A. Description of Plan

The following description of the Span Construction & Engineering, Inc. (the "Company") 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

1. *General*

The Plan is a defined contribution plan covering substantially all full-time employees of Span Construction and Engineering, Inc., King Curb (a subsidiary of Span Construction & Engineering, Inc.), Eagle Building Systems, Inc., and Freedom Management, Inc. (all of which are wholly owned by Firoz Husein) who have twelve months of service with greater than or equal to one-thousand hours and are age twenty-one or older on the first day of the plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. *Contributions*

Participant contributions are subject to specific dollar limitations as set forth in the Internal Revenue Code. Participants who attain age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from qualified defined benefit or defined contribution plans.

Participants direct the investment of their contributions into various mutual fund options offered by Principal Life Insurance Company ("Principal Life").

The Company may make discretionary matching contributions to the Plan on behalf of each participant. The Company made $50,000 contributions to the Plan for 2011 and 2012.

3. *Participants' Accounts*

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant vested account balances in proportion to the balances of all participants' accounts.

4. *Vesting*

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested in the profit sharing contribution portion of their account after six years of credited service. A participant is vested immediately in the employer Qualified Non-Elective Contributions made under the Costco Prevailing Wage Agreement.

A. Description of Plan (continued)

5. *Notes Receivable from Participants*

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 8.00 percent. Principal and interest is paid ratably through weekly payroll deductions.

6. *Payment of Benefits*

On termination of service for any reason, a participant may elect to receive an amount equal to the value of the participant's vested interest. Upon termination of employment, the non-vested portion of a participant's employer account will be forfeited and remain in the Plan.

7. *Forfeited Accounts*

At December 31, 2012 and 2011 forfeited non-vested accounts totaled $196 and $103 respectively. These accounts will be reallocated to participants in the same manner as employer contributions. These accounts may be used to reduce future employer contributions.

B. Summary of Significant Accounting Policies

1. *Basis of Accounting*

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

B. Summary of Significant Accounting Policies (continued)

2. *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. *Investment Valuation and Income Recognition*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

5. *Excess Contributions Payable*

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. There were no excess contributions payable as of December 31, 2012 and 2011.

6. *Payment of benefits*

Benefits are recorded when paid.

B. Summary of Significant Accounting Policies (continued)

7. Expenses

Certain expenses of maintain the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

8. Subsequent Events

The Plan has evaluated subsequent events through October 4, 2013, the date the financial statements were available to be issued.

In early January 2013 the Plan changed trustees from Principal Life to Mutual of Omaha Retirement Services ("Mutual of Omaha"). Participants will be offered a similar combination of investment options through Mutual of Omaha.

C. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets.

	2012	2011

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $285,117, as follows:

Mutual Funds	$ 285,117
	$ 285,117

D. Fair Value Measurement

The framework for measuring fail value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

- *Guaranteed Interest Contracts:* Fair value represents the amount that would be received if the contract was terminated, which is book value less an early withdrawal charge.
- *Mutual Funds:* Valued at quoted net asset value of shares held by the Plan at year end.

D. Fair Value Measurement (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

D. Fair Value Measurement (continued)

Level 3 gains and losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012.

Total assets at fair value	$ 45,225	$ 45,225

Quantitative Information about Significant Unobservable Inputs Used in Level Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed interest	$45,225	Market value adjustment	Current rate on 12/31/2012	.57% - 4.08%

E. Guaranteed Interest Contracts

The Plan has several non-benefit-responsive guaranteed interest contracts with Principal Life. Principal Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed interest contracts are non-benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest contracts. The guaranteed interest contracts are presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract values for credit risk of the contract issuer or otherwise. The fair value of the interest contracts at December 31, 2012 and 2011 was $45,225 and $82,637, respectively. The crediting interest rates are based on a formula agreed upon with the issuer and ranges between .57 percent and 4.08 percent.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed interest contracts do not permit Principal Life to terminate the agreement prior to the scheduled maturity date.

Average yields on guaranteed interest contracts are as follows:

Average yields:	2012	2011
Based on actual earnings	2.8%	2.5%
Based on interest rate credited to participants	1.9%	2.5%

F. Related Party Transactions

1. *Trustee*

   Certain Plan investments are shares of mutual funds managed by Principal Life. Principal Life is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and administrative services amounted to $23,783 for the year ended December 31, 2012.

2. *Plan Sponsor*

   The Company paid $6,500 in 2012 on behalf of the Plan for audit services required under the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The Company also paid $4,475 for plan administration and income tax preparation services related to the Plan.

3. *Eagle Building Systems, Inc. Prevailing Wage Plan*

   Benefits in the amount of $5,880 payable by the Eagle Building Systems, Inc. Prevailing Wage Plan, a related party, were unintentionally paid by the Plan in 2011. As such, the Plan has recorded a receivable from the Eagle Building Systems, Inc. Prevailing Wage Plan.

G. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100 percent vested in the Plan's assets.

H. Tax Status

Although the Plan has not requested a determination letter from the Internal Revenue Service, the Plan has been based on a prototype, and the employer believes the Plan is designed and is currently being operated in compliance with the applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

I. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

J. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2012 and 2011, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2012, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Life.
