Significant costs of plan administration are absorbed by the Company.

Eligibility

Employees over the age of 21 are eligible to participate in the Plan following the completion of six months of service. Participants may participate in the plan on the first day of the month following the date they become eligible.

Contributions

The Plan includes an automatic enrollment provision. Under the provision, eligible employees will automatically have 2% of their compensation withheld as an employee contribution unless they complete a salary reduction agreement and elect a different percentage or elect not to participate at all. Participants may elect to contribute up to 100% of their compensation. The maximum amount contributed during any calendar year may not exceed the limit permitted under Section 402(g)(5) of the Internal Revenue Code. The maximum contribution was $17,000 and $16,500 for 2012 and 2011, respectively. However, participants who had attained age 50 by year end could also make catch-up contributions of $5,500.

The Company may make a discretionary matching contribution that equals a percentage of participants' 401(k) salary deferrals. The percentage is determined each year. Effective July 1, 2011, the Company began making matching contributions equal to 25% of participant deferrals up to 5% of compensation. The Company also amended the Plan to change the eligibility requirements for employer discretionary matching contributions Participants who have completed 6 months of service are eligible to receive the discretionary match contribution. During 2012 and 2011, the Company made matching contributions of $103,157 and $45,429, respectively.

Note 1. Description of the Plan (Continued)

Contributions (Continued)

The Company may make a discretionary profit sharing contribution each plan year. Participants who are eligible to participate in the Plan, worked for more than 1,000 hours during the plan year, and are still employed as of year end will share in the discretionary profit sharing contribution. During 2012 and 2011, the Company did not make any profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and rollovers, the Company discretionary matching contribution, as well as an allocation of (a) the discretionary profit-sharing contribution, (b) the Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant salaries or account balances, as required by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching portion and profit-sharing portion of their accounts plus actual earnings thereon is based on years of continuous service. A year of service for vesting purposes requires the completion of 1,000 hours of service within a plan year. A participant vests at the rate of 20% per year after completion of a year of service (i.e. 20% vested after 2 years of service). A participant is 100 percent vested after six years of credited service.

Notwithstanding the above, if a participant (1) attains the age of 65, (2) dies or (3) terminates employment by reason of permanent disability, the Company discretionary matching and profit sharing amounts become 100% vested without regard to years of service.

Payments of Benefits

Upon retirement, death, disability or other termination of service, if a participant's vested account does not exceed $1,000, distribution shall be made in a lump sum unless the participant requests a direct rollover. If the participant's vested account is greater than $1,000 but less than $5,000, a participant may elect to receive a lump sum or direct rollover by submitting a request for payment. If the Company does not receive a request for payment, the participant's account will automatically be rolled over to an Individual Retirement Account (IRA) selected by the Company. If the participant's vested account exceeds $5,000, the participant may elect to receive a lump sum by submitting a request for payment or may defer receipt of payments according to Plan provisions. Benefits are recorded when paid.

Note 2. Significant Accounting Policies

Method of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Accounting for Fully Benefit-Responsive Investments

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute, for that portion of the net assets attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment for the fully benefit responsive investment contracts from fair value to contract value (if necessary) relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The Plan's common/collective investments are comprised of investment contracts valued at contract value which represents principal plus accrued interest thereon. As of December 31, 2012 and 2011, there was a difference of $(2,188) and $(1,285) between the fair value and contract value of these investments, respectively.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments consists of the net realized gains or losses and the net unrealized appreciation or depreciation on investments.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Note 2. Significant Accounting Policies (Continued)

Subsequent Event Review

The Company's management has evaluated the Plan's December 31, 2012 and 2011 financial statements for subsequent events through October 11, 2013, the date of issuance of the financial statements and is not aware of any subsequent events that would require additional recognition or disclosure in the financial statements.

Note 3. Information Prepared and Certified by the Custodian

The Custodian of the Plan certified certain information and that information was not audited in accordance with the Plan administrator's instructions and as permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Information included in the accompanying financial statements and supplementary schedule, certified to by the Custodian consists of the following:

During the years ended December 31, 2012 and 2011, the Plan's participant and self directed investments (including realized gains and losses on investments that were both bought and sold, as well as held, during the year) appreciated (depreciated) in value as follows:

December 31,	**2012**	2011
Investment class:		
Mutual funds	**$ 221,374**	$ (168,885)
Common/collective trust funds	**685**	16,426
Personal choice retirement accounts	**27,965**	6,681
	$ 250,024	$ (145,778)

Note 4. Investments (Continued)

The Plan provides for various investment options in mutual funds and other securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in those factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board Accounting Standards Codification are described below:

- Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2. Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

- Mutual funds are valued at the net asset value ("NAV") of shares held by the plan at year-end.

