Independent Auditor's Report

To the Trustees of
Hourly Employees' Pension Plan of Rollex Corporation

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Hourly Employees' Pension Plan of Rollex Corporation (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified or provided by The Northern Trust Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certification from the custodian as of December 31, 2012 and 2011, and for the years then ended, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Member of the RSM International network of independent accounting, tax and consulting firms.

Emphasis of a Matter

As further discussed in Note 1 to the financial statements, the Plan was amended on December 14, 2012 to freeze eligibility for the Plan and future benefit accruals as of certain future dates. Our disclaimer of opinion has not been modified with respect to this matter.

Other Matters

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reporting Transactions as of and for the year ended December 31, 2012, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purposes of additional analysis and are not a required part of the financial statements. The supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of Plan

The following description of the Hourly Employees' Pension Plan of Rollex Corporation (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined benefit pension plan covering all union members of Rollex Corporation (the Company and Plan Sponsor) who have completed one year of service and have attained the age of 21. Eligible employees begin to participate on the January 1 or July 1 following completion of the service requirement. Valuations are performed at the beginning of each year, using the prior year's employee data. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On November 15, 2012, the Plan Sponsor notified all eligible union employees of its decision to freeze eligibility for the Plan for employees hired on or after November 1, 2012 and to freeze benefit accruals under the Plan effective January 1, 2013 for all plan participants that have been credited with 20 years of service or more as of December 31, 2012. For those participants who have not been credited with 20 years of credited services prior to December 31, 2012, their benefit accruals shall freeze upon the earlier of the date s/he achieves 20 years of credited service or the second freeze date of December 31, 2014. On December 14, 2012, the Plan Sponsor adopted a resolution and executed the amendment of the Plan. The Company is currently evaluating the effect that these amendments will have on the financial statements and accumulated plan benefits for 2013 and future periods. These amendments have not been reflected in the accumulated plan benefits reported as of December 31, 2011 which was prepared using January 1, 2012 census.

Pension benefits: The pension benefit to which a participant is entitled is based on average monthly compensation, which is determined based on the average of a participant's compensation from the Company for the three highest consecutive years of the last five years of employment. The term compensation means total wages paid to a participant during the plan year, and excludes certain overtime premium pay, bonuses and taxable employee benefits, such as the value of life insurance in excess of $50,000. Eligible compensation is limited to $250,000 and $245,000 in 2012 and 2011, respectively, as indexed by the Internal Revenue Code (IRC).

The monthly retirement benefit, known as the Normal Retirement Benefit, is 20% of the average monthly compensation reduced by 1/25 for each year of credited service less than 25. A participant is credited with a year of service for each year in which at least 1,000 hours are worked.

Normal retirement age is the later of age 65 or the fifth anniversary of participation in the Plan. Early retirement age is age 55 if the participant has completed 20 years of service.

The Plan provides that the normal form of benefit payment is a straight life annuity. Other forms of benefit payments are available at the option of the participant, including a lump-sum payment in lieu of monthly retirement benefit payments.

Death and disability benefits: Should a married participant die before retirement, the spouse would be entitled to a death benefit under the Plan equal to the amount payable as a preretirement survivor annuity. Participants who become totally disabled receive a benefit equal to the present value of the accrued benefit as of the date of disability.

Vesting: The vested portion of the accrued benefit will be distributed after death, disability or retirement. A participant becomes 100% vested upon completion of five years of service.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of plan assets and liabilities and changes therein; disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor's management determines the Plan's valuation policies utilizing information provided by the plan custodian. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits are paid to *(a)* retired or terminated employees or their beneficiaries, *(b*) beneficiaries of employees who have died, and *(c)* present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

Payment of benefits: Benefits are recorded when paid. Benefits payable upon retirement are based on years of service and average compensation as defined in the Plan. The Plan has not been able to make required benefit payments to certain former employees age 65 and over because plan management has been unable to locate the participants. Plan management has hired a locator service firm to find these participants and is also utilizing the Plan's actuary to maintain proper qualification of the Plan until these benefit payments are resolved.

