Report of Independent Auditors

The Trustee and Plan Administrator
Moore Capital Management, LP
401(k) and Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Moore Capital Management, LP 401(k) and Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2012 and 2011, and for the year ended December 31, 2012, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedule

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2012, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Moore Capital Management, LP
401(k) and Profit Sharing Plan

Notes to Financial Statements

December 31, 2012

1. Plan Description

The following description of the Moore Capital Management, LP 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering substantially all employees of Moore Capital Management, LP, (the "Company" or "Plan Administrator"), Belvedere Property Management, LLC and Moore Charitable Foundation, Inc. Prior to July 15, 2006, employees who had reached the age of 19 were eligible for participation after three months of service. Beginning July 15, 2006, all employees regardless of age are immediately eligible to participate in the Plan. The Plan was established on January 1, 1993. On November 1, 2008, Moore Capital Management, LLC effectuated an internal restructuring whereby Moore Capital Management, LLC was replaced by a Delaware entity called Moore Capital Management, LP. Prior to November 1, 2008, the Plan covered all employees of Moore Capital Management, LLC. Charles Schwab Trust Company (the "Trustee") is the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Participants may elect to make a pre-tax salary deferral contribution by payroll deduction of 1% to 50% of their compensation. Provisions of Section 401(a) of the Internal Revenue Code provide that earnings of the Plan are not taxable to the participants until withdrawn. The Internal Revenue Code of 1986, as amended (the "Tax Code"), imposes a limitation (adjusted annually for cost-of-living increases) on participants' pre-tax contributions under Section 401(k) plans and other tax favored plans. The Tax Code imposed a limit of $17,000 for 2012 and $16,500 for 2011. In addition, employees over 50 years old may elect to contribute an additional $5,500 for 2012, unchanged from 2011. Effective January 1, 2011, employees are automatically enrolled into the plan after 45 days at a deferral savings rate of 3%. During these 45 days, employees have the option to opt out of the plan. In addition, if enrolled in the plan, every year on April 1st, employee's deferral savings rate will increase by 1% until they reach 10%.

Beginning January 1, 2006, the Plan included a Roth elective deferral option based on the requirements provided by Code Section 402A, as enacted by the Economic Growth and Tax Relief Reconciliation Act of 2001. The Roth elective deferral option permits participants to make post-tax salary deferral contributions by payroll deduction of 1% to 50% of their compensation.

1. Plan Description (continued)

In addition, participants are allowed to make additional post-tax contributions from 1% up to 50% of compensation, subject to certain limitations.

Rollover contributions arise from qualified contributions to the Plan of certain assets previously held on behalf of participants by other qualified plans.

The Company may contribute a discretionary match each year. During 2012 and 2011, the Company contributed 100% of the first $2,000 and $1,500, respectively, of the qualified compensation that a participant contributes to the Plan. The matching Company contribution is invested based on the existing allocation of the respective employee. Only employees earning less than $300,000 are eligible for this match. Additional profit sharing amounts may be contributed at the option of the Company's board of directors not to exceed the lesser of $44,000 or 100% of annual compensation. Employer contributions are transferred to the participants account during the first quarter of the next fiscal year.

Vesting of employer contributions occurs immediately if the participant's employment is terminated as a result of attaining the normal retirement age of 65, early retirement, disability, or death. Otherwise, the vesting of benefits is in accordance with the schedule set forth below:

Years of Service	Nonforfeitable Percentage
Less than 1	–
2	33.3%
3	66.7%
4	100%

Forfeitures, which arise when a participant's employment terminates prior to becoming 100% vested, may be used to reduce future Company contributions to the Plan. During 2012 and 2011, forfeitures amounted to $26,678 and $31,252, respectively, and were used to reduce employer contributions for the respective years. Participants vest immediately in their own contributions and investment earnings thereon and, consequently, these contributions are nonforfeitable.