Note 5. Fair Value Measurements (Continued)

- Common stocks, corporate bonds, U.S. government securities and unit investment trusts are valued at the closing price reported on the active market on which the individual securities are traded.

- The common/collective trust fund is valued at fair value based on the underlying investments comprising the fund. The objective of the Fund is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumption of investment risk providing for preservation of capital, stability and predictability of returns, liquidity to pay plan benefits and high credit quality. The fund seeks to achieve this objective by investing in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The underlying investments include investment contracts and cash equivalents. The fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end. Individual assets of the synthetic investment contract are generally valued at representative quoted market prices. Debt securities are valued on the basis of valuations furnished by a pricing service approved by the trustee, which determines valuations using methods based on market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders.

- Money market funds are valued at fair value based on amortized cost. Inputs to the valuation include quoted market prices in active markets and quoted market prices for investments not traded in active markets, dealer quotations or valuations provided by alternative pricing sources supported by observable inputs. These generally include certain U.S government and sovereign obligations, most government agency securities, corporate bonds and other mortgage products. The fund goals are to seek the highest current income consistent with stability of capital and liquidity. The funds invest in high quality short-term money market investments issued by U.S. and foreign issues such as commercial paper, certificates of deposit, obligations issued by the U.S government and those issued by Fannie Mae, Freddie Mac and the Federal Home Loan Banks. The funds trade daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Note 6. Forfeitures

Participants who are not 100% vested will forfeit the nonvested portion of the Company match and profit sharing contributions upon termination of employment. Forfeitures will be used to reinstate previously forfeited account balances of former participants, pay plan administrative expenses, or reduce future employer contributions. The forfeiture account balance was approximately $2,200 and $500 at December 31, 2012 and 2011, respectively. Forfeitures of approximately $2,300 were applied against plan administrative expenses during 2012. No forfeitures were applied during 2011.

Note 7. Notes Receivable From Participants

Participants may borrow up to 50% of their vested account balance to a maximum of $50,000 reduced by the participant's highest outstanding loan balance in the previous twelve months. These loans are secured by the balance in the participant’s account and bear interest at 1% above a specified bank's prime rate. Principal and interest is paid through payroll deductions.

Note 8. Federal Income Tax Status

The Employer adopted a Prototype Profit Sharing Plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on September 2, 2009 stating that the Plan and related Trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the favorable determination letter. However, the plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC and is tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authority. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2009.

Note 9. Participant Withdrawals and Distributions

There were $10,122.64 and $0 in pending distributions included in accounts of participants who have elected to withdraw from participation in the Plan for the years ended December 31, 2012 and 2011, respectively.

Note 10. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note 11. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits reported in the financial statements at December 31, 2012 and 2011 to the amounts on Form 5500:

December 31,	**2012**	2011
Net assets available for benefits per the financial statements	**$ 4,591,424**	$ 3,923,150
Excess contributions	**19,044**	5,500
Net assets available for benefits per the Form 5500	**$ 4,610,468**	$ 3,928,650

Note 11. Reconciliation to Form 5500 (Continued)

The following is a reconciliation of changes in net assets available for benefits reported in the financial statements for the years ended December 31, 2012 and 2011 to the amounts in Form 5500:

Years ended December 31,		**2012**		2011
Net increase (decrease) per the financial statements	**$**	**668,274**	$	(208,902)
Excess contributions		**19,044**		5,500
Prior year excess contributions		**(5,500)**		(18,827)
Rounding				(1)
Net increase (decrease) per the Form 5500	**$**	**681,818**	$	(222,230)

Note 12. Party-In-Interest Transactions

As of December 31, 2012 and 2011, certain Plan investments are invested in Charles Schwab mutual funds managed by Charles Schwab Trust Company, the Plan's custodian. As such, transactions with Charles Schwab qualify as party-in-interest transactions under ERISA.

Note 13. Late Contributions

During 2011, the Company inadvertently failed to deposit participant deferrals and loan repayments for one payroll period within a reasonable timeframe as required by the Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Company calculated lost earnings on the 2011 deposits and applied forfeitures for the lost earnings in 2012.

Note 14. Missed Deferrals

Per the Plan Document, bonus compensation is included in eligible compensation for purposes of calculating the employee deferral. During 2011, the Company unintentionally failed to deduct employee deferral contributions from certain bonus checks. The amount of the correction was under $800. Forfeitures were applied for the missed deferrals and lost earnings in 2013.

During 2012, the Company unintentionally failed to deduct employee deferral contributions from the first payroll of the year for certain employees. The amount of the correction has been accrued as of December 31, 2012. The Company deposited the missed deferrals and lost earnings in 2013.

Note 15. Subsequent Events

Effective January 1, 2013, the Plan was amended to increase the automatic enrollment deferral percentage to 3% of compensation.