The Pension Protection Act of 2006 (PPA) as amended by the Worker, Retiree and Employer Recovery Act of 2008 (WRERA) imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage (FTAP). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage (AFTAP). The 2012 AFTAP for the Plan is 90.83%. Because the Plan's AFTAP equals or exceeds 80%, the Plan is not subject to any benefit restrictions.

Administrative expenses: Fees for custodian services are paid by the Plan. Other administrative expenses are paid by the Company and are not reflected in the accompanying financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

***Recent Accounting Pronouncements**:* In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs.* ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management has determined that there was no effect from the provisions of ASU 2011-04 on the Plan's financial statements.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of topics in the ASC, including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 11, 2013, the date the financial statements were available to be issued.

Note 3. Actuarial Present Valuation of Accumulated Plan Benefits

The accumulated plan benefits information as of January 1, 2012, is as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Retirees and beneficiaries	$ 694,343
Terminated vested participants	3,324,151
Vested active participants	2,058,843
	6,077,337
Nonvested benefits	9,457
Total actuarial present value of accumulated plan benefits	$ 6,086,794

During 2011, changes to the actuarial present value of accumulated plan benefits were as follows:

Actuarial present value of accumulated benefits, beginning of year	$ 6,202,073
Benefits accumulated and experience (gains)/losses	228,625
Benefits paid	(425,075)
Assumption changes	(338,096)
Increase for interest	419,267
Actuarial present value of accumulated benefits, end of year	$ 6,086,794

Note 3. Actuarial Present Valuation of Accumulated Plan Benefits (Continued)

The significant actuarial assumptions used in determining the actuarial present value of accumulated plan benefits are as follows:

Factor	Assumption
Expected long-term rate of return on plan assets	7% for 2012 and 6% for 2011
Life expectancy of participants	IRS 2012 Combined Mortality Tables
Retirement age	Later of attained age 65 and 5 years of plan participation

These actuarial assumptions assume that the Plan will continue. In the event of plan termination, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

The actuarial valuations are done using the beginning-of-year method. Therefore, the accumulated plan benefits as of December 31, 2011, represented information provided by the actuary as of January 1, 2012. There has been no significant change in the Plan's provisions or coverage from December 31, 2011 to January 1, 2012.

Note 4. Funding Policy

The Company's funding policy is to make contributions to ensure all employees' benefits will be fully provided for by the time they retire. The Company determines contribution amounts based on the Plan's funding status and recommendations from the Plan's actuary. The Company contributes at least the amount necessary to satisfy the minimum funding requirements of ERISA, as identified in the plan year's actuarial valuation. Contributions may exceed the minimum funding requirement. The required contributions for 2012 and 2011 were $105,651 and $84,000, respectively. The Company contributed $130,000 and $157,918 for the 2012 and 2011 plan years, respectively, subsequent to each year-end.

Note 5. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

A. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire during that three year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

B. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations (discussed below).

C. All other vested benefits (that is, vested benefits not insured by the PBGC).

Note 5. Plan Termination (Continued)

D. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2013, the ceiling is $4,790 per month. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 6. Investments

The following table presents those investments that represent 5% or more of the Plan's net assets at December 31, 2012 and 2011, are as follows:

	2012	2011
Common collective trust funds:		
NT Collective Aggregate Bond Index Fund - Lending	$ 1,130,722	$ 1,672,355
NT Collective All Country World Index ex-US Equity Fund - Lending	355,754	303,380
NT Collective S&P 500 Equity Index - Lending	903,044	778,032

Mutual funds:		
PIMCO High Yield Fixed Income Fund	310,502	-
Vanguard Inflation Protected Securities Fund	-	324,922

Note 7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 7. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust funds: Valued based on the NAV of units of the common collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 7. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

(a) The Northern Trust Company of Connecticut (NTCC) Collective Funds for Employee Benefit Trusts is comprised of four funds, each with its own investment objective. The Plan invests in the following funds with the following investment objectives:

