Contributions –

Each year, participants may contribute up to 60 percent of their compensation, as defined in the Plan, on a pretax or on an after tax basis if choosing a Roth 401(k). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participant contributions may not exceed certain amounts defined by statute.

The Plan provides for a non-discretionary employer matching contribution on behalf of each participant in an amount equal to 50 percent of the participant's contribution. Non-discretionary matching contributions are subject to a maximum of the lesser of six percent of the participant's eligible compensation contributed to the Plan or $3,000.

At the end of each Plan year, the Company may, out of its current or accumulated profits, contribute to the Plan a discretionary profit sharing contribution in an amount authorized by the Board of Directors. Company contributions to the Plan were $311,127 and $230,857 in 2009 and 2008, respectively.

Participant Accounts –

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, Company contributions and allocation of investment earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options –

Participants may allocate their contributions (in multiples of one percent) and those of the Company among multiple mutual funds and a common/collective trust fund (the Fidelity Managed Income Portfolio). Employees may change their contribution allocation between investment options for future contributions and transfer prior to contributions and associated earnings between investment options subject to certain restrictions set forth in the Plan. The Plan currently offers nineteen mutual funds and one common/collective trust as investment options for participants.

Vesting –

Participants are always 100 percent vested in their employee pretax account, rollover account, Roth 401(k) after tax deferral account, and any earnings there on. Vesting in employer matching contributions is on a graduated scale and these participants will not be fully vested until the completion of six years of service.

Vesting in the employer discretionary profit sharing contributions is on a graduated scale and these participants will not be fully vested until the completion of six years of service for contributions beginning on or after January 1, 2007, and seven years of service for contributions prior to January 1, 2007.

Forfeitures of employer contributions will be used to reduce future employer contributions. Forfeitures of employer contributions of $142 and $307 were held by the Plan as of December 31, 2009 and 2008, respectively.

Participant Loans –

Participants may borrow, but not less than $1,000, from their self-directed investment accounts. The maximum aggregate of each participant's outstanding loans cannot exceed the lesser of $50,000 or 50 percent of the participant's vested account balance. No participant may have more than one loan outstanding at any time. Participant loans are secured by the balance in the participant's self-directed investment account and bear a fixed interest rate determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Interest rates range from 3.75 percent to 8.75 percent on participant loans outstanding at December 31, 2009. Principal and interest is paid ratably through biweekly payroll deductions in terms generally ranging from five to ten years.

Payment of Benefits –

Upon termination, retirement, death or disability, a participant's benefit is equal to the value of the participant's vested account and is payable at the election of the participant. Hardship withdrawals are also allowed as permitted under the Internal Revenue Code subject to certain restrictions as defined in the Plan agreement.

Rollover Contributions –

With the Company's consent, an eligible employee may make one or more rollover contributions to the Plan if the employee demonstrates to the Company's satisfaction that the contribution qualifies as a rollover contribution in accordance with the Internal Revenue Code.

(2) SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting –

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP). Benefit payments to participants are recorded upon distribution.

Use of Estimates –

The preparation of financial statements, in conformity with U.S. GAAP, requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Income Recognition and Investment Valuation –

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

The Plan’s investments, other than participant loans and the Fidelity Managed Income Portfolio, are stated at fair value based upon quoted market prices on the last day of the year.

Under U.S. GAAP, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. During 2009 and 2008, the Plan invested in fully benefit-responsive investment contracts through a common/collective trust, Fidelity Managed Income Portfolio (MIP). The Fidelity MIP invests in guaranteed investment contracts (GICs) and synthetic GICs. The GICs and synthetic GICs are fully benefit-responsive investment contracts issued by banks, insurance companies and other issuers. As required by U.S. GAAP, an adjustment is made to reflect this investment at contract value, which represents cost plus accrued income less redemptions.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008:

Fidelity Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Non-Fidelity Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Fidelity Lifecycle Funds: Valued at the net asset value of shares held by the Plan at year end.

Common/Collective Trust Fund: This fund consists of the Fidelity MIP. The fair value of fully benefit-responsive investment contracts included in the Fidelity MIP is calculated using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio securities.

Participant loans and short-term investments: Valued at amortized cost, which approximates fair value.

While the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Administrative Expenses –

Substantially all administrative expenses of the Plan are paid by the Company. Certain loan fees are paid by the participants.

(3) PARTY-IN-INTEREST TRANSACTIONS:

Certain portions of the Plan's investments are shares of collective and mutual funds managed by the Trustee. Therefore, these transactions qualify as party-in-interest.

(4) INVESTMENTS:

Investments that represent five percent or more of the Plan's net assets are as follows at December 31:

	2009	2008
Van Kampen Growth & Income Fund	$ 974,763	$ 768,082
Pimco Total Return Admin Fund	768,447	***

Fidelity Retirement Money Market Portfolio	735,765	1,432,925
Fidelity Managed Income Portfolio, at contract value *	1,554,358	1,387,790

* The fair value of this fully benefit-responsive investment totaled $1,525,982 and $1,316,761 at December 31, 2009 and 2008, respectively.

***Represents less than five percent of the Plan's net assets at December 31, 2008.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows at December 31:

	2009	2008
Money market accounts	$ 5,673	$ 16,520
Mutual funds	2,060,793	(4,121,611)
Common/collective trust fund	23,611	52,088
Participant loans	8,535	8,880
Total	$ 2,098,612	$ (4,044,123)

Risks and Uncertainties –

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and participant account balances.

(5) SUMMARY OF INFORMATION CERTIFIED BY THE TRUSTEE:

The December 31, 2009 and 2008 Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2009 and 2008, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified includes total investments of $10,636,987 and $9,538,140 at December 31, 2009 and 2008, respectively, and related income (loss) of $2,098,612 and $(4,044,123) for the years ended December 31, 2009 and 2008, respectively.

(6) PLAN TERMINATION:

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

(7) TAX STATUS:

The Plan has adopted a prototype plan sponsored by Fidelity Management and Research Co. Fidelity Management and Research Co. requested that the Internal Revenue Service provide an opinion related to the acceptability of the prototype plan under Section 401 of the Internal Revenue Code and received a favorable opinion dated December 5, 2001. The Plan Administrator has not requested a determination letter from the Internal Revenue Service for the qualification of the Plan. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of December 31, 2009 and 2008.

(8) FAIR VALUE MEASUREMENTS:

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

2009

Description of Investment	Fair Value	Level 1	Level 2	Level 3

Net gain (loss) per Form 5500	$ 1,141,499	$ (3,849,205)

As described in Note 2, the fully benefit-responsive investment contracts are required to be valued at the contract value on the Statements of Net Assets Available for Benefits, whereas the Form 5500 requires all investments to be valued at fair value.

(10) SUBSEQUENT EVENTS:

On March 1, 2010, the Network Services Company Money Purchase Pension Plan merged into the Network Services Company Profit Sharing 401(K) Plan. The balance in each participant's Money Purchase Pension plan account was transferred to and segregated under that participant's Profit Sharing 401(k) account. The Company does not believe that this merger altered the tax exempt status of the Plan.

The Company has evaluated subsequent events through August 17, 2010, the date which the financial statements were available to be issued.