A participant may elect, after attaining the age of 59½, to withdraw all or any portion of the value of his or her account. Withdrawals by participants before the age of 59½ are permitted only after meeting specified financial hardship criteria and approval of the Plan Administrator. If a

1. Plan Description (continued)

participant receives a hardship distribution, the participant will be prohibited from making pre-tax salary deferral contributions (or post-tax contributions) to the Plan for a six month period beginning on the date the participant received the hardship distribution. Any taxable withdrawals from this Plan prior to the attainment of age 59½ which are not rolled over into an Individual Retirement Account or other qualified plan may be subject to a 10% penalty by the Internal Revenue Service ("IRS").

Distributions are paid as defined in the Plan document.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and are presented on the accrual basis of accounting.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

The loan must be repaid within a maximum of a five-year period unless the loan is for the sole purpose of buying a principal residence. The total outstanding loan amount per participant cannot exceed the lesser of $50,000 or 50% of the participant's vested interest in the Plan and a reasonable rate of interest will be charged. During 2012, new loans and loan repayments, including interest, amounted to $356,122 and $257,665, respectively, and during 2011, new loans and loan repayments, including interest, amounted to $243,352 and $255,761, respectively. Loan and interest payments are applied to fund balances from which the proceeds were drawn unless otherwise specified by the participant. Interest on loans collected during the year

2. Summary of Significant Accounting Policies (continued)

amounted to $26,034 and $30,134 in 2012 and 2011, respectively, and is included in interest income on notes receivable from participants.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Funding Policy

The Company's funding policy for the employer annual contribution to the Plan is at the Company's discretion. Employee voluntary contributions are made through payroll deductions on a current basis.

Delinquent Participant Contributions

During 2011, the Company failed to transmit certain participant contributions to the Plan in the amount of $26,548 within the time period prescribed by ERISA. Late transmissions of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Company transmitted the delinquent participant contributions to the Plan by April 18, 2012 and reimbursed the Plan for lost earnings in the amount of $247 on May 3, 2012. Related excise taxes were paid by the Company**.** There were no delinquent participant contributions in 2012.

2. Summary of Significant Accounting Policies (continued)

Administrative Expenses and Other Fees

Plan expenses are paid from the Trustee, or if the Company elects to do so, by the Company. Miscellaneous fees represent fees charged to participants for loan processing and other services.

Valuation of Participant Accounts

Separate accounts are maintained for each participant whereby the participant's account is credited for contributions and the gains on the participant's investments. The participant's account will be reduced by its share of Plan expenses and investment losses.

New Accounting Pronouncements

In January 2013, Accounting Standards Update 2013-01 ("ASU 2013-01"), clarified the Scope of Disclosures about Offsetting Assets and Liabilities, replaced Accounting Standards Update 2011-11 ("ASU 2011-11"), Disclosures about Offsetting Assets and Liabilities. ASU 2013-01 is effective for fiscal years beginning on or after January 1, 2013, and interim periods within those annual periods. ASU 2011-11 was intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. ASU 2013-01 limits the scope of the new balance sheet offsetting disclosures to derivatives, repurchase agreements, and securities lending transactions to the extent that they are (1) offset in the financial statements or (2) subject to an enforceable master netting arrangement or similar agreement. The Plan does not believe that the adoptions of ASU No. 2013-01 will have any effect on the Plan's statement of net assets available for benefits.

2. Summary of Significant Accounting Policies (continued)

Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated May 23, 2008, stating that the form of the plan is qualified under Section 401 of the Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2011-6 and 2011-49, the Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress relating specifically to the Plan. The plan administrator believes that the plan remains subject to examination by major tax jurisdictions for 3 years from the date of filing.

Plan Termination

While it has not expressed any intent to do so, the Company has the right to discontinue paying the administrative expenses of the Plan and to terminate the Plan at any time subject to the provisions of ERISA.