- NTCC Large Cap Fund - The policy of the fund is to invest in U.S. equity markets directly or through funds including, but not limited to, collective funds, using one or more advisors to recommend specific investments. While U.S. securities will be the predominant asset class, this fund may invest in other asset classes from time to time, including but not limited to, short-term investment funds and cash equivalents. Characteristically, the fund will have a large market capitalization core orientation and may be highly concentrated in specific sectors or securities.
- NTCC Mid Cap Fund – The policy of the fund is to invest in U.S equity markets directly or through funds including, but not limited to, collective funds, using one or more advisors to recommend specific investments. While U.S. securities will be the predominant asset class, this fund may invest in other asset classes from time to time, including but not limited to, short-term investment funds and cash equivalents. Characteristically, the fund will have a mid market capitalization core orientation and may be highly concentrated in specific sectors or securities.
- NTCC Small Cap Fund - Invest in small market capitalization securities by using a group of professional advisors to provide advice on specific securities. Small market capitalization is the predominant asset class. The fund may also invest in cash equivalents and investment grade bonds.
- NTCC International Securities Fund - Invest in non-U.S. securities markets or in securities of companies that predominantly derive their revenues from non-U.S. markets. A portion of the assets may be allocated to emerging markets or cash equivalents.

Withdrawal notifications received during the month are recorded at the unit value determined on the next valuation and are executed on a monthly basis.

Note 7. Fair Value Measurements (Continued)

(b) The Collective Short-Term Investment Fund is composed of high-grade money market instruments with short maturities. The fund's objective is to provide an investment vehicle for cash reserves while offering a competitive rate of return. Liquidity is emphasized to provide for redemption of units on any business day. Principal preservation is also a prime objective. High quality securities are used in this fund. Within quality, maturity and sector diversification guidelines, investments are made in those securities with the most attractive yields. Admissions and withdrawals are daily. Interest is accrued daily and distributed monthly.

(c) The Plan invests in the following domestic equity funds with the following investment objectives:

- The primary objective of the Daily S&P Mid Cap 400 Equity Index Fund, a collective fund for qualified plans, is to approximate the risk and return characteristics of the S&P Mid Cap 400 Index. This Index is commonly used to represent the mid cap segment of the U.S. equity market. To achieve its objective, the fund employs a replication technique which generally seeks to hold each index constituent in its proportional index weight. The fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This fund may participate in securities lending.
- The primary objective of the Daily Russell 2000 Index Fund, a collective fund for qualified plans, is to approximate the risk and return characterized by the Russell 2000 Index. This Index is commonly used to represent the small cap segment of the U.S. equity market. This fund may hold units of the NTGI-QM Collective Daily Russell 2000 Growth Index Fund – Lending and the NTGI-QM Collective Daily Russell 2000 Value Index Fund - Lending.
- The primary objective of the Daily S&P 500 Equity Index Fund, a collective fund for qualified plans, is to approximate the risk and return characterized by the S&P 500 Index. This Index is commonly used to represent the large cap segment of the U.S. equity market. To achieve its objective, the fund employs a replication technique, which generally seeks to hold each index constituent in its proportional index weight. The fund may make limited use of futures and/or options for the purpose of maintaining equity exposure.

There are no redemption notices required for these funds traditionally. However these funds participated in securities lending and Northern Trust had instituted a twice monthly redemption process to allow clients to withdraw money from the pools (instituted during the credit crisis in 2010). With the exception of the Collective Daily S&P 500 Equity Index the rest of the funds will no longer be subject to the twice monthly redemption as of July 16, 2010. In order to redeem the Collective Daily S&P 500 Equity Index, a request must be made for the greater of $1 million or 25% of the position (whichever is greater). The actual amount of the redemption is based on the available liquidity of the underlying lending pool.

(d) The Plan invests in the Collective Daily Aggregate Bond Index Fund – Lending. The primary objective of the Daily Aggregate Bond Index Fund, a collective fund for qualified plans, is to provide investment results that approximate the overall performance of the Barclay's Capital Aggregate Bond Index. The fund may hold units of participation in any fixed income collective fund established and maintained by the Trustee or any of its affiliates. The fund may make limited use of interest rate futures and/or options for the purpose of maintaining market exposure. This fund may participate in securities lending. In order to redeem, a request must be made for the greater of $1 million or 25% of the position (whichever is greater). The actual amount of the redemption is based on the available liquidity of the underlying lending pool.

