OF SOUTH CAROLINA, LP
401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of The Ben Arnold-Sunbelt Beverage Company of South Carolina, LP 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of The Ben Arnold - Sunbelt Beverage Company of South Carolina, LP (the Partnership or Employer) with three months of service and who have attained the age of 21. John Hancock Life Insurance Company (John Hancock) served as the custodian of the Plan through April 30, 2008. As of May 1, 2008, Marshall & Ilsley Institutional Trust Services (M&I) became the custodian and trustee of the Plan. Certain members of management of the Partnership also serve as trustees of the Plan. Primetrust Advisors serve as the co-fiduciary of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

For the years ended December 31, 2009 and 2008, participants could contribute up to 90% of their pretax annual compensation as defined by the Plan, not to exceed \$16,500 and \$15,500, respectively, (\$22,000 and \$20,500 for participants over 50 years of age). A matching contribution, if any, is discretionary and determined annually by the Partnership. In 2008, the Partnership adopted certain safe harbor match contribution provisions. For the years ended December 31, 2009 and 2008, the Partnership contributed 100 percent of the first 1 percent and 50 percent of the next 6 percent of a participant's contributions to the Plan. A profit sharing contribution, if any, is also discretionary and determined annually by the Partnership. For the years ended December 31, 2009 and 2008, there were no profit sharing contributions. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Partnership's matching contribution, if any, and allocations of Plan earnings or losses, and charged with benefit payments, if applicable. Allocations are based on participant earnings or losses, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings or losses thereon. Employer contributions for participants vest based on the following schedule:

<u>Years of service</u>	<u>Percent Vested</u>
Less than 2 years	0%
2 years or more	100%

(Continued)

NOTE 1 - DESCRIPTION OF THE PLAN, Continued

Payment of benefits

A participant's account is distributed based upon the participant's election under the Plan document upon retirement, death, disability or termination of employment. Retirement is defined under the Plan document as age 65.

Forfeited accounts

Forfeited matching contribution balances of terminated participants are used to reduce future employer contributions. If forfeitures are the result of profit sharing contributions, they are used to reduce future profit sharing contributions. At December 31, 2009, Plan assets include \$0 in forfeitures that will be used to reduce future employer matching contributions.

Participant loans

Participants may borrow from their fund accounts up to a maximum of \$50,000 or 50% of their vested account balances, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan Administrator. These rates range from 3.64% to 3.98%. Loans are paid through payroll deductions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting, with the exception of benefits paid to participants which are recorded when paid, in accordance with accounting principles generally accepted in the United States of America.

Valuation of investments and income recognition

The Plan's investments are stated at fair value. Prior to February 16, 2009, the investments consisted of interests in retail mutual funds and a stable value fund both within a M&I Master Trust. Subsequent to February 16, 2009, the investments consist of interests in retail mutual funds and a stable value fund. These investments are valued at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The loans to participants are valued at their unpaid balance which approximates fair value.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

As described in accounting standards, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by accounting standards, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Administrative expenses

All administrative costs of the Plan are paid by The Ben Arnold-Sunbelt Beverage Company of South Carolina, LP except for certain investment fees and 50% of the Plan's co-fiduciary's fees, which are paid by the Plan. Professional services are paid by the Plan sponsor.

New accounting pronouncement

In June 2009, the FASB issued the FASB Accounting Standards Codification (ASC or Codification). The Codification is now the single source for all authoritative generally accepted accounting principles (GAAP) recognized by the FASB to be applied to financial statements issued for periods ending after September 15, 2009. The Codifications does not change GAAP and the adoption of the Codification did not have an effect on the Plan's financial position, results of operations, or cash flows.

Subsequent events

In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through July 15, 2010, the date the financial statements were available to be issued.

NOTE 3 - PRIORITIES UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100 percent vested in their accounts.

NOTE 4 - INTEREST IN MASTER TRUST

In May 2008, the Plan transferred its assets to a M&I Master Trust. The Plan's investments were in the Master Trust which was established for the investment of assets of the Plan and The Ben Arnold-Sunbelt Beverage Company of South Carolina, LP Profit Sharing Plan. Each of the two participating plans had an undivided interest in the Master Trust. The assets of the Master Trust were held by M&I. At December 31, 2008, the Plan's interest in the net assets of the Master Trust was approximately 58%. On February 16, 2009, all assets were removed from the Master Trust.

Investment income for the Master Trust and the Plans portion of the Master Trust for the period from January 1, 2009 through February 16, 2009 was as follows:

Investment income	
Net depreciation in fair value of investments of Master Trust	<u>\$ (954,113)</u>
Plan's investment income in Master Trust	
Net depreciation in fair value of investments	<u>\$ (553,386)</u>

NOTE 5 - TRUSTEE CERTIFICATIONS

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by M&I as of December 31, 2009 and for the period from May 1, 2008 through December 31, 2009, and by John Hancock for the period from January 1, 2008 through April 30, 2008, the custodians of the Plan, as complete and accurate, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule.

NOTE 6 - STABLE VALUE INVESTMENT OPTIONS

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

(Continued)

NOTE 6 - STABLE VALUE INVESTMENT OPTIONS, Continued

The following is a reconciliation of fair value to contract value of the Plan's stable value investment option:

Stable Value Investment Option, at fair value	<u>\$ 1,831,291</u>	<u>\$ 1,827,330</u>

NOTE 7 - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under financial accounting standards are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used to measure fair value as of December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Stable value fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Participant loans: Valued at their unpaid balance, which approximates fair value.

(Continued)

NOTE 7 - FAIR VALUE MEASUREMENTS, Continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

NOTE 8 - TAX STATUS

The Plan has adopted a non-standardized form of a prototype plan which has received an opinion letter dated May 1, 2008, from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan may invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

NOTE 10 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan pooled separate accounts are managed by M&I. M&I is the custodian and trustee of the Plan's assets; therefore, these transactions qualify as party-in-interest transactions.