In the event of Plan termination, participants' accounts will become fully vested and nonforfeitable. Further, Plan assets will be distributed to each participant in accordance with the participant's account balance.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain

2. Summary of Significant Accounting Policies (continued)

investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

3. Investments and Income Recognition

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants at December 31, 2012 and 2011, and net appreciation/(depreciation) in investments, interest, dividends and interest income on notes receivable from participants for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

Participants can direct their contributions to any of the investment funds in increments of 1%. Participants can elect to change their contribution rate, investment direction of new contributions and transfer existing fund balances among the investment funds on a daily basis.

Investments in mutual funds are stated at fair value, based upon the closing net asset value of the mutual funds on the last business day of the Plan year. Common/collective trusts are also valued at net asset value per share/unit. Money market funds and interest and non-interest bearing cash are valued at cost, which approximates fair value. Self directed accounts are made up of mutual funds, interest bearing cash, and non-interest bearing cash. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Investments and Income Recognition (continued)

The following is a schedule of investments held by the Plan in excess of 5% of the net assets available for plan benefits as of December 31, 2012 and 2011:

4. Fair Value Measurements

Under U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active;
- observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals); or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. As clarified by ASU 2010-06, for fair value measurements using significant other observable inputs (Level 2) and significant unobservable inputs (Level 3), ASC 820 requires a description of the valuation technique (or multiple techniques) used, such as the market approach, income approach or the cost approach and the inputs used in determining the fair values of each class of assets or liabilities. If there has been a change in the valuation technique(s), ASC 820 requires disclosure of that change and the reason for making it. These disclosures should be specific to the particular valuation techniques and inputs used by the entity for each class of assets held. The use of valuation techniques may differ by entity, but all valuation techniques should maximize the use of relevant observable inputs and minimize the use of unobservable inputs in estimating an exit price in the current market

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

Total assets at fair value	$ 47,375,075	$ 5,421,226	$ –	$ 52,796,301

4. Fair Value Measurements (continued)

The Plan recognizes transfers between levels in the fair value hierarchy using the beginning of the period method, which assumes the investment would be transferred in or out of a level at the fair value at the beginning of the reporting period. For the year ended December 31, 2012, there were no transfers between levels.

Common/Collective Trusts

The common/collective trusts fund (which are the Schwab Managed Retirement Trust Funds) (the "Trust" and the "Funds") are designed as a single investment portfolio that adjusts allocations over time to become more conservative and meet the changing risk and return objectives of investors over their expected investment horizon. The asset allocation model for each Fund will include equity (including commodities and global real estate), fixed income, and cash/cash equivalents policy allocations, in accordance with the glide path. The Funds may diversify holdings by investing in assets across a variety of asset classes, including, but not limited to, domestic equity, international equity, global real estate (REITs), commodities, intermediate-term bond, cash/cash equivalents, and inflation-protected bond (U.S. TIPS). The values of the Target Funds will fluctuate up to and after the target dates. There is no guarantee the Funds will provide adequate income at or through retirement. Assets are allocated to a combination of the non-proprietary unitized accounts and collective trust funds. The Funds value the securities in their portfolios every business day. The Funds value their underlying funds and unitized accounts at their respective net asset value. The Plan determines its pro-rata share of the trust to arrive at fair value. There are no restrictions on participant redemptions and no restrictions on Plan level redemptions.

5. Related-Party Transactions

Certain Plan investments are shares of mutual funds or money market funds managed by the Trustee or its affiliates. The Trustee is the custodian as defined by the Plan and, therefore, these transactions qualify as permitted party-in-interest transactions.

Certain officers and employees of the Plan Administrator (who may also be participants in the Plan) perform administrative services related to the Plan's operations, record-keeping and financial reporting. The Plan Administrator pays these individuals' salaries and also pays all other administrative expenses on the Plan's behalf.

5. Related-Party Transactions (continued)

The foregoing transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory and administrative exemptions from the Code and ERISA's rules on prohibited transactions.

6. Subsequent Events

The Plan has evaluated the impact of events that have occurred subsequent to December 31, 2012 through October 11, 2013, the date the financial statements were available for issuance. Based on this evaluation, the Plan has determined that no events were required to be recognized or disclosed in the financial statements.

