1) Description of the Plan

The following description of the River City Bank Tax Deferred Investment Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution retirement plan established on January 1, 1999. The Plan is sponsored by River City Bank (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

The Company pays the majority of the expenses incurred in the administration of the Plan. Certain fees such as loan origination fees are paid for from the particular participant's account.

b) Eligibility

All employees of the Company, except certain temporary employees, who are age twenty-one or older and complete one month of service are eligible to participate in the Plan, as defined.

c) Contributions

Participants may elect to contribute up to 50% of their pretax annual compensation subject to the statutory limitations. Commencing in 2009, the Company shall make nondiscretionary matching contributions in an amount equal to 4% of each participant's plan compensation contributed as an elective deferral. Prior to this change, the match was discretionary. For the Plan years ended December 31, 2009 and 2008, the Company match was 4% and 3%, respectively.

d) Participant accounts

Each participant's account is credited with the participant's contributions, the allocation of the Company's contributions and Plan earnings or loss and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on the compensation or account balances of the participants, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

e) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The Company's contributions and earnings thereon become vested at a rate of 20% per year beginning with the first year of credited service and are fully vested after five years.

1) Description of the Plan, Continued

f) Forfeitures

In the event participants terminate employment for reasons other than death, disability, or retirement, the participants shall forfeit the unvested portion of their account balances. These forfeitures are used to reduce the Company's contributions. As of December 31, 2009 and 2008, $13,939 and $7,882 of forfeited employer matching contributions were applied to offset employer contributions receivable reflected in the financial statements, respectively.

g) Payment of benefits

On termination of service due to death, disability, or retirement, but in no event later than attainment of age 70 ½, a participant or beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2) Summary of Significant Accounting Policies

a) Method of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

b) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c) Risk and uncertainties

The Plan provides for various investment options in any combination of fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2) Summary of Significant Accounting Policies, Continued

d) Investment valuation and revenue recognition
The Plan's investments are reported at fair value. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation of investments is recognized in the year in which the fair value change occurs and includes any realized gains or losses and investment management fees. Purchases and sales of securities are recorded on a trade-date basis.

e) Benefit payments
Benefit payments are recorded when paid.

f) Adoption of new accounting standards
Reporting of Subsequent Events: In February 2010, the FASB issued guidance which requires plan management to evaluate the effects of events that occur subsequent to the financial statement date through the date the financial statements are available to be issued and to disclose in the financial statements the date through which subsequent events have been evaluated. In addition, the Plan is required to reflect in its financial statements the effects of subsequent events that provide additional evidence about conditions at the financial statement date (recognized subsequent events). The Plan is prohibited from reflecting in its financial statements the effects of subsequent events that provide evidence about conditions that arose after the balance-sheet date (nonrecognized subsequent events), but information about those events is required to be disclosed if the financial statements would otherwise be misleading. This guidance was effective for financial statement periods ending after June 15, 2009 with prospective application. Adoption of this guidance in 2009 had no material effect on the Plan's financial statements.

Fair Value Measurements and Disclosures: In April 2009, the FASB issued guidance that emphasizes that the objective of a fair value measurement does not change even when market activity for the asset or liability has decreased significantly. Fair value is the price that would be received for an asset sold or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. When observable transactions or quoted prices are not considered orderly, then little, if any, weight should be assigned to the indication of the asset or liability's fair value. Adjustments to those transactions or prices should be applied to determine the appropriate fair value. The standard also requires increased disclosures. The guidance was applied prospectively in 2009, and the impact of adoption of this standard was not material to the Plan's net assets available for benefits.

3) Participant Loans

Under the terms of the Plan, participants may borrow from their accounts subject to limitations set forth in the Plan document and the Internal Revenue Code. Participants may borrow from their accounts up to the lesser of 50% of their vested account balance or $50,000. Loan transactions are treated as a transfer to (from) the investment funds from (to) the Loan Pool Fund. General-purpose loans must be repaid within five years and loans to purchase a primary residence must be repaid within fifteen years. Loan origination fees deducted from the participants accounts during the years ended December 31, 2009 and 2008, were $400 and $250, respectively. The loans are secured by the balance in the participant's vested account and bear interest at a rate of prime plus 1% at the time of origination. Principal and interest is paid ratably through monthly payroll deductions. Interest rates on participant loans ranged from 4.25% to 9.25% as of December 31, 2009. At December 31, 2009 and 2008, participant loans amounted to $55,843 and $71,400, respectively.