Note 7. Fair Value Measurements (Continued)

(e) The Plan invests in the following international equity funds with the following investment objectives:

- The primary objective of the Daily Global Real Estate Index Fund, a collective fund for qualified plans, is to provide investment results that approximate the overall performance of the Financial Times Stock Exchange (FTSE) European Public Realtors Association (EPRA)/ National Association of Real Estate Investment Trusts (NAREIT) Global Real Estate Index. The fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This fund may participate in securities lending.
- The primary objective of the Daily All Country World Index (ACWI) ex-U.S. Equity Fund, a collective fund for qualified plans, is to approximate the risk and return characterized by the MSCI ACWI ex-US Index. This Index is commonly used to represent the global non-U.S. equity markets. To achieve its objective, the fund employs a replication technique, which generally seeks to hold each index constituent in its proportional index weight. The fund may make limited use of futures and/or options for the purpose of maintaining equity exposure. This fund may participate in securities lending.

Change in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of Level 3.

Note 8. Tax Status

Effective January 1, 2012, the Plan adopted a non-standardized form of a prototype plan sponsored by Datair Employee Benefit Systems Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9. Information Certified and Provided by The Northern Trust Company

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the years then ended, included throughout the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by The Northern Trust Company, the custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets:

	2012	2011
Investments held by the Plan's custodian at fair value:		
Mutual funds	$ 807,366	$ 826,146
Common collective trust funds	5,046,983	4,644,526
	$ 5,854,349	$ 5,470,672

The Plan's custodian also certified to the completeness and accuracy of $627,599 of net appreciation and $52,110 of net depreciation in fair value of investments and $24,753 and $61,788 of dividends related to the aforementioned assets for the years ended December 31, 2012 and 2011, respectively.

Note 10. Parties-in-Interest Transactions

The Plan's investments are managed by The Northern Trust Company, the custodian of the Plan. Therefore, the following transactions qualify as party-in-interest. Fees paid by the Plan to the Northern Trust Company for investment management and other administrative expenses were $35,070 and $35,463 for the years ended December 31, 2012 and 2011, respectively.

The Plan is administered by the Company pursuant to the terms and conditions of the Plan and Trust. The Company pays for administrative expenses of the Plan, except for investment expenses. In addition, certain administrative functions are performed by officers or employees of the Company for which no compensation is paid by the Plan.

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Statement of Actuarial Assumptions/Methods

Summary of Methods

Valuation date:	January 1, 2012.
Methodology:	The results presented herein are based upon: 1. Financial data provided to us as of January 1, 2012. 2. Employee data furnished to us as of January 1, 2012. 3. Provisions of the plan as summarized herein. 4. Actuarial methods and assumptions presented in this report.
Actuarial cost method:	Unit Credit Cost Method pursuant to Code Section 430 of the Pension Protection Act of 2006 (PPA).
Actuarial value of assets:	The actuarial value of assets is equal to the fair market value of assets as of the valuation date.
Changes since last valuation:	There were no changes since the last valuation.

Primary Assumptions

Interest:	IRC 430(h) Funding Segment Rates for January 2012 (including MAP21 Provisions); 5.54% per year for 1st segment, 6.85% for 2nd
Mortality:	IRS 2012 Combined Static Mortality Table.
Lump Sum Assumptions:	
Percent Electing:	100% of active and terminated vested participants are assumed to elect a lump sum form of payment. Lump sums are assumed payable immediately upon retirement.
Interest:	IRC 417(e)(3) Segment Rates for Novemeber 2011; 1.99% per year for 1st segment, 4.47% for 2nd segment, and 5.26% thereafter.
Mortality:	2011 Applicable Mortality Table.
Salary increases:	3.00% per year.
Taxable wage base increases:	N/A
Retirement:	Normal retirement age (65) or the 5th anniversary of initial plan entry, if later.