Report of Independent Auditors

The Trustee and Plan Administrator
Moore Capital Management, LP
401(k) and Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Moore Capital Management, LP 401(k) and Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2012 and 2011, and for the year ended December 31, 2012, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedule

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2012, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Moore Capital Management, LP
401(k) and Profit Sharing Plan

Notes to Financial Statements

December 31, 2012

1. Plan Description

The following description of the Moore Capital Management, LP 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering substantially all employees of Moore Capital Management, LP, (the "Company" or "Plan Administrator"), Belvedere Property Management, LLC and Moore Charitable Foundation, Inc. Prior to July 15, 2006, employees who had reached the age of 19 were eligible for participation after three months of service. Beginning July 15, 2006, all employees regardless of age are immediately eligible to participate in the Plan. The Plan was established on January 1, 1993. On November 1, 2008, Moore Capital Management, LLC effectuated an internal restructuring whereby Moore Capital Management, LLC was replaced by a Delaware entity called Moore Capital Management, LP. Prior to November 1, 2008, the Plan covered all employees of Moore Capital Management, LLC. Charles Schwab Trust Company (the "Trustee") is the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Participants may elect to make a pre-tax salary deferral contribution by payroll deduction of 1% to 50% of their compensation. Provisions of Section 401(a) of the Internal Revenue Code provide that earnings of the Plan are not taxable to the participants until withdrawn. The Internal Revenue Code of 1986, as amended (the "Tax Code"), imposes a limitation (adjusted annually for cost-of-living increases) on participants' pre-tax contributions under Section 401(k) plans and other tax favored plans. The Tax Code imposed a limit of $17,000 for 2012 and $16,500 for 2011. In addition, employees over 50 years old may elect to contribute an additional $5,500 for 2012, unchanged from 2011. Effective January 1, 2011, employees are automatically enrolled into the plan after 45 days at a deferral savings rate of 3%. During these 45 days, employees have the option to opt out of the plan. In addition, if enrolled in the plan, every year on April 1st, employee's deferral savings rate will increase by 1% until they reach 10%.

Beginning January 1, 2006, the Plan included a Roth elective deferral option based on the requirements provided by Code Section 402A, as enacted by the Economic Growth and Tax Relief Reconciliation Act of 2001. The Roth elective deferral option permits participants to make post-tax salary deferral contributions by payroll deduction of 1% to 50% of their compensation.

1. Plan Description (continued)

In addition, participants are allowed to make additional post-tax contributions from 1% up to 50% of compensation, subject to certain limitations.

Rollover contributions arise from qualified contributions to the Plan of certain assets previously held on behalf of participants by other qualified plans.

The Company may contribute a discretionary match each year. During 2012 and 2011, the Company contributed 100% of the first $2,000 and $1,500, respectively, of the qualified compensation that a participant contributes to the Plan. The matching Company contribution is invested based on the existing allocation of the respective employee. Only employees earning less than $300,000 are eligible for this match. Additional profit sharing amounts may be contributed at the option of the Company's board of directors not to exceed the lesser of $44,000 or 100% of annual compensation. Employer contributions are transferred to the participants account during the first quarter of the next fiscal year.

Vesting of employer contributions occurs immediately if the participant's employment is terminated as a result of attaining the normal retirement age of 65, early retirement, disability, or death. Otherwise, the vesting of benefits is in accordance with the schedule set forth below:

Years of Service	Nonforfeitable Percentage
Less than 1	–
2	33.3%
3	66.7%
4	100%

Forfeitures, which arise when a participant's employment terminates prior to becoming 100% vested, may be used to reduce future Company contributions to the Plan. During 2012 and 2011, forfeitures amounted to $26,678 and $31,252, respectively, and were used to reduce employer contributions for the respective years. Participants vest immediately in their own contributions and investment earnings thereon and, consequently, these contributions are nonforfeitable.