4) Fair Value Measurements

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

4) Fair Value Measurements, Continued

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Participant loans: Participant loans are reported at their outstanding balances, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

Collective trust fund: The fair value of the Plan's interests in the Bank of America Retirement Preservation Trust, formerly the Merrill Lynch Retirement Preservation Trust, is based upon the net asset values of such fund, after adjustments to reflect all investments at fair value, including indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund. The fair value of the collective trust fund is classified within level 2 of the fair value hierarchy. The fund invests in traditional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

4) Fair Value Measurements, Continued

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2009 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments (other than participant loans):			
Domestic Equity Mutual Funds	$3,721,151	$ -	$ -
Foreign Equity Mutual Funds	1,282,641	-	-
Fixed Income Mutual Fund	700,383	-	-
Collective Trust Fund	-	2,086,139	-

	Fair Value Measurements at December 31, 2008 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments (other than participant loans)	$4,556,473	$1,970,399	$ -

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a collective trust fund. As of December 31, 2009 and 2008, there were $152,208 and $318,102 adjustments from fair value to contract value presented in the statements of net assets available for benefits.

5) Investments – Unaudited Information

Substantially all investment information included in the financial statements, including interest and dividend income and net appreciation (depreciation) in the fair value of investments was certified by the Plan trustee, Bank of America, N.A. (Bank of America) in 2009, and Merrill Lynch Bank and Trust, FSB (Merrill Lynch) in 2008, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. During 2009, Merrill Lynch merged with Bank of America and Bank of America became the successor trustee. This information has not been audited by independent accountants.

Individual investments representing 5% or more of net assets for Plan benefits at December 31, 2009 and 2008, are as follows:

	2009	
	Shares	**Fair Value**
Bank of America Retirement Preservation Trust (Contract value of $2,238,347)	2,238,347	$2,086,139

During the year ended December 31, 2009 and 2008, the Plan's assets earned interest income of $131,103 and $276,271, respectively.

During the year ended December 31, 2009 and 2008, the Plan's mutual fund investments, including gains and losses on investments bought and sold, as well as held during the years, appreciated (depreciated) in value by $1,355,929 and $(2,940,224), respectively.

6) Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 12, 2004, that the Plan is designed in accordance with applicable sections of the Code. The Plan has been amended since the determination letter date; however the Plan's administrators believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan were to terminate all participants would become 100% vested in their account balances.

8) Party-In-Interest Transactions

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments are units of a collective trust fund managed and/or held by Bank of America in 2009 and Merrill Lynch in 2008, trustees of the Plan in the respective years, therefore, these investments qualify as parties in interest. The Plan also holds mutual funds issued by Blackrock, who is an affiliate of Bank of America. These investments also qualify as party-in-interest investments. Lastly, the plan holds participant loans which also qualify as a party-in-interest investment. Fees paid by the Plan to Merrill Lynch for administrative expenses qualify as party-in-interest transactions. The fees amounted to $1,060 and $869 for the years ended December 31, 2009 and 2008, respectively.

9) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008 to the Form 5500:

	2009	2008
Net assets available for benefits per the financial statements	$ 8,272,099	$ 7,123,965
Excess of contract value over estimated fair value of investment in collective trust fund	(152,208)	(318,102)
Net assets per the Form 5500	$8,119,891	$6,805,863

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2009 per the financial statements to the net income (loss) reported in the Form 5500:

	2009	2008
Increase (Decrease) in net assets available for benefits per the financial statements	$ 1,148,134	$(2,267,585)
Change in excess of contract value over estimated fair value of investment in collective trust fund	165,894	(318,102)
Net income (loss) per the Form 5500	$ 1,314,028	$(2,585,687)

10) Subsequent Events

Plan management has evaluated subsequent events for recognition and disclosure through August 11, 2010, which is the date the financial statements were available to be issued.