Statement of Actuarial Assumptions/Methods (continued)

Primary Assumptions (continued)

Withdrawal:	T-7 Termination Rate Table
Disability:	None.
Percentage married:	Males 100%, females 100%.
Age difference:	Husbands are assumed to be the same age as their wives.
Maximum benefit:	Limited as set forth by IRC Section 415.
Maximum compensation:	Limited as set forth by IRC Section 401(a)(17).
Expenses:	None - paid outside of the plan trust.
Changes since the last valuation:	The mortality table and interest rate were updated as required by the Pension Protection Act of 2006 (PPA). The mortality table was changed from the IRS 2011 Combined Static Mortality Table to the IRS 2012 Combined Static Mortality Table. The interest rate was changed from the IRC 430(h) Funding Segment Rates for December 2010 (2.94%, 5.82% and 6.46%) to the IRC 430(h) Funding Segment Rates for December 2011 (5.54%, 6.85% and 7.52%). All other assumptions are identical to the assumptions used in the prior valuation.

Summary of Plan Provisions

This summary of plan provisions as of January 1, 2012 has been prepared for valuation purposes only. It outlines the major plan provisions used to perform the actuarial valuation.

Plan effective date:	January 1, 1983 as amended and restated effective January 1, 2010.
Plan year anniversary date:	January 1.
Eligibility requirements for plan participation:	Minimum age: 21 Months of service: 12
Plan entry date:	The earlier of the first day of the plan year or the first day of the seventh month of such plan year coinciding with or next following the date the eligibility requirements are met.
Normal Retirement Date:	The first day of the month coincident with or next following the date the participant attains normal retirement age. Normal retirement age is defined as the later of age 65 and the 5th anniversary of the date participation in the plan commenced.
Credited Service:	One year for each Plan Year in which at least 1,000 hours of service is completed.
Eligibility / Vesting Service:	One year for each Plan Year in which at least 1,000 hours of service is completed.
Average annual compensation:	Monthly compensation averaged over the 3 Plan Years of the last 5 which produce the highest monthly average.
Normal retirement benefit:	The Normal Retirement Benefit is based on a formula equal to 20% of eligible compensation reduced for less than 25 years of service.
Accrued benefit:	The Normal Retirement Benefit multiplied by a fraction, the numerator of which is Years of Service at termination or retirement and the denominator of which is the Years of Service projected to Normal Retirement. The minimum plan benefit is $400 reduced prorata for service less than 25 years.

Summary of Plan Provisions (continued)

Normal form of benefit:	A married participant shall receive their benefit on a reduced basis with 50% of such benefit payable to their spouse following the participant's death unless they elect an optional form. A single participant shall receive their benefit on a life annuity basis (i.e.,
Vesting schedule:	A participant is 20% vested after 2 years of service and the percentage vested increases 20% per year thereafter up to 100% vested with 6 years of service. Fully vested upon death and disability.
Early retirement benefit:	Eligible upon attainment of age 55 with 20 years of Vesting Service. The monthly benefit, if paid on a life annuity basis, is equal to the accrued normal retirement pension payable at age 65 adjusted by plan actuarial equivalence to the Early Retirement Date.
Qualified pre-retirement survivor annuity:	Eligible upon death of an active participant. All vested participants (whether actively employed or not) are automatically covered in the event of their death before their pension payments begin. For an active participant who dies while eligible for early or normal retirement, the benefit is a lifetime annuity to the spouse determined as though the participant had retired on their date of death with an immediate benefit reduced for early retirement and payment under the 50% Spouse's annuity form. For vested participants (whether or not active) whose death occurs prior to attaining their Earliest Retirement Age, the surviving spouse shall receive a benefit commencing on the first day of the month following the participant's Earliest Retirement Age determined as though the participant had separated from service on the date of death (if they had not already separated), survived to their Earliest Retirement Age, retired with an immediate benefit reduced for early commencement and payment under the 50% Spouse's annuity form.
Forms of payment:	Lump sum; 50%, 75% and 100% joint and survivor annuity; 10 years certain and life annuity.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