A participant may elect, after attaining the age of 59½, to withdraw all or any portion of the value of his or her account. Withdrawals by participants before the age of 59½ are permitted only after meeting specified financial hardship criteria and approval of the Plan Administrator. If a

1. Plan Description (continued)

participant receives a hardship distribution, the participant will be prohibited from making pre-tax salary deferral contributions (or post-tax contributions) to the Plan for a six month period beginning on the date the participant received the hardship distribution. Any taxable withdrawals from this Plan prior to the attainment of age 59½ which are not rolled over into an Individual Retirement Account or other qualified plan may be subject to a 10% penalty by the Internal Revenue Service ("IRS").

Distributions are paid as defined in the Plan document.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and are presented on the accrual basis of accounting.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

The loan must be repaid within a maximum of a five-year period unless the loan is for the sole purpose of buying a principal residence. The total outstanding loan amount per participant cannot exceed the lesser of $50,000 or 50% of the participant's vested interest in the Plan and a reasonable rate of interest will be charged. During 2012, new loans and loan repayments, including interest, amounted to $356,122 and $257,665, respectively, and during 2011, new loans and loan repayments, including interest, amounted to $243,352 and $255,761, respectively. Loan and interest payments are applied to fund balances from which the proceeds were drawn unless otherwise specified by the participant. Interest on loans collected during the year

2. Summary of Significant Accounting Policies (continued)

amounted to $26,034 and $30,134 in 2012 and 2011, respectively, and is included in interest income on notes receivable from participants.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Funding Policy

The Company's funding policy for the employer annual contribution to the Plan is at the Company's discretion. Employee voluntary contributions are made through payroll deductions on a current basis.

Delinquent Participant Contributions

During 2011, the Company failed to transmit certain participant contributions to the Plan in the amount of $26,548 within the time period prescribed by ERISA. Late transmissions of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Company transmitted the delinquent participant contributions to the Plan by April 18, 2012 and reimbursed the Plan for lost earnings in the amount of $247 on May 3, 2012. Related excise taxes were paid by the Company**.** There were no delinquent participant contributions in 2012.

2. Summary of Significant Accounting Policies (continued)

Administrative Expenses and Other Fees

Plan expenses are paid from the Trustee, or if the Company elects to do so, by the Company. Miscellaneous fees represent fees charged to participants for loan processing and other services.

Valuation of Participant Accounts

Separate accounts are maintained for each participant whereby the participant's account is credited for contributions and the gains on the participant's investments. The participant's account will be reduced by its share of Plan expenses and investment losses.

New Accounting Pronouncements

In January 2013, Accounting Standards Update 2013-01 ("ASU 2013-01"), clarified the Scope of Disclosures about Offsetting Assets and Liabilities, replaced Accounting Standards Update 2011-11 ("ASU 2011-11"), Disclosures about Offsetting Assets and Liabilities. ASU 2013-01 is effective for fiscal years beginning on or after January 1, 2013, and interim periods within those annual periods. ASU 2011-11 was intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. ASU 2013-01 limits the scope of the new balance sheet offsetting disclosures to derivatives, repurchase agreements, and securities lending transactions to the extent that they are (1) offset in the financial statements or (2) subject to an enforceable master netting arrangement or similar agreement. The Plan does not believe that the adoptions of ASU No. 2013-01 will have any effect on the Plan's statement of net assets available for benefits.

2. Summary of Significant Accounting Policies (continued)

Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated May 23, 2008, stating that the form of the plan is qualified under Section 401 of the Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2011-6 and 2011-49, the Plan Administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress relating specifically to the Plan. The plan administrator believes that the plan remains subject to examination by major tax jurisdictions for 3 years from the date of filing.

Plan Termination

While it has not expressed any intent to do so, the Company has the right to discontinue paying the administrative expenses of the Plan and to terminate the Plan at any time subject to the provisions of ERISA.

In the event of Plan termination, participants' accounts will become fully vested and nonforfeitable. Further, Plan assets will be distributed to each participant in accordance with the participant's account balance.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain

2. Summary of Significant Accounting Policies (continued)

investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

3. Investments and Income Recognition

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants at December 31, 2012 and 2011, and net appreciation/(depreciation) in investments, interest, dividends and interest income on notes receivable from participants for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

Participants can direct their contributions to any of the investment funds in increments of 1%. Participants can elect to change their contribution rate, investment direction of new contributions and transfer existing fund balances among the investment funds on a daily basis.

Investments in mutual funds are stated at fair value, based upon the closing net asset value of the mutual funds on the last business day of the Plan year. Common/collective trusts are also valued at net asset value per share/unit. Money market funds and interest and non-interest bearing cash are valued at cost, which approximates fair value. Self directed accounts are made up of mutual funds, interest bearing cash, and non-interest bearing cash. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Investments and Income Recognition (continued)

The following is a schedule of investments held by the Plan in excess of 5% of the net assets available for plan benefits as of December 31, 2012 and 2011:

4. Fair Value Measurements

Under U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active;
- observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals); or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. As clarified by ASU 2010-06, for fair value measurements using significant other observable inputs (Level 2) and significant unobservable inputs (Level 3), ASC 820 requires a description of the valuation technique (or multiple techniques) used, such as the market approach, income approach or the cost approach and the inputs used in determining the fair values of each class of assets or liabilities. If there has been a change in the valuation technique(s), ASC 820 requires disclosure of that change and the reason for making it. These disclosures should be specific to the particular valuation techniques and inputs used by the entity for each class of assets held. The use of valuation techniques may differ by entity, but all valuation techniques should maximize the use of relevant observable inputs and minimize the use of unobservable inputs in estimating an exit price in the current market

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

4. Fair Value Measurements (continued)

The Plan recognizes transfers between levels in the fair value hierarchy using the beginning of the period method, which assumes the investment would be transferred in or out of a level at the fair value at the beginning of the reporting period. For the year ended December 31, 2012, there were no transfers between levels.

Common/Collective Trusts

The common/collective trusts fund (which are the Schwab Managed Retirement Trust Funds) (the "Trust" and the "Funds") are designed as a single investment portfolio that adjusts allocations over time to become more conservative and meet the changing risk and return objectives of investors over their expected investment horizon. The asset allocation model for each Fund will include equity (including commodities and global real estate), fixed income, and cash/cash equivalents policy allocations, in accordance with the glide path. The Funds may diversify holdings by investing in assets across a variety of asset classes, including, but not limited to, domestic equity, international equity, global real estate (REITs), commodities, intermediate-term bond, cash/cash equivalents, and inflation-protected bond (U.S. TIPS). The values of the Target Funds will fluctuate up to and after the target dates. There is no guarantee the Funds will provide adequate income at or through retirement. Assets are allocated to a combination of the non-proprietary unitized accounts and collective trust funds. The Funds value the securities in their portfolios every business day. The Funds value their underlying funds and unitized accounts at their respective net asset value. The Plan determines its pro-rata share of the trust to arrive at fair value. There are no restrictions on participant redemptions and no restrictions on Plan level redemptions.

5. Related-Party Transactions

Certain Plan investments are shares of mutual funds or money market funds managed by the Trustee or its affiliates. The Trustee is the custodian as defined by the Plan and, therefore, these transactions qualify as permitted party-in-interest transactions.

Certain officers and employees of the Plan Administrator (who may also be participants in the Plan) perform administrative services related to the Plan's operations, record-keeping and financial reporting. The Plan Administrator pays these individuals' salaries and also pays all other administrative expenses on the Plan's behalf.

5. Related-Party Transactions (continued)

The foregoing transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory and administrative exemptions from the Code and ERISA's rules on prohibited transactions.

6. Subsequent Events

The Plan has evaluated the impact of events that have occurred subsequent to December 31, 2012 through October 11, 2013, the date the financial statements were available for issuance. Based on this evaluation, the Plan has determined that no events were required to be recognized or disclosed in the financial statements.
